"Here's to my country. May it always be right, but right or wrong —my Country."

"I pledge allegiance to my Flag and to the Republic for which it stands —one nation indivisible, with liberty and justice for all."

Rec'd. Mar 26-1979

The Star-Spangled Banner

Oh! say, can you see, by the dawn's early light,
What so proudly we hailed at the twilight's last gleaming?
Whose broad stripes and bright stars through the perilous fight,
O'er the ramparts we watched were so gallantly streaming;
And the rocket's red glare, the bombs bursting in air,
Gave proof through the night that our flag was still there;
Oh! say, does the star-spangled banner still wave
O'er the land of the free and the home of the brave?

On that shore dimly seen through the mists of the deep,
Where the foe's haughty host in dread silence reposes,
What is that which the breeze, o'er the towering steep,
As it fitfully blows, now conceals, now discloses?
Now it catches the gleam of the morning's first beam,
In full glory reflected, now shines on the stream;
'Tis the star-spangled banner! oh, long may it wave
O'er the land of the free and the home of the brave!

Oh! thus be it ever, when freemen shall stand
Between their loved homes and the war's desolation;
Blest with victory and peace, may the heaven-rescued land
Praise the power that hath made and preserved us a nation.
Then conquer we must, when our cause it is just,
And this be our motto, "In God is our trust."
And the star-spangled banner in triumph shall wave
O'er the land of the free and the home of the brave!

Francis Scott Key

PREFACE.

The Missouri Manual is published by authority of the laws of this State, and its contents are properly impartial and unprejudiced. Effort has been made to obtain the most reliable information for use in its various departments. Wherever possible, contents have been compiled from official records and documents. Where unofficial data have been used, special care has been taken to obtain accurate information. Election returns are obtained from official sources and political information has come through the regular organizations of the respective parties. Effort has also been made to include only such matter as is of special interest to those who have frequent need for the publication. The frequent changes in the proprietorships of the newspaper publications of this State make it a difficult matter to give accurate information on this particular subject. This list has been carefully gone over and corrections have been made to the day of publication.

STATUES.

Samuel L. Clemens, "Mark Twain."

General Sterling Price. Brigadier-General James Shields.

STATUES

STATUE OF SAMUEL L. CLEMENS ("MARK TWAIN").

Monument erected in Riverview park, Hannibal, Mo. Erected under the supervision of commission composed of F. L. Schofield, W. F. Chamberlain, S. F. Roderick, W. B. Pettibone and John L. RoBards by authority of special act of the Forty-sixth General Assembly, introduced by Frank H. Sosey, which General Assembly appropriated ten thousand dollars for the erection of the statue. Frederick C. Hibbard of Chicago, sculptor. The figure is of bronze, nine feet high, mounted on a pedestal of Missouri granite seven feet in height. The monument bears the following inscription: "Samuel Langhorne Clemens, 1835—Mark Twain, 1910. His religion was humanity and a whole world mourned for him when he died. Erected by the State of Missouri, 1913."

Samuel L. Clemens ("Mark Twain"), the most famous of American humorists, was born at Florida, Monroe county, Mo., November 30, 1835; worked in Ament's printing office and Orion's newspaper office in Hannibal when not in school; turning from the printing office to piloting on the Mississippi river from St. Louis to New Orleans from 1856 to 1861; enlisted and appointed lieutenant in the Confederate army under Gen. Thomas Harris in 1861. He traveled very extensively and made lecture tours of the world in the gathering of material for his books and stories. His best and perhaps his most prominent work was done as a picturesque novelist in "The Adventures of Tom Sawyer" and "The Adventures of Huckleberry Finn." In addition to the works mentioned, he wrote "Innocents Abroad," "The Gilded Age," "A Tramp Abroad," "The Prince and the Pauper," "The Personal Recollections of Joan of Arc," "Tom Sawyer Abroad" and numerous others. He received many honors from universities in the United States and abroad. He received the degree of L. H. D. from Yale University in 1901, LL. D. from the University of Missouri in 1902 and Litt. D. from Oxford University in 1907. He was the most popular writer in America at the time of his death, and it may be doubted if any writer in the world had more popularity or was more widely read than he. He died April 21, 1910.

STATUE OF BRIGADIER-GENERAL JAMES SHIELDS.

Erected at Carrollton, Mo. Monument unveiled November 12, 1914. Erected under supervision of commission composed of Edward A. Dickson, Harry C. Brown and Hiram J. Wilcoxen by authority of special act of the Forty-seventh General Assembly, introduced by Senator Wm. G. Busby. The state appropriated ten thousand dollars for the purpose. Frederick C. Hibbard of Chicago was the sculptor. The figure of bronze is in the uniform of a brigadier-general of the Civil war. It is nine feet high and mounted on a pedestal of Missouri red granite ten feet in height. The monument bears the following inscriptions: On the front: "General James Shields, born in county Tyrone, Ireland, May 10th, 1810; died June 1, 1879. Rests at St. Mary's cemetery, near Carrollton, Mo. Erected by the State of Missouri in recognition of his distinguished public services and exemplary private virtues." On the back: "Soldier, statesman, jurist, patriot, brigadier-general, Mexican war, Cerro Gordo, Chapultepec; Civil war, Winchester, Port Republic; United States Senator from Illinois, Minnesota, Missouri; Governor, Oregon territory; Commissioner, United States Land Office; Justice, Supreme Court of Illinois."

Brigadier-General James Shields immigrated to America in 1826; commissioned by the United States Government as a lieutenant in the Seminole Indian war; elected to State Senate of Illinois in 1836; three years later elected State Auditor of Illinois, serving two terms; appointed Judge of Supreme Court of Illinois in 1843; two years later appointed Commissioner United States Land Office; commissioned brigadier-general, Mexican war, in 1846; two years later appointed Governor of Oregon; elected United States Senator from Illinois in 1849; elected United States Senator from Minnesota in 1857; elected to Congress from Missouri in 1868, but seat given Mr. Van Horn, his opponent; elected to Missouri House of Representatives from Carroll county in 1874, and four years later elected United States Senator from Missouri.

STATUE OF GENERAL STERLING PRICE.

Monument erected at Keytesville, Mo. Unveiled Thursday, June 17, 1915. Erected under supervision of commission composed of J. D. Ingram of Nevada, Mrs. Bondurant Hughes and M. W. Anderson of Keytesville by authority of special act of Forty-sixth General Assembly, introduced by John D. Taylor, which General Assembly appropriated five thousand dollars for the erection of the statue. The McNeal Marble Works of Marietta, Georgia, designed it. The monument stands near the southeast corner of the Price Memorial park. The figure in bronze represents the general standing with his hat in hand addressing his men, is eight feet high, mounted on a pedestal of stone nine feet in height. Heavy bronze plates on each side bear the following inscriptions: On north side, "General Sterling Price; born in Prince Edward county, Virginia, September 11, 1809; resided in Chariton county, Missouri, 1831-1865; Speaker of the House of Representatives of Missouri General Assembly, 1840-1844; elected to Congress, 1844; participated in war with Mexico, 1846-48, rising from rank of colonel to that of brigadier-general; chairman of convention of 1861; major-general in command of Missouri State troops, 1861-1862; died in St. Louis, Mo., September 29, 1867." On south side, "General Sterling Price, 1809-1867;" on west side, "Governor Missouri, 1853-1857;" on east side, "Major-General C. S. A., 1862-1865."

MISSOURI.

HER PEOPLE, HISTORY, INDUSTRIES AND PRODUCTS.

History—Missouri was carved out of the French province known as Louisiana. April 9, 1682, La Salle, the explorer, claimed for his government nearly the entire Mississippi valley. The French Governor's official residence to 1701 was at Fort Biloxi; from 1701 to 1723 at Mobile, and then at New Orleans. November 3, 1762, France ceded Louisiana to Spain, but the Spanish authorities did not take possession of Upper Louisiana, of which St. Louis was the capital, till May 20, 1770. Spain retroceded Louisiana to France by treaty of October 1, 1800, ratified March 21, 1801, but the actual transfer of Upper Louisiana was not made till March 9, 1804. April 30, 1803, France ceded for a cash consideration the province of Louisiana to the United States, the actual transfer of Upper Louisiana being made March 10, 1804, at St. Louis. Under act of Congress, approved October 31, 1803, President Thomas Jefferson appointed Wm. C. C. Claiborne (who was at the time Governor of the Mississippi territory) Governor, and invested him "with the powers heretofore exercised by the Governor and Intendant of Louisiana." December 20, 1803, Governor Claiborne assumed the government at New Orleans. January 12, 1804, Captain Amos Stoddard was appointed agent and commissioner of the French Republic. In that capacity he had received the province from Delassus at St. Louis March 9, and the following day delivered it to himself for the United States, having been authorized to do so by Wm. C. C. Claiborne, ex officio Governor of the territory of Louisiana. From October 1, 1804, the district of Louisiana consisted of all that part of the territory purchased from France, except that portion lying south of what is now the State of Arkansas. The government was assigned to the officers of the territory of Indiana, of which William Henry Harrison was Governor till March 3, 1805. On this date the territory of Louisiana was erected with the same limits as the district of Louisiana. The capital was St. Louis, and from March 3, 1805, till the last part of 1806 James Wilkinson was Governor. The territory of Missouri was erected December 7, 1812, and had the same limits, government and capital as the territory of Louisiana. From December 7, 1812, to July, 1813, Frederick Bates was Secretary and Acting Governor. From July, 1813 to 1820, William Clark was Governor. Under act of Congress, passed March 6, 1820, the State of Missouri was organized. July 19, 1820, the Constitutional Convention met in St. Louis. September 19, 1820, the state officers assumed their duties. August 10, 1821, the proclamation was issued admitting Missouri as a state. By act of Congress June 7, 1836, which took effect by proclamation March 28, 1837, the western boundary was extended to include the "Platte Purchase," area of which was 3,168 square miles. The present gross area of the state is 69,415 square miles. Until November 1, 1821, the capital was at St. Louis; until October 1, 1826, at St. Charles, and since that date at Jefferson City.

Area—Missouri is larger than any state east of or bordering on the Mississippi river, except Minnesota. From north to south it is 282 miles, averages 335 miles in width, and includes over 44,426,600 acres. The entire states of Maine, Massachusetts, Connecticut, New Hampshire, Vermont, Rhode Island and Delaware could be put down side by side within its limits and still leave almost enough acreage to make another Rhode Island. Missouri is as big as fourteen Connecticuts, thirty-three Delawares, or fifty-five Rhode Islands; is more than half the area of Prussia, one-third that of France, two-thirds of Italy, nearly two-thirds of England, Scotland and Ireland, twice the size of Portugal, and six times Belgium.

Boundaries—The eastern boundary begins at a point in the middle of the main channel of the Des Moines river, due east from an iron pillar on the west bank of said river (established on an "Indian boundary line" run in 1816, and re-established in 1850 as the northern boundary of Missouri); thence down the middle of the main channel of said river to the Mississippi river; thence due east to the middle of its main channel; thence down said line in the Mississippi to the parallel of 36° of north latitude. The southern boundary is coincident with the parallel of 36° of north latitude between the Mississippi and St. Francis rivers, and with the parallel of 36° 30′ of north latitude from the St. Francis river west to the west line of the State. The western boundary begins in the middle of the main channel of the Missouri river on parallel 40° 34′ 40″ of north latitude; thence down the middle of the main channel to the mouth of the Kansas river; thence due south 177 miles, 4

chains and 83 links to the parallel of 36° 30′ of north latitude. The northern boundary from the Missouri river east to the "old northwest corner of the state" (prior to the Platte Purchase) is coincident with the parallel of 40° 34′ 40″ north latitude (the "old corner" was located in 1816 at a point 100 miles due north of the mouth of the Kansas river); thence westwardly to the Des Moines river on a line surveyed in 1816, said line southing about two degrees and marked by certain mileposts and monuments relocated and re-established by commissioners appointed by the United States Supreme Court in 1849.

Soil—In variety, fitness for making profitable the largest number of industries, in richness, excellence and productivity, Missouri has no equal. Its northern, western and southwestern prairie lands, its river valley and bottom lands in northwestern, northeastern, central and southeastern portions are as rich in alluvial deposits as anywhere in the world, and far more extensive than in any state in the Union. The undulating hills forming the watersheds for its many streams are ideal for fruits, grasses, live stock, dairying and poultry raising.

Climate—Situated midway between the limits of the temperate zone, the average temperature is 54 degrees, which is 70 per cent of the average of the United States. Summers are never torrid nor winters frigid. Spring and autumn so merge with other seasons, by the almanac only can one tell where one begins and the other ends. Sunshine and rain are bestowed in such proportion as to give the state front rank in the average percentage of each.

Agriculture—For resources agricultural, Missouri surpasses any equal area on the earth's surface. This does not mean that Missouri produces more of every agricultural product than any other state, but it does produce more of a greater number of products. A few states may excel in a single article, but when all the things necessary to the physical comfort of man and for his material prosperity are taken together, such as corn, wheat, oats, milk, butter, cream, honey, fruits, vegetables, hay, grasses, wool, cotton and tobacco, Missouri is the undisputed leader. The enormous production of cereals and the thousands upon thousands of blue-grass pasture farms, equaling in quality and surpassing in area Kentucky's famous fields, make the raising of live stock a profitable branch of farm industry. Missouri mules have an established reputation on every continent; her thoroughbred and standard-bred saddle and harness horses capture prizes wherever the contest equestrian is known. Missouri stock breeders, with their superb herds of pure-bred cattle, hogs and sheep, furnish prize winners innumerable in the greatest world-wide competition show rings, state and national. The last decennial census gave the approximate value of farms in Missouri devoted to the live-stock industry, of buildings and equipment for carrying on the business of live-stock growing, as in excess of one billion dollars. The number of Missouri farms exceeds that of any other state, and the value as estimated by the federal census reports of the cultivated farm lands is nearly two billions of dollars. Missouri has more apple trees than any other state, and contains the largest orchard in the world. The wheat crop is estimated at $50,000,000.00 annually, and the hay and forage crop at nearly $55,000,000.00 annually. The state is located in the center of the American corn belt. One Missouri farmer grows more corn each year on his farm than is grown in the nine states of Utah, Oregon, Washington, Arizona, Idaho, Montana, Wyoming, Nevada and Rhode Island. Three among Missouri's best corn-producing counties grow more corn than is grown in nineteen other states, in which are included all of New England. Missouri grows three times as much corn as all of South America, three-fifths as much as all of Europe and nearly one-half as much as all the world outside of the United States. The value of the annual corn crop of the state exceeds an average of a million dollars in each of the one hundred and fourteen counties, or a total in round numbers of $120,000,000.00. The last official report places the total annual value of the principal crops of Missouri at $250,000,000.00.

Mining—Ever since Fernando De Soto conducted into the interior the expedition that led to the discovery of the Mississippi river, Missouri has been known as a mineral country. This country now includes the production of kaolin, copper, silver, tripoli, nickel, cobalt, iron, baryta, coal, lead and zinc. Missouri quarries marble, granite, limestone, sandstone and various clays in great abundance and of the finest quality. This state produces two-thirds of the spelter made from zinc ore mined in the United States and about 60 per cent of all the zinc ore mined on the North American continent; twenty-two states produce zinc, but Missouri's product is about twice as much as all the others and five times as much as that of Colorado, the nearest competitor. The 1914 output was nearly $15,000,000.00, or more than a million a month. In nickel and cobalt Missouri divides with Oregon the honor of leading. Notwithstanding the discriminations of the steel trust; whose blighting hand is against the iron ore resources of this State, yet Missouri is annually producing a quarter million dollars' worth. Missouri is the leading state in the production of barytes, placing as much on the market as all the other states, and doubling the tonnage produced in Tennessee, the state next in rank. In the production of coal Missouri surpasses Texas, Arkansas, New Mexico, Oklahoma, Utah, Washington, Nebraska, Michigan and rivals Virginia. The value of the 1914 annual production was a little less than $7,000,000.00. The supply is estimated at nearly forty billion tons, and at the present rate of consumption will last nine thousand years.

Missouri is also the leading lead-producing state. The annual production is about three hundred thousand tons, valued at approximately $15,000,000.00. When reduced to pig lead the worth to the smelters is in round numbers nearly five millions more. The total value of the annual output of mines, quarries, stone and clay products is about $40,000,000.00, an amount far in excess of the widely exploited values of the gold or silver output of the Rocky Mountain states.

Manufactures—Central geographical location, close proximity to great markets, excellent transportation facilities, abundant supply of cheap fuel, unsurpassed water power and hydro-electric facilities, inexhaustible natural resources and raw materials, make Missouri the best and most advantageous state in the Union for prosperous factories. The energy, thrift and enterprise of the people have placed the state near the top as a manufacturing center, passing many of the states much older. The last census report credits Missouri with 8,375 manufacturing establishments, giving employment to 185,705 persons who receive during the year in salaries and wages $109,837,000.00. Of the number employed 152,993 are wage-earners. The value of the products of the factories was $574,111,000.00, to produce which materials costing $354,411,000.00 were used. The packing house products of the state have reached the high valuation of eighty millions a year. As a boot and shoe manufacturing State Missouri has been gaining rapidly, and now divides honors with Massachusetts, a state that for many years held the lead in this industry. Missouri's sixty-odd boot and shoe factories are producing annually footwear values in excess of sixty millions of dollars. The product of flour mills and grist mills adds nearly fifty millions more annually to the wealth of the state, while breweries and bakeries pile up another fifty million. Everything mankind may need or want is manufactured in Missouri. The following partial list of factory products is given to show the varied character of the manufacturing industry. Cob pipes, pearl buttons, soap, glass, musical instruments, lime, electrical instruments, spelter, zinc oxide, white lead, drugs, street and railway cars, motor vehicles, rubber goods, flags and banners, books, furniture, brick, tile, bed springs, stoves, cement, dynamite, coffins, surgical and mathematical instruments, chemicals, dyes, engines, boilers, farm implements, carriages, wagons, stoneware, pottery, paper, paint, clothing, leather goods, millinery, wire, gas, jewelry, confectionery, food preparations, brooms, brushes, and hundreds of other articles. A more inviting field for capital and labor cannot be found than the one Missouri furnishes to the world.

Poultry—All the silver annually mined in the United States is worth less than the annual poultry products of Missouri. This state "counts her chickens" now by the scores of millions, after they are hatched and while they are laying, for the annual production of eggs hovers about 100,000,000 dozens. The poultry crop and the wheat crop of Missouri are running a "nip-and-tuck" race, the former, however, gaining rapidly. Where one hen now disturbs the silent solitude of the Ozark cop and glen, in a few years ten or twenty will cackle to boast of their achievements. Climate, soil and water have made Missouri the home of the hen. Her cackle has already far surpassed in commercial importance the bray of the justly celebrated mule. Though worth as much as Missouri's wheat or mineral output, the hen has scratched the humus of but a small fraction of Missouri's forty-four million acres.

Lumber—Missouri is one of the few "middle states" that yet markets ties, lumber, lath and shingles in large quantities. The state annually markets about ten million ties, worth about $4,000,000.00 to the producer. More than a thousand sawmills had an output of 660,159,000 feet of lumber in one year, according to the last census report, the approximate value of which was, in round numbers, $30,000,000.00. This product, however, has now begun to diminish.

Dairying—Wonderful progress is being made in this industry in Missouri. The surplus dairy production of 1914 was valued at $18,000,000.00. The annual butter output is estimated at $12,000,000.00. All parts of the state are well adapted to the dairy industry. Nearly one-half the area of the state is better adapted to dairying than any other industry, as the climate is such as to require a minimum amount of winter feeding and a maximum amount of pasturing. An abundance of pure, clear water in all parts of the state, and especially that part which produces a luxuriant growth of grasses, is a very favorable factor. One very important advantage that is contributing so largely to the rapid growth of dairying in Missouri is the large market found in close proximity created by the dense population of the large cities in Missouri and near its boundaries.

Education—The State University at Columbia stands at the head of the system. Five state normal schools, Lincoln Institute, a school for the deaf and dumb, and one for the blind, supplement the work of the common and high schools. The large available public school fund with which the system is endowed gives Missouri a unique and prominent distinction in the school world. This permanent fund is now $15,000,000.00, besides which there is $43,816,942.00 invested in schoolhouses. The state has 10,912 public schoolhouses with 18,859 rooms, wherein 19,440 teachers daily instruct 914,160 pupils. The amount in 1914 spent for public education in Missouri was $17,696,052.13.

Other Advantages—Missouri transportation facilities are modern and extensive. The state has sixty-six railroad systems, with 8,136 miles of main track and twenty-six electric-driven roads with 928 miles. More roads are needed to develop the vast resources yet untouched. Many Missouri cities and towns have electric lines, suburban and interurban; some are in course of construction, others extending, and some are being promoted. Missouri has more miles of navigable rivers on and within her borders than any other state. This is a resource of untold value that will be better appreciated when Missouri with the density of Rhode Island's population is sustaining forty millions of people. The only debt Missouri has is the $3,500,000.00 obligation incurred in 1911 for a new capitol. An annual levy of only two cents on the hundred dollars' assessed valuation creates a sinking fund which is already large enough to liquidate nearly half the debt. The state does business on a cash basis, the revenue of a biennial period paying the obligations of that period. The state tax rates are two cents on the one hundred dollars for the capitol, one for the school certificates of indebtedness, five for the public schools, and ten for all other purposes. This rate, with the low assessed valuation, makes Missouri taxes for the maintenance of state government the lowest of any state in the Union. Constitutional tax limitations on state, county and municipality protect the taxpayer from the vagaries and extravagances of the chimerical. No state or nation has more intelligent, progressive, home-loving and God-fearing people than Missouri. A state's most valuable asset is her people. There are no better or more desirable people than Missourians. The queenly womanhood and stalwart manhood of this state appreciate the blessings so bountifully bestowed by the Giver of all good, and are patriotically contributing all the virtues essential to make the commonwealth the best and greatest of the matchless sisterhood of states. In Missouri's name and in the name of the people, a hearty and sincere welcome is here extended to the worthy outside the borders of the state to come and share the enjoyments of home where neighbors are neighborly and life is worth living.

THE GREAT SEAL OF THE STATE.

Governor Alexander McNair, in a message to the first General Assembly, dated St. Charles, Mo., November 6, 1821, called attention to the need of a state seal, and urged the Legislature to adopt, by enactment, devices for the same. A select committee, consisting of Messrs. Smith, Alcorn and Elston, was appointed, Chauncey Smith being chairman, which reported the following bill, the same passing the Assembly, and receiving the approval of the Governor January 11, 1822:

"The device for an armorial achievement for the State of Missouri shall be as follows, to wit: *Arms*, parted per pale, on the dexter side; *gules*, the white or grizzly bear of Missouri, passant guardant, proper on a chief engrailed; *azure*, a crescent *argent*; on the sinister side, *argent*, the arms of the United States; the whole within a band—inscribed with the words 'United we stand, divided we fall.' *For the crest*, over a helmet full-faced, graded with six bars, *or* a cloud proper, from which ascends a star *argent*, and above it a constellation of twenty-three smaller stars, *argent*, on an azure field, surrounded by a cloud *proper*. *Supporters* on each side, a white or grizzly bear of Missouri, rampant, guardant *proper*, standing on a scroll, inscribed with the motto, '*Salus populi suprema lex esto*,' and under the scroll the numerical letters MDCCCXX. And the great seal of the state shall be so engraved as to present by

Other Advantages—Missouri transportation facilities are modern and extensive. The state has sixty-six railroad systems, with 8,320 miles of main track and twenty-six electric-driven roads with 928 miles. More roads are needed to develop the vast resources yet unmarketed. Many Missouri cities and towns have electric lines, supplying and interurban; some are in course of construction, others contemplated, and some are being projected. Missouri has more miles of navigable rivers on and within her borders than any other state. This is a resource of untold value that will be better appreciated when Missouri with the density of Rhode Island's population is sustaining forty millions of people. The only debt Missouri has is the $3,500,000.00 obligation incurred in 1921 for a new capitol. An annual levy of only two cents on the hundred dollars assessed valuation creates a sinking fund which is already large enough to liquidate nearly half the debt. The state does business on a cash basis, the revenue of a biennial period paying the obligations of that period. The state has rates are two cents on the one hundred dollars for the capitol, one for the school certificates of indebtedness, five for the public schools, and ten for all other purposes. This rate, with the low assessed valuation, makes Missouri taxes for the maintenance of state government the lowest of any state in the Union. Constitutional tax limitations on state, county and municipality protect the taxpayer from the vagaries and extravagances of the ultraliberal. No state or nation has more intelligent progressive home-loving and God-fearing people than Missouri. A state's most valuable asset is her people. There are no better or more desirable people than Missourians. The morally wormproof and staymen manhood of this state augments the blessings so bountifully bestowed by the Giver of all good, and are patriotically contributing all the virtues essential to make the commonwealth the best and greatest of the matchless sisterhood of states. In Missouri's name and in the name of the people, a hearty and sincere welcome is here extended to the world, outside the borders of the state to come and share the enjoyments of home where toil is holy and life is worth living.

THE GREAT SEAL OF THE STATE.

its impression the device of the armorial achievement aforesaid, surrounded by a scroll inscribed with the words, 'The great seal of the State of Missouri,' in Roman capitals; which seal shall be in a circular form, and not more than two and a half inches in diameter."

In order to a better understanding of this heraldic language, there is here given definitions of the technical terms used:

Arms: The ensigns armorial consisting of figures and colors borne in shields, banners, etc., as marks of dignity and distinction.

Pale: One of the greater ordinaries, being a broad, perpendicular stripe in an escutcheon equally distant from the two edges and occupying one-third of it.

Dexter: Right.

Sinister: Left.

Gules: Red, to denote courage; represented on printed shields by straight perpendicular lines closely drawn together.

Passant: Walking; a term applied to any animal on a shield which appears to walk leisurely; passing.

Guardant: Having the face turned toward the spectator; regarding; looking.

Proper: Represented in its natural color.

Chief: The upper one-third of the escutcheon.

Engrailed: To indent with curved lines as a line of division or an ordinary.

Azure: Blue.

Crescent: A bearing in the form of the new moon.

Argent: Silver; white.

Crest: An appendage to the shield placed over it and usually borne upon a wreath. It is generally some portion of the coat armor or a device commemorative of some incident in apposite history.

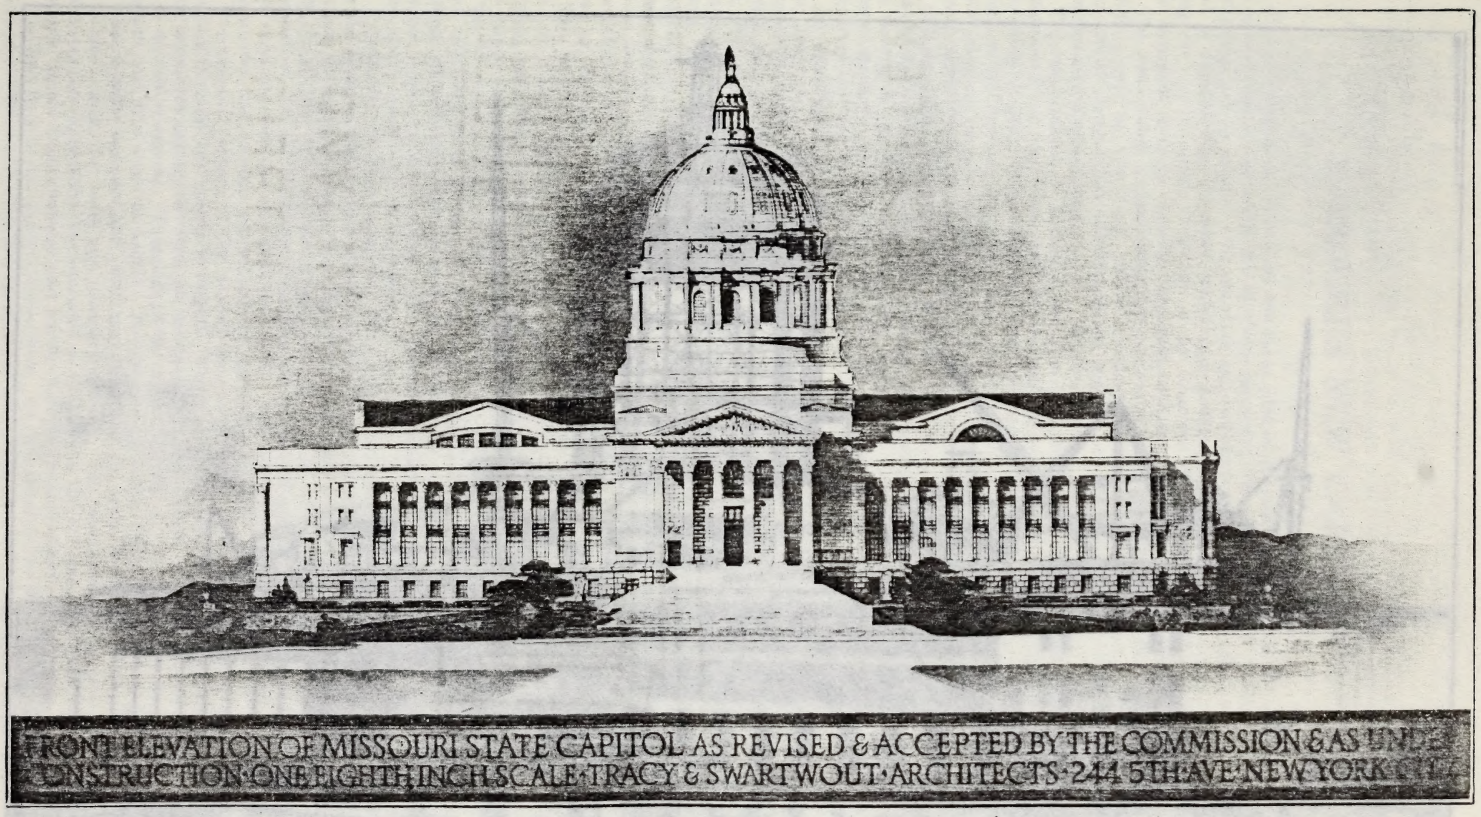

Or: Gold.

Cloud proper: A cloud in natural color.

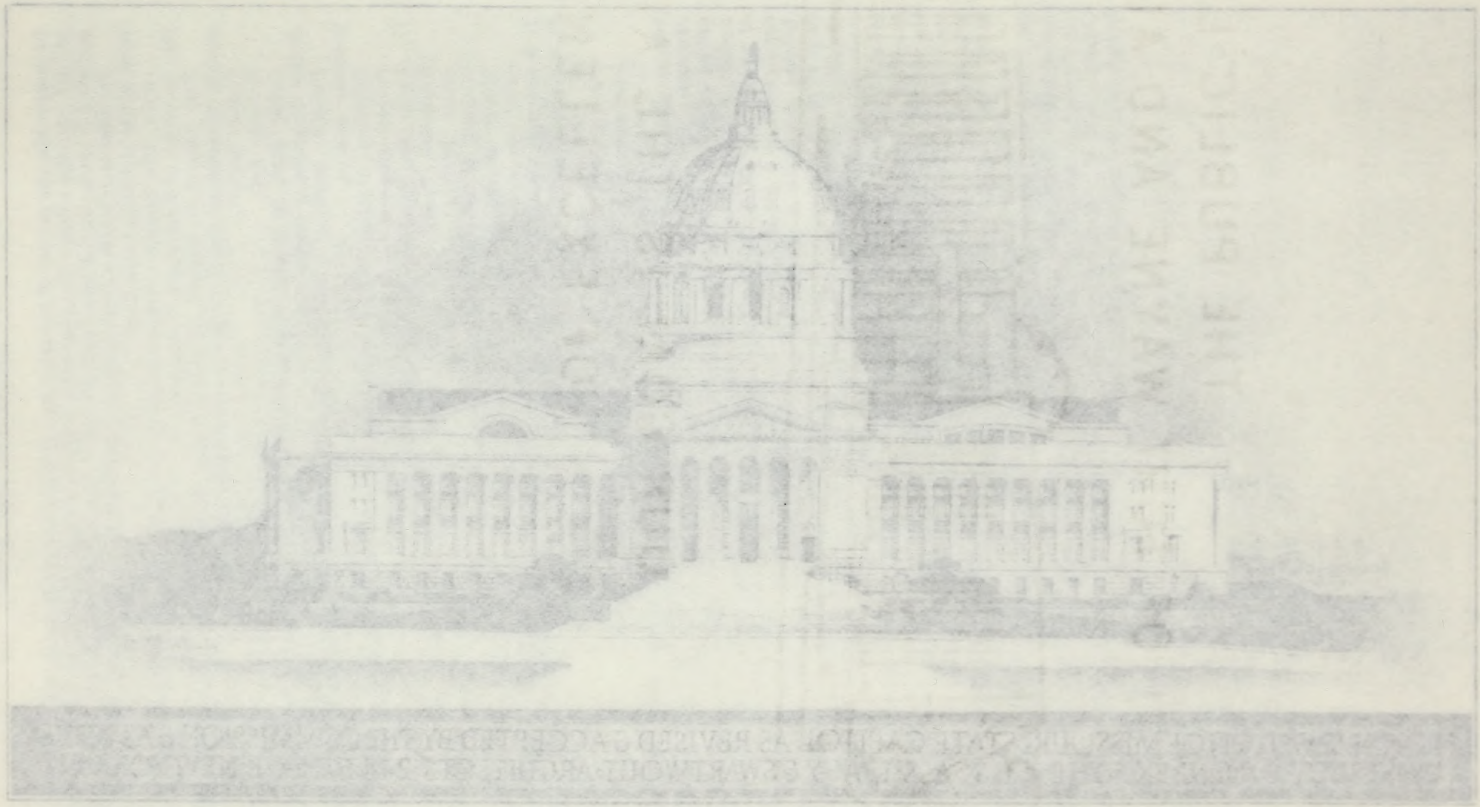

Rampant: Standing upright on his hind legs.

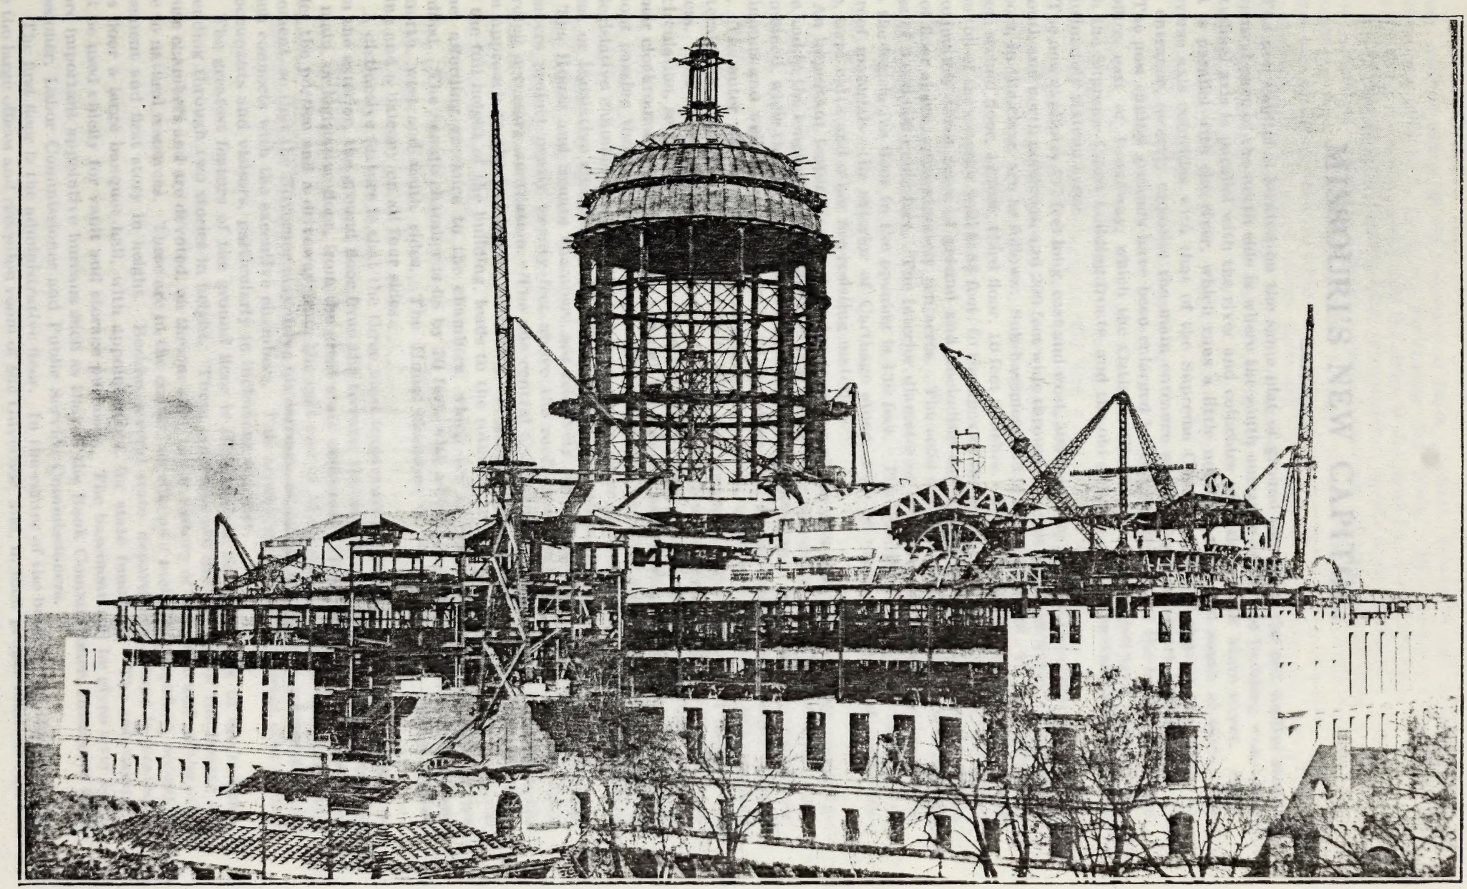

In a study of the cut in connection with the law and the definitions of technical terms, bear in mind that the "dexter," or right side, is the left side of the cut as you look at it, and, of course, the "sinister," or left side, is the right side of the cut. It is quite essential to a proper understanding that this be known. Observe that the coat of arms is, as to its central portion, separated into two great divisions, the sinister side of which is occupied by the coat of arms of the United States, which consists of the eagle with the arrows in its talons, and surmounted by a constellation of stars representing the states. The lower dexter side of the division, the Missouri grizzly bear, and the upper part of it, the crescent or bearing in the form of the new moon, with the various ideas of which it is emblematic, all of which is surrounded by the band, upon which is inscribed the words "United we stand, divided we fall." Over the coat of arms proper is the crest, which is a portion thereof, and, in this case, is a helmet full-faced, grated with six bars, and which represents strength, above which is the star Missouri, with the background a cloud proper and surrounded by twenty-three smaller stars, representing together the number of states then in the Union. All of which is supported on each side by a Missouri grizzly bear rampant guardant proper, standing on a scroll inscribed with the motto "*Salus populi suprema lex esto*," and under the scroll the numerical letters MDCCCXX, which represents the year in which Missouri began its functions as a state.

Hon. William G. Pettus, then Secretary of State, who first carried into effect the statute prescribing the coat of arms by having under its terms engraved a seal of the state, no doubt preferred the grizzly bear, the option being given him, as more thoroughly representing the rugged character of the people of the state. The fact that the coat of arms of the United States is embodied shows the patriotic love of country possessed by the Missouri fathers, and the mottoes are wholesome, strong and patriotic.

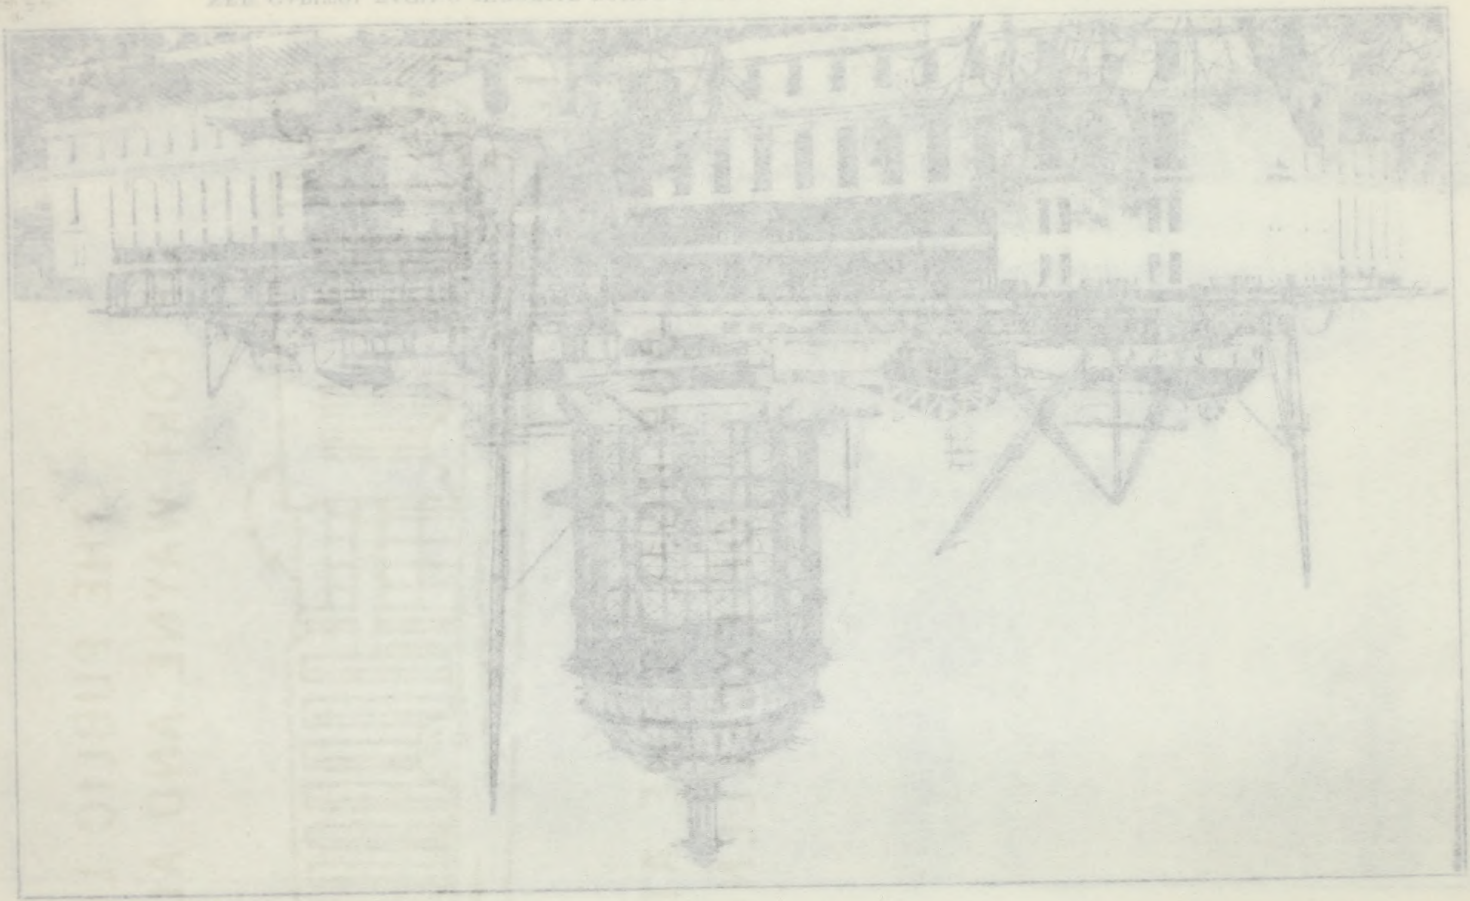

FRONT ELEVATION OF MISSOURI STATE CAPITOL AS REVISED & ACCEPTED BY THE COMMISSION & AS UNDER CONSTRUCTION · ONE EIGHTH INCH SCALE · TRACY & SWARTWOUT · ARCHITECTS · 244 5TH AVE NEW YORK

NEW CAPITOL FACING SUPREME COURT BUILDING AS IT APPEARED ON OCTOBER 30, 1915.

MISSOURI'S NEW CAPITOL.

The new capitol is located on the same plat of ground on which the old capitol stood. The central part of the north side is where the south entrance of the old building was. The longitudinal axis is parallel with the river and coincides with the axis of Main street. Main street is parallel with the river, which runs a little north of west and south of east. The transverse axis coincides with that of the Supreme Court building, bringing the south, or main entrance, directly opposite the main entrance of the Supreme Court building.

The new capitol grounds have been enlarged by the addition of all the land west of the postoffice, east of Broadway, which the Catholic Church faces, and between High street, which the Supreme Court building fronts, and the old grounds, and altogether now embraces approximately sixteen acres.

The new capitol is 437 feet long, east and west, 300 feet wide through the center, embracing the south and north porticoes, and 200 feet wide through the east and west wings. The heights of floors, in the clear, are as follows: Sub-basement, 13½ feet; basement, 17 feet; first floor, 18 feet; second floor, 12 feet; third floor, 10 feet 8 inches. From the floor of the sub-basement to the top of the exterior wall is 88 feet; to the apex of the dome, 262 feet. The capitol covers approximately three acres of ground and, including sub-basement, contains 430,176 square feet of floor space, approximately ten acres. The solid contents of the building is a little in excess of 9,000,000 cubic feet. The interior diameter of the dome is 62 feet and the height from the legislative floor to the opening is 136 feet. The building is constructed entirely of fireproof materials—the exterior of Carthage stone, with all structural parts of steel, concrete, terra cotta and other fire-resisting materials.

An important feature is the throwing together of the first and second floors, under the dome and in the longitudinal passages, so that in the large spaces the full height of two stories is combined, while the circulation and offices are the regular height. The offices are practically continuous and well lighted, being only 26 feet deep, and are all located next to the exterior wall. The outer wall of the first, second and third floors, with the exception of the columns, is laterally all window. The circulation is wide and continuous and has outside light at the corners. The secondary stairs and elevators are in the four corners of the building, just off the circulation, so placed that members of the Legislature can enter, from either side, directly to their cloakrooms without passing through the lobbies, and employes can enter their offices without passing through the corridors. The cloak and conference rooms are at the rear of the legislative chambers, so that the legislators may enter and go directly to their committee rooms, or legislative chambers, without having to pass through the halls or corridors.

The House and Senate chambers are relatively close together. The ceilings of these chambers project nearly twenty feet above the roof, thus receiving outside air and light, affording necessary ventilation. The one central architectural accent of the building is the main approach to the legislative chambers. A grand state stairway, 30 feet wide, in a hall the full height of the building, leads to the rotunda on the second floor under the great dome, affording entrance to the chambers, which are themselves unusually spacious and dignified. The Senate chamber is 68 by 70 feet, with a 50-foot ceiling, with circular balcony on north, west and south sides. The House chamber is 70 by 78 feet, with a 50-foot ceiling and a balcony on all four sides.

A distinctive feature is that the three most important floors may all be entered directly from the exterior, the ground floor from the terrace, the first floor from the portico level and the main, or legislative floor, from the great state staircase. There will be a public entrance under the portico and a driveway from the east end of Main street through the terrace and basement, so that the Governor may drive his carriage, or motor vehicle, to a private elevator which connects with the executive chambers. This arrangement affords a great convenience to occupants and visitors, particularly in inclement weather.

The greatest feature of the ground floor is the museum on either side of the rotunda, extending through two stories in height. These museums are directly below the Senate and House chambers and are devoted, on the one side, to the history of the state and on the other side to natural resources. These are in the center, serving as a main thoroughfare, occupying basement and first story in height. Besides several state departments, there is located on this floor a large banquet hall, with appointments, for state functions. The sub-basement will be used chiefly for vault and storage purposes. The basement will be given over to the more important appointive bureaus such as that of the Bank Commissioner, Insurance Commissioner, Labor Commissioner and Public Service Commissioners.

The first floor is the administrative floor. In the center of the building, on the river side, are the large offices and reception room of the Governor, and, in their proper relations, on this

floor, are the offices of the Secretary of State, Auditor, Treasurer, and Superintendent of Education, with their respective workrooms and vaults. The Governor's reception room, overlooking the north terrace and the river, is the great feature of this floor.

The second, or legislative floor, is approached by the great state stairs, which rise from the portico, on the south, through a vaulted vestibule, 60 feet high, directly to the rotunda under the dome. The Senate chamber is on the east and the House on the west, so arranged that the presiding officers, when intervening doors are opened, may see each other. The conference and committee rooms surround the legislative chambers and are all directly lighted from the exterior. The legislative chambers rise through two stories and extend above the roof, so that not only are they lighted by skylights, but have direct window openings for light and ventilation.

The third floor contains the House and Senate galleries and government departments not housed elsewhere.

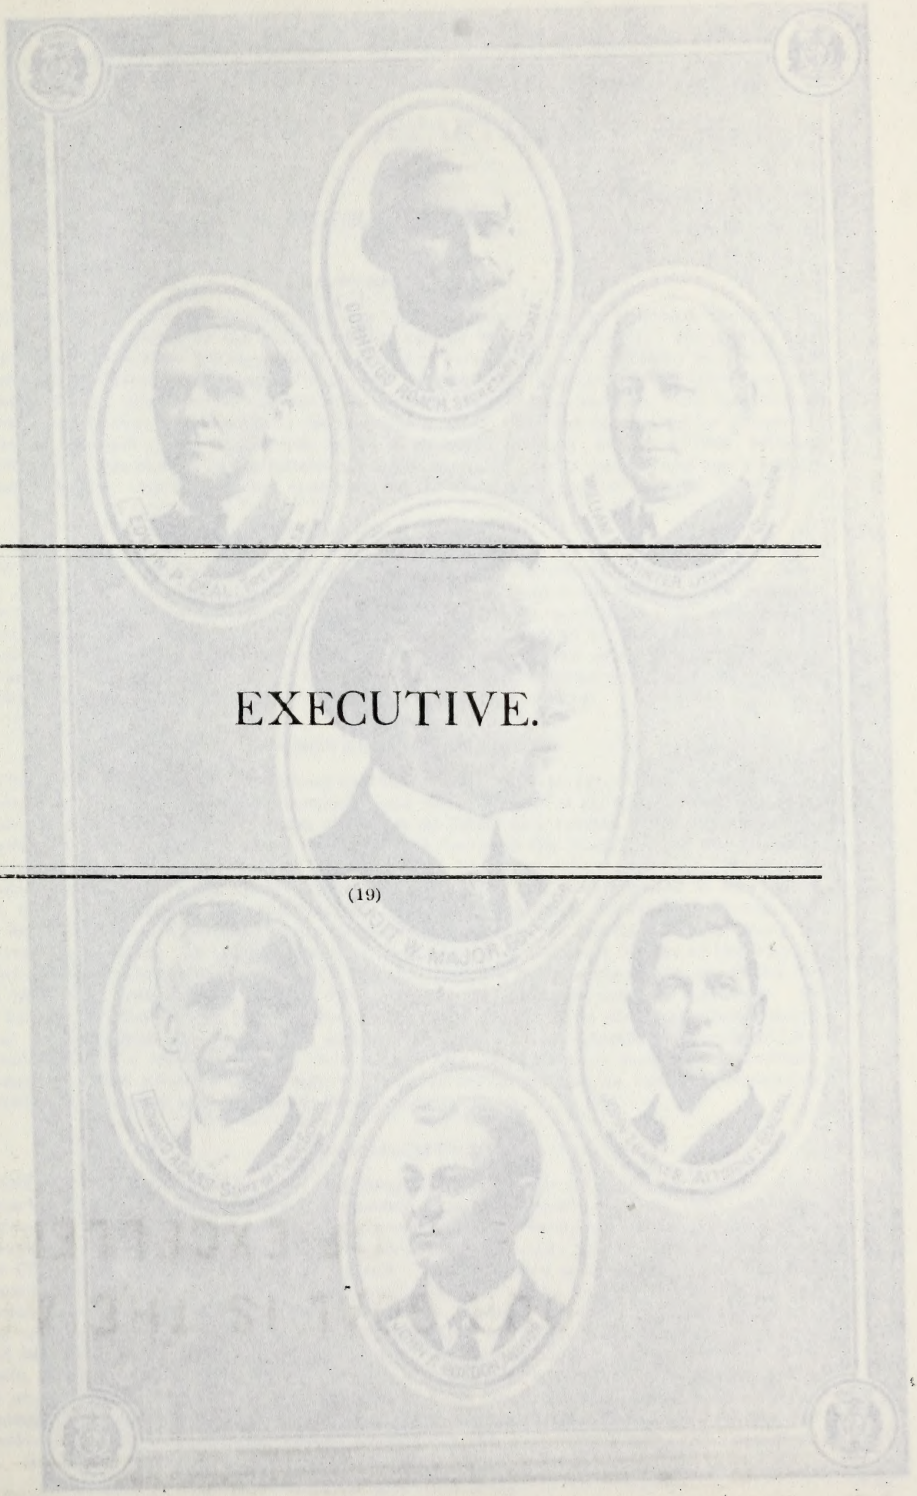

The capitol contains more than one hundred rooms. Contract for construction was let to the John Gill & Sons Co. of Cleveland, Ohio, for $2,860,200.00. This was exclusive of the foundation, the total cost of which was $99,741.40. The total contract cost, therefore, of the new capitol is $2,959,941.40. The foundation includes 285 piers, resting on solid rock, at depths varying from twenty to fifty feet. For the framework 5,200 tons of structural steel were required. In the walls and floors there are 20,000 cubic yards of concrete, 100,000 barrels of cement, 70,000 cubic feet of stone in the interior finish, 240,000 cubic feet of stone and 5,000,000 brick in the exterior walls, and construction material of other kinds in unusually large quantities was required.

The new capitol combines in a remarkable degree the greatest utility with beauty of architecture. In its conception of economy of room, simplicity of arrangement, articulation of departments, uninterrupted circulation, open vistas, stately corridors and exceptional monumental features, it surpasses any other capitol in the United States.

The capitol is a building with 198 columns—134 on the exterior and sixty-four on the interior. On the exterior, rising from the level of the first floor and running entirely around the capitol, are ninety columns. Thirty-two of these are on the sides of the wings of the building, 40 feet high, including base and capitals, engaged, fluted, 4 feet 8 inches in diameter. Twenty are on the ends—same dimension as those on sides save that they are free standing. Eight on south portico and six on north portico are free standing, 48 feet high and 5 feet in diameter. These columns are also fluted. There are twelve plain shafts on the four pylons, 18 inches in diameter, engaged, and 13½ feet high, and eight free standing columns, same height and dimensions, in the re-entrant angles. Around the dome are thirty-two plain columns, 24 feet high and 2½ feet in diameter. About the lantern above the dome are twelve columns, 9 feet high and 1½ feet in diameter. All of these columns are Burlington limestone from the Carthage quarries. On the interior there are ten columns on the basement floor, two Burlington limestone and eight Missouri red granite, 14 feet high and 2 feet in diameter. On the first floor there are four columns in front of the Governor's reception room. On the legislative floor there are fifty columns as follows: Twelve Conway granite monoliths in the House of Representatives, plain, 26 feet high and 2½ feet in diameter; in the Senate sixteen royal antique marble monoliths, 20 feet high and 2 feet in diameter; four in the main rotunda corridor; two in front of the legislative library, eight in the legislative library of marble and eight in the state stairs. All of these are Carthage limestone except where otherwise noted.

The new power house, which will generate the heat for the capitol, Supreme Court, executive mansion and armory, is the handsomest and most substantial of any capitol in this country. It is located west of the capitol site, on adjoining land purchased for $17,700.00. This plant was built at a cost of $45,214.06. It is 94 by 72 feet, 34 feet high, and connected with the capitol by a tunnel 7 by 7 feet and 380 feet long.

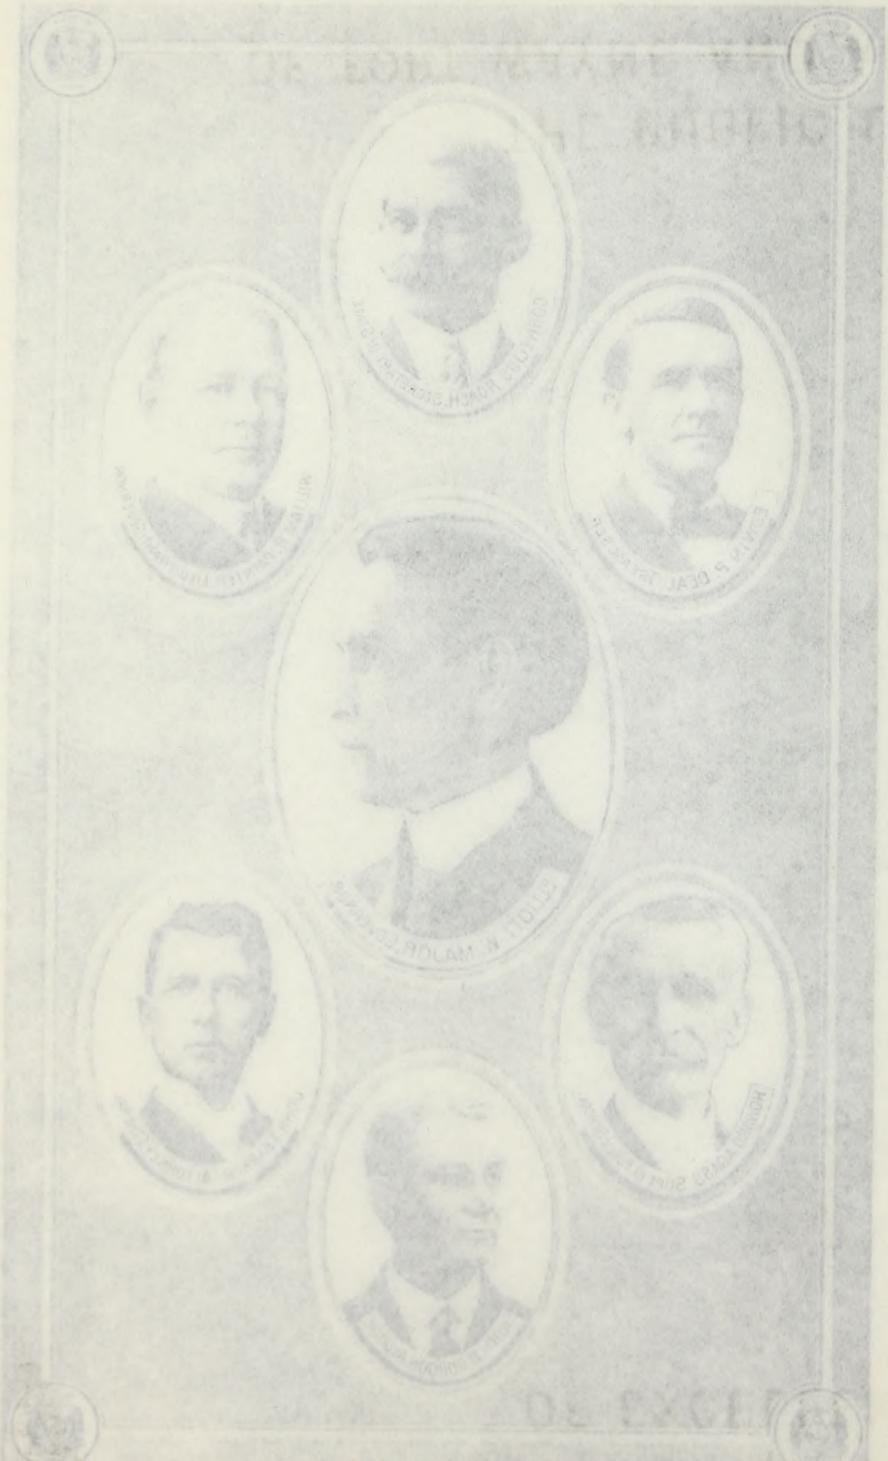

That the state has received unprecedented values, the convincing fact is given that the cost of the power house, including tunnel, is 16 cents per cubic foot, and that the cost of the capitol, including foundation, is 32 cents per cubic foot. The usual cost of monumental public buildings constructed elsewhere is from 50 cents to $1.25 per cubic foot.

BIOGRAPHICAL.

GOVERNOR.

ELLIOTT W. MAJOR (Democrat) was born in Lincoln county, Missouri, October 20, 1864. He was educated in the public schools and at Watson Seminary. He studied law in the office of the Hon. Champ Clark in Bowling Green and was admitted to and began the practice of law on attaining his majority. In 1896 he was elected Senator from the Eleventh district, composed of the counties of Pike, Lincoln and Audrain. He was chosen a member of the commission revising the Statutes in 1899. He was nominated for Attorney-General of Missouri on the Democratic ticket at the state primary, August 4, 1908, without opposition and was elected at the following general election. He is married and has a family of three children. He was elected Governor at the November general election, 1912.

LIEUTENANT-GOVERNOR.

WILLIAM R. PAINTER (Democrat) was born at Carrollton, Carroll county, Missouri, August 27, 1863. He was educated in the public schools of Carrollton, later entering the School of Mines and Metallurgy at Rolla, from which he graduated. In 1885 he was elected county surveyor of Carroll county, which position he held for four years. In 1888 he was married to Miss Cora Herndon of Carrollton. He is now editor and proprietor of the Carrollton Democrat. August 6, 1912, he was chosen by the Democratic party as nominee for Lieutenant-Governor and was elected at the November election.

SECRETARY OF STATE.

CORNELIUS ROACH (Democrat) was born on a farm near Jerseyville, Jersey county, Illinois, August 9, 1863. He was educated in the public schools of his native county and the schools of St. Louis. The early years of his life he spent as a farmer. For eight years he engaged in teaching school, part of which time he "wielded the birch" in the rural schools and part he employed as principal of the Jerseyville, Ill., High School and assistant director and instructor of the Jersey County Teachers' Institute. He next engaged in newspaper work, being first employed as reporter and editor of the Jersey County Democrat. In 1889 he purchased the Jasper County Democrat, published at Carthage, Mo., where he has ever since resided. In 1893 he was elected Secretary of the State Senate of the Thirty-seventh General Assembly of Missouri. To this position he was biennially re-elected for eight successive sessions, up to and including the Forty-fourth General Assembly. In 1908 he was the Democratic nominee for Secretary of State and at the November election of that year was elected. In 1912 he was renominated without opposition and elected for a second term by a majority greater than that of any other nominee except the Governor. His experience has afforded him a notable opportunity to possess an unusually extensive knowledge of Missouri and Missouri's governmental affairs.

STATE AUDITOR.

JNO. P. GORDON (Democrat) of Lexington, Mo., is one of Missouri's native sons. He was born on a farm near Corder in Lafayette county, Missouri, April 29, 1866, receiving his education in the public schools of that county and at Westminster College, Fulton, Mo. He served as deputy county clerk of Lafayette county for eight years and was postmaster under Cleveland at Corder, Mo., for four years. He has served as secretary of the Missouri Drummers' Association and for four years was a member of the board of managers of the Missouri School for the Deaf at Fulton, Mo. Mr. Gordon, himself a militant Democrat comes of southern stock—his mother a Virginian and his father a Kentuckian. He is a son of Maj. Geo. P. Gordon of Lafayette county, who gained fame in General Joe Shelby's Brigade, and is a nephew of Col. Frank Gordon of "Gordon's Regiment." On December 25, 1885, at Las Vegas, N. Mex., he was married to Miss Oma Stoneroad, who is of southern parentage. Mr. Gordon was, prior to his election, employed as a traveling salesman for a number of years, and is widely known throughout this and other states. He has three sons. His entire family are members of the Presbyterian Church.

STATE TREASURER.

EDWIN P. DEAL (Democrat) is a native Missourian, born at Charleston, April 19, 1859. He received his education in the public schools of Missouri and at the United States Naval Academy of Annapolis, Md. He married Miss Mary Crenshaw on September 3, 1879, and has been a resident of this state since his birth. He has been county treasurer and county collector and was appointed by Governor Stone a member of the Swamp Land Commission in 1895, serving as secretary of that commission. Represented Mississippi county in the Forty-fourth, Forty-fifth and Forty-sixth General Assemblies and was chairman of the House Appropriation Committee in the Forty-sixth General Assenbly. He received the Democratic nomination for State Treasurer August 6, 1912, and was elected to that office in November.

ATTORNEY-GENERAL.

JOHN T. BARKER (Democrat) of LaPlata, Mo., was born August 2, 1877, in Carroll county, Missouri; was educated in the public schools of Missouri; is a lawyer and was admitted to the bar in 1898 and has since practiced his profession in Macon county; has been actively engaged in the practice of his profession throughout Northeast Missouri, and is well known to the bar of this State. Was elected to the Legislature in 1906, 1908, and again in 1910. Was the Democratic caucus nominee for Speaker in 1909 and was unanimously elected Speaker of the Missouri House of Representatives in 1911, and established a reputation for fairness and rapid transaction of business. Was nominated by the Democrats for Attorney-General August 6, 1912, in a state-wide primary election; elected Attorney-General to succeed the present Governor, Honorable Elliott W. Major. He married Miss Mayme Fisher of LaPlata and has one child.

STATE SUPERINTENDENT OF SCHOOLS.

HOWARD A. GASS (Democrat) was born August 22, 1852, in Audrain county, Missouri. He received his primary education in the district schools of his native county, later attending the Mexico (Mo.) Male Academy. Completing his course of study he engaged in teaching. He was married in 1876 to Miss Alice Josephine Shell of Audrain county. He was elected county school commissioner of Audrain county in 1885 and was re-elected in 1887, resigning in June of the same year to accept the chief clerkship under State Superintendent W. E. Coleman. He continued in the same position under State Superintendent L. E. Wolfe, resigning in 1893 to devote his entire attention to the Missouri School Journal, of which he had become owner and which he still owns and edits. In 1899 he again entered the office of State Superintendent of Public Schools, as statistician, under W. T. Carrington, which position he held until 1907. He was elected State Superintendent of Public Schools in 1906 and again in 1914.

AGRICULTURE, BOARD OF.

The Governor, the dean of the Agricultural College and the State Superintendent of Schools are ex officio members of the board. The Governor appoints one corporate member from each congressional district, who holds office for three years without pay, except as to expenses in attending board meetings. The officers are elected by the corporate and ex officio members at the annual meeting, held in the office of the board at Columbia, on a date fixed by order of the board. The secretary and treasurer are not members of the board. The secretary is elected annually and receives a salary of $2,500 per year. The treasurer is also elected annually and receives a salary of $100 per year. The assistant secretary is elected annually and receives a salary of $2,500 a year. By an act of the General Assembly of 1915 the corporate members will be appointed for four years in December, 1915, terms of four expiring each year; terms of secretary, assistant secretary and treasurer will be four years, salaries not to exceed $3,000, $2,500 and $100 per annum respectively, beginning January, 1916. The renumeration of the State Veterinarian and his deputies are as established by the board. The Dairy Commissioner and his assistant receive $2,000 and $1,200 respectively. The Inspector of Apiaries receives $4 per day for time actually engaged in work, but for 1915-1916 no appropriation was made. The farmers' institute work is under the direction of the board, and three persons are now engaged on salary—J. Kelly Wright, Sam M. Jordan and Miss Bab Bell; William D. McKee, B. P. Smoot and others are secured for regular or part time as needed; of these it has been said "None better for farmers' institutes in any state." More than a hundred thousand farmers and citizens received this work in 1914, establishing a new record for the board. The monthly bulletins and "annual report" were much in demand, supply in most cases being below the needs as shown by requests unfilled, although the total number of pages issued during 1914 was 21,194,000. Under the revised law the office of secretary issues a "Year Book" instead of an annual report; section 604 (1915) provides that the year book shall be furnished to country and town school libraries where agriculture is taught, but for 1915 and 1916 the year book item in the appropriations is not large enough to send year books to the school libraries. Special campaigns have been or are to be conducted in the interest of alfalfa, better seeding, emergency crops and homemade and home-grown products.

The Missouri State Fair is in charge of the board, acting with a president, who is a member, and with a paid secretary—Edward T. Major—who is not a member of the board. The State Fair at Sedalia is a big institution, and the board is the custodian and successfully manages this million-dollar property and educational enterprise which is truly a big booster for Missouri as a live stock and agricultural state.

The board has other activities, but mention will not be made in detail of each separate line of duty. Under the law the board is advisory council of the College of Agriculture, but the board's authority in this regard does not extend to the degree of power for shaping policies and management.

The Farmers' Institute work is under the direction of the board, and three persons are now employed on salary—J. Kelly Wright, Sam M. Jordan and Miss Ida Belle Williams. Mrs. Rose, R. F. Stone and others are secured for regular or part time as needed; of these it has been said "None better for farmers' institutes in any state." More than a hundred thousand farmers and citizens received this work in 1914, establishing a new record for the board. The monthly bulletins and "annual report" were much in demand, supply in most cases being below the needs as shown by requests unfilled, although the total number of pages issued during 1914 was 2,191,000. Under the revised law the office of secretary issues a "Year Book" instead of an annual report, section 604 (1018) provides that the year book shall be furnished to country and town school libraries where agriculture is taught, but for 1913 and 1916 the year book item in the appropriations is not large enough to send year books to the school libraries. Special campaigns have been or are to be conducted in the interest of alfalfa, better seeding, commercial crops and homemade and home-grown products.

STATE POULTRY EXPERIMENT STATION, MOUNTAIN GROVE.

In order to determine and demonstrate the importance of improved and better methods of the breeding and rearing of poultry and to bring the results of scientific research in the range of all farmers and poultry raisers of Missouri, the Forty-sixth General Assembly created and established a State Poultry Experiment Station at Mountain Grove, Mo. The object and purposes of this institution are to experiment with the different kinds of houses, incubators, brooders and appliances and the different varieties of poultry; to determine which is best adapted to the farmers and poultry raisers of Missouri in the different sections thereof; to make a study of the different diseases to which poultry is subject, and to make other experiments and tests which will tend to the betterment of the poultry interests of the state.

The station is located on thirty-six acres of land partly within the corporate limits of Mountain Grove, in the south-central part of the state.

The State Poultry Experiment Station now has the following buildings: The administration building, which includes the director's, superintendent's and assistant's offices, laboratory, incubator room, educational exhibit, egg rooms, mailing room, feed room, carpenter shop, feeding and killing room, bath and living room; the director's residence; laying houses; brooder houses; barn and implement house and elevator.

The government of the State Poultry Experiment Station is vested in the State Poultry Board, consisting of six members appointed by the Governor for terms of three years each, and an Advisory Board, consisting of the Governor, dean of the College of Agriculture and the secretary of the State Agricultural Board. The State Poultry Board has direct charge of the state poultry shows, and conduct poultry institutes and poultry extension work throughout the state. Members of the board serve without pay, except expenses occurring in attending meetings. The secretary of the board, who is also director of the Experiment Station, receives $2,000 per annum and traveling expenses.

THE STATE LEGISLATURE.

The Legislature of Missouri convenes in regular session in the State capitol at Jefferson City on the first Wednesday after the first day of January in each odd numbered year. It is divided into two houses, called the Senate and the House of Representatives, collectively designated as the General Assembly of the State of Missouri. The Senators are elected for four years—those from the odd numbered districts being chosen in the same year of the Presidential election, and those from the even numbered districts in the intervening even numbered years.

There are under the present apportionment thirty-four Senators and one hundred and forty-two Representatives. The members of the House are elected every two years. The Senate is presided over by the Lieutenant-Governor, who receives a salary of $1,000 a year and a per diem of $7.00 when presiding over the Senate. The Senators receive a per diem of $5.00 per day during the first seventy days of each regular session, and for 120 days for each revising session, and after that time but one dollar per day.

The House is presided over by a Speaker of its own selection, whose per diem is the same as that of Lieutenant-Governor, and the members receive the same per diem and are under the same restrictions as to length of session as are the members of the Senate. The members of both House and Senate receive traveling expenses in coming to and returning from the session, and thirty dollars per session for stationery and postage.

STATE SENATORS AND REPRESENTATIVES OF MISSOURI

(*From the First to the Forty-eighth General Assembly, inclusive*).

The first printed list of Senators and Representatives of Missouri appeared in the Missouri Manual for 1897-98, and was compiled by Secretary of State A. A. Lesueur. Absolute correctness was not claimed for the list then, but it was as complete as information at hand, official and unofficial, could make it. With the destruction of the capitol by fire in 1837, all records, from which an officially correct list could have been compiled, were destroyed. The information herein, prior to 1837, was therefore obtained from unofficial but reliable sources and compiled with great difficulty.

The information given for the period since 1837 was gathered from the journals in possession of the State and some in possession of the Missouri Historical Society. In recent legislative journals there appear within the first few pages complete lists of Senators and Representatives prepared by the Secretary of State. Not so in the journals of the earlier sessions of the General Assembly. The name of the member appeared first on the page of the journal the day he presented his credentials; and as those days were before railroads, members put in but a straggling appearance—weeks, oftentimes, after the opening of the session, and sometimes not at all. As a result, to get a complete list of the members of any one General Assembly, nearly every page of the journals had to be carefully scanned, and as some of the journals accessible had many missing pages, names necessarily were missed. In two or three of the mutilated journals the names of the members could be obtained only from the record of the roll call, which, of course, neither gave the given names nor counties.

*Elected special election to fill vacancy caused by death of Martin Ward.

STATE CONSTITUTIONAL CONVENTIONS.

Missouri has provided for the holding of, and has held, four conventions for the purpose of framing or revising the State's Constitution.

Convention of 1820.

By act of Congress, approved March 6, 1820, the people of Missouri, then organized into fifteen counties, were authorized to hold an election on the first Monday and two succeeding days in May, 1820, to elect delegates to a convention to be held in St. Louis, then the seat of government, on June 12th of that year. At this election the counties elected delegates, as follows:

Cape Girardeau—Stephen Byrd, James Evans, Richard S. Thomas, Alexander Buckner, Joseph McFerron.
Cooper—Robert P. Clark, Robert Wallace, William Lillard.
Franklin—John G. Heath.
Howard—Nicholas S. Burkhartt, Duff Greene, John Ray, Jonathan S. Findlay, Benjamin H. Reeves.
Jefferson—Daniel Hammond.
Lincoln—Malcom Henry.
Montgomery—Jonathan Ramsey, James Talbott.

*Elected special election to fill vacancy caused by death of Martin Ward.

STATE CONSTITUTIONAL CONVENTIONS.

Missouri has provided for the holding of, and has held, five conventions for the purpose of framing or revising the State's Constitution.

Convention of 1820.

By act of Congress, approved March 6, 1820, the people of Missouri, their organized into fifteen counties, were authorized to hold an election on the first Monday and two succeeding days in May, 1820, to elect delegates to a convention to be held in St. Louis, that the seat of government, on June 12th of that year. At this election the counties elected delegates, as follows:

Cape Girardeau—Stephen Byrd, James Evans, Richard S. Thomas, Alexander Buckner, Joseph McKeeven.

Cooper—Nathan P. Clark, Robert Wallace, William Lillard.

Franklin—John C. Heath.

Howard—Nicholas S. Hubbell, James Jones, John Scott, Benjamin H. Reeves.

Jefferson—Daniel Hansucker, Jonathan Kennedy, James Talbott.

Madison—Nathaniel Cook.
New Madrid—Robert D. Dawson, Christopher G. Houts.
Pike—Stephen Cleaver.
St. Charles—Benjamin Emmons, Nathan Boone, Hiram H. Baber.
Ste. Genevieve—John D. Cook, Henry Dodge, John Scott, R. T. Brown.
St. Louis—David Barton, Edward Bates, Alexander McNair, William Rector, John C. Sullivan, Pierre Chouteau, Jr., Bernard Pratte, Thos. F. Riddick.
Washington—John Rice Jones, Samuel Perry, John Hutchings.
Wayne—Elijah Bettis.

The convention organized with David Barton as chairman and William G. Pettus of St. Charles county as secretary. The Constitution framed by this body took effect from authority of the convention, there being no provision whereby it could be submitted to a vote of the people for ratification. The convention concluded its labors July 19, thus in the short space of five weeks enacting the organic law of this State; and it must have been well-nigh perfect, as it answered, with but few amendments, every requirement for forty-five years.

Convention of 1845.

The General Assembly, by act approved February 27, 1843, submitted to the people the question of whether or not a convention should be held to remodel the Constitution. At the general election of 1844 this proposition was voted upon and carried overwhelmingly. John C. Edwards, then Governor, as directed by this act, issued his proclamation April 24, 1845, directing that an election be held on the first Monday in August, 1845, to elect delegates to a convention to be held the 17th of the following November to remodel the Constitution. The delegates were elected by senatorial districts, each district electing delegates to double the number of Senators in the General Assembly, to which it was entitled.

The convention met in Jefferson City upon the date specified and organized by electing Robert W. Wells as president; Claiborne F. Jackson, vice-president; and R. Walker, secretary. The membership of the convention was as follows:

First District—Edwin D. Bevitt and John D. Coalter.
Second District—Ezra Hunt and James O. Broadhead.
Third District—Joshua Gentry and Thomas L. Anderson.
Fourth District—James S. Green and James L. Jones.
Fifth District—John C. Griffin and Moses H. Simmonds.
Sixth District—Joseph B. Nickel and James M. Fulkerson.
Seventh District—Jonathan M. Bassett and Robert M. Stewart.
Eighth District—John E. Pitt, Daniel Branstetter, Thompson Ward and Roland Brown.
Ninth District—William Y. Slack and Hiram Wilcoxson.
Tenth District—Claiborne F. Jackson and Lisbon Applegate.
Eleventh District—Hancock Jackson and Elias Kincheloe.
Twelfth District—David M. Hickman and John F. Stone.
Thirteenth District—Benjamin Young and A. O. Forshey.
Fourteenth District—Robert W. Wells and James W. Morrow.
Fifteenth District—Charles Jones and Joseph B. Wells.
Sixteenth District—James Farquhar, Philip Pipkin, William B. Pannel and William M. Davis.
Seventeenth District—Thomas M. Horine and Corbin Alexander.
Eighteenth District—David Porter and Franklin Cannon.
Nineteenth District—Abraham Hunter and Robert Gibbony.
Twentieth District—John Buford and Theodore F. Tong.
Twenty-first District—Thomas B. Neaves and Burton A. James.
Twenty-second District—William C. Jones and Benjamin F. Massey.
Twenty-third District—Robert E. Acock and Samuel H. Bunch.
Twenty-fourth District—John McHenry and Aaron Finch.
Twenty-fifth District—Duke W. Simpson, Nathaniel C. Mitchell, Thompson M. Ewing and Samuel H. Woodson.
Twenty-sixth District—M. M. Marmaduke and William Shields.
Twenty-seventh District—F. W. G. Thomas and Charles M. Brooking.
Twenty-eighth District—William M. Campbell, Frederic Hyatt, Trusten Polk, Miron Leslie, Joseph Foster and Uriel Wright.

The convention was in session from November 17, 1845, to January 14, 1846, and the instrument, as remodeled, passed the convention by a vote of 49 to 13. But the people refused to ratify it, defeating the proposition to adopt at the August election by over 9,000 majority in a total vote of 60,000.

Convention of 1865.

Under an act of the General Assembly, approved February 13, 1864, providing for holding a convention to revise the Constitution, which proposition the people adopted at the November election of 1864, delegates were chosen, and the convention assembled in Mercantile Library Hall in the City of St. Louis, Friday, January 6, 1865. The convention organized by electing Arnold Krekel as president; Charles D. Drake, vice-president; Amos P. Foster, secretary; Thomas Proctor, assistant secretary; H. J. Stierlin, doorkeeper; John W. The act of the General Assembly authorizing the assembling of the convention provided that it should consider, (1) such amendments to the Constitution as might by them be deemed necessary for the emancipation of slaves; (2) amendments calculated to limit the elective franchise, and any other amendments deemed essential to the changed and turbulent conditions of the times.

The convention of the State, which was provided for under the provisions of a law approved by Governor Claiborne Jackson January 1, 1861, and which was called by his proclamation, assembled at Jefferson City February 28, 1861, and elected Sterling Price president. This convention held several sessions, and was reconvened in June, 1862, by Provisional Governor Gamble, Governor Jackson having left the State. This convention, on the 10th of June, 1862, adopted an ordinance, having the force of a constitutional provision, disfranchising certain voters, and requiring an oath of loyalty to be taken by all officers, jurors, attorneys at law, professors and curators of the State University, teachers and ministers of the gospel. This proposition was afterwards ingrafted into the Constitution of 1865, but repealed under the provision of an amendment to the Constitution submitted by the Legislature of 1869 and voted for at the succeeding election.

Convention of 1875.

The proposition to call a convention to revise the Constitution having been carried at the November election of 1874, an election was ordered for January 26, 1875, to elect delegates. On May 5, 1875, the convention assembled in Jefferson City, and organized by electing Waldo P. Johnson as president; Nathaniel W. Watkins, vice-president; George N. Nolan of Jackson county, secretary; W. Boyle Adams of Cooper county, assistant secretary; Silas Carr of Montgomery county, sergeant-at-arms, and H. C. Moore, doorkeeper.

A thorough revision of the entire organic law was made; and the adoption of the Constitution by the convention by a vote of ayes, 60; noes, none; absent, 8, is emphatic of the unity of purpose which actuated the body. The convention adjourned August 2, 1875. The Constitution was submitted to a vote of the people October 30, 1875, and ratified by a majority of 76,688—the vote standing: For the Constitution, 91,205; against the Constitution, 14,517. By proclamation of the Governor, it became the organic law of the State on the 30th day of November, 1875.

WALLER W. GRAVES, Butler, Presiding Judge (Democrat).—Born on a farm in Lafayette county, Missouri, December 17, 1860. He received his education in the public schools of his native county and at the Columbia (Mo.) State University. He moved to Bates county in 1880, where he taught school and studied law. He was twice elected county school commissioner and was admitted to the bar in 1885 by Judge James B. Gantt, after which he associated himself with Judge J. D. Parkinson at Butler in the practice of law. After Judge Parkinson's removal to Kansas City he formed a partnership with Harvey C. Clark, with whom he was associated in the practice of law until his election as judge of the circuit court of the Twenty-ninth judicial circuit in 1899. He was appointed by Governor Folk Judge of the Supreme Court to succeed Judge Marshall, resigned, and was nominated and elected Judge of the Supreme Court for the short term in November, 1906. In November, 1908, was elected for ten years to succeed himself. He was married to Miss Alice Ludwick of Bates county at Butler June 30, 1892.

HENRY W. BOND, St. Louis (Democrat).—Born at Brownsville, Tenn., January 27, 1848, where he was admitted to the bar. He received his education at Harvard College, Cambridge, Mass. He was elected to the Missouri State Legislature in 1885; elected Judge of the St. Louis Court of Appeals in 1892; appointed by the Supreme Court a member of the bipartisan commission created by the Forty-sixth General Assembly to aid the Supreme Court, which appointment he resigned when elected Judge of Supreme Court in 1912 for a term of ten years. He was married November 18, 1880, to Miss Mary D. Miller at Bolivar, Tenn.

JAMES T. BLAIR, Maysville (Democrat).—Born at Loudon, Tenn., November 11, 1871. He came to Missouri May 14, 1881, receiving his education in the public schools at Osborn, DeKalb county, and at Cumberland University, where he received the degree of A. B. in 1892 and of LL. B. in 1895. He was president of Obion College in 1895 and 1896. He was married at Maysville June 19, 1901, to Miss Grace E. Ray. From 1903 to 1908 he resided at Springfield, Mo. He represented DeKalb county in the Legislature, 1899-1901. He was appointed and served as a member of the revision committee to revise the statutes of 1899, and served as Assistant Attorney-General from January 11, 1909, to April 11, 1911. He was appointed by the Supreme Court a member of the bipartisan commission created by the Forty-sixth General Assembly to aid the Supreme Court, which appointment he resigned when elected Judge of Supreme Court in 1914 for a term of ten years.

STATE INSTITUTIONS.

DR. A. ROSS HILL, PRESIDENT OF THE STATE UNIVERSITY, AND ACADEMIC HALL.

BY A ROSE HILL ARTIST AT THE STATE CONTEST, VAN NUYSING HALL

STATE INSTITUTIONS.

UNIVERSITY OF MISSOURI—COLUMBIA.

The legislative act establishing the public school system was approved February 9, 1839, and that establishing the University was approved February 11, 1839. This is considered the date of the foundation of the University. The University was located at Columbia June 24, 1839, and the corner stone of the main building was laid July 4, 1840. Courses of instruction in academic work began on April 14, 1841. A normal department was established in 1867 and was opened in September, 1868. A year later women were admitted first to this department. The College of Agriculture and Mechanic Arts and the School of Mines and Metallurgy were made departments of the University in 1870, the latter being located at Rolla. The law department was opened in 1872, the medical department in 1873 and the engineering department in 1877. The Experiment Station was established under an act of Congress in 1888. The Missouri State Military School was created in 1890, and in June, 1896, the graduate department was established by the Board of Curators. The School of Journalism was established by the Board of Curators in 1906, the extension division in 1910, and the School of Commerce in 1914. The University received its first aid from the State in 1868, the Legislature then appropriating $10,000.

The University of Missouri is composed of the following colleges and schools: College of arts and science, college of agriculture, school of education, school of law, school of medicine, school of engineering, school of mines and metallurgy, school of journalism, school of commerce, graduate school, extension division.

The School of Mines and Metallurgy is at Rolla; the other divisions are at Columbia. In addition, emphasis is given particular lines of work by the establishment of minor divisions, chief of which are the agricultural experiment station, the engineering experiment station and the Missouri state military school.

The University now has the following buildings:

At Columbia: Academic hall; Laws observatory; separate buildings for biology, chemistry, commerce and geology, law, engineering, manual arts, physics; two power houses, library building; medical laboratory building; Parker memorial hospital; agricultural building; horticultural building; Schweitzer hall for agricultural chemistry; greenhouses; dairy, farm machinery, live stock judging, veterinary and poultry buildings; the University farm barns and buildings; Switzler hall, for the school of journalism; Benton and Lathrop halls, dormitories for men; Read hall and Sampson hall, dormitories for women; Rothwell gymnasium; the houses for the president of the University and the dean of the faculty of agriculture; the high school and elementary school buildings. The Gordon Hotel building is now devoted entirely to the departments of home economics and manual training for elementary school teachers.

At Rolla: Mining building and power plant, chemical hall, Rolla building, workshop, director's residence, mechanic hall, Norwood hall (engineering building), ore dressing building, Parker hall, gymnasium and the athletic building.

The enrollment by divisions during the session of 1914-15 was as follows:

College of agriculture {4-year curricula, 667; short winter course, 272}*	932
College of arts and science	1,609
School of commerce	15
School of education	618
School of engineering	242
School of journalism	99
School of law	105
School of medicine	82

SCHOOL OF MINES AND METALLURGY—ROLLA.

In 1870 the General Assembly of Missouri, in accepting the donation of land for educational purposes made by the general government, through act of Congress, approved July 2, 1862, established an agricultural and mechanical college and a school of mines and metallurgy. The School of Mines and Metallurgy was located at Rolla in Phelps county, and was formally opened in November, 1871. The statutes fix the status of the school as one of the colleges of the State University. There are eleven buildings located on the enclosed campus: Mining and metallurgical building; chemical laboratory; museum and geological survey; workshop; storehouse; director's residence; mechanical building; Norwood hall; Parker hall; gymnasium; engineering building; heating and power plant.

The School of Mines and Metallurgy offers four regular courses leading to degrees and several special courses. The former extend four years and are: (1) Mining engineering; (2) civil engineering; (3) metallurgy; (4) general science. Special courses are offered in chemistry and assaying, mining, surveying, and electricity. The Geological Bureau has its headquarters at the School of Mines.

The affairs of the school are under the immediate supervision of an executive committee, consisting of three members of the University Board of Curators, selected by that body.

DR. JOHN R. KIRK, PRESIDENT FIRST DISTRICT NORMAL SCHOOL, KIRKSVILLE, AND VIEW OF INSTITUTION.

DR. JOHN F. EBEY.—MENTAL DEFECTS SCHOOL, ESPERANCE, AND AERIAL VIEW OF INSTITUTION.

FIRST DISTRICT NORMAL SCHOOL—KIRKSVILLE.

History—Organized as a private normal school by Dr. Joseph Baldwin October 3, 1867, with two principal associates afterward widely known in education; they were Professor Wm. P. Nason, who died recently at the advanced age of eighty-three, and Dr. James M. Greenwood, who died suddenly at his desk in Kansas City August 1, 1914, after thirty-nine years in the superintendency of the Kansas City public schools; it became First District Normal School by act of General Assembly approved March 19, 1870; located at Kirksville December 29, 1870; opened as First District Normal School January 1, 1871; $51,400 and fifteen acres for site donated by Adair county; $50,000 appropriated by General Assembly in 1871 to complete original building.

Number of buildings—Baldwin hall, completed in 1873, 40 rooms; Library hall, completed in 1901, 20 rooms; Science hall, completed in 1906, 25 rooms; model rural school, completed in 1907, 3 rooms, with manual training shop, indoor toilets, shower baths, hot and cold water, electric generator, stereopticon and all modern equipments; Manual arts hall, completed in 1911, 10 rooms, including boiler room and engine room.

For year ending May 31, 1915, the enrollment was 1,700.

The institution has good laboratories, school gardens, and a school farm of twenty-five acres. Library contains more than 30,000 volumes classified by the Dewey decimal system. The school has continuous sessions, i. e., four terms of three months each corresponding to seasons.

SECOND DISTRICT NORMAL SCHOOL—WARRENSBURG.

The Second Normal School District was established by an act of the General Assembly, approved March 20, 1870. The Commission appointed by the Governor of the state to locate the school selected Warrensburg, the county seat of Johnson county, April 27, 1871. In consideration of such selection, Warrensburg and Johnson county deeded to the state a tract of land containing sixteen acres for a campus and voted municipal and county bonds to the amount of one hundred and seventy-three thousand dollars, the proceeds from the sale of said bonds to be used in the erection of a normal school building.

The corner stone of the main building, 160 by 80 feet, three stories high, was laid August 16, 1871, and in June, 1872, the first story was completed and ready for occupancy. But the building as at first projected was not completed until the summer of 1881.

During the years 1885 and 1886 a wing 66x116 feet was erected south of the center of the main building and connected with it by a short corridor. This improvement provided greatly increased accommodations for the training department and added six large rooms, two cloakrooms and an assembly room to the normal department. The General Assembly in 1895 made an appropriation of $30,000 for the erection of a science building.

The General Assembly of 1903 made an appropriation for a gymnasium. The Board of Regents erected a thoroughly modern building of the famous Johnson county sandstone. It is the most beautiful building on the campus. It contains a gymnasium especially equipped for women and another for men, occupying an entire floor. Also bowling alley, locker rooms, bathrooms, Y. M. C. A. and Y. W. C. A. halls, offices and physical testing rooms for physical directors, and rooms for literary societies.

An additional appropriation was made by the Assembly of $22,000 for the erection of a new power house, with a second story, for the manual training department. Five rooms of the building have been equipped and devoted to the use of that department.

The General Assembly in 1907 again came to the aid of the school with an appropriation for a training school building. It is built of native sandstone, is directly south of the main group of buildings and connected by a corridor. This building contains thirty-five rooms, well arranged and well equipped for work. The entire first floor is occupied by the department of drawing and household arts of the normal proper, and the second and third stories by the kindergarten, the elementary school and the high school.

On March 6, 1915, the main building, the chapel and science buildings were destroyed by fire. The Legislature immediately appropriated $250,000 for new buildings. These are now being erected.

The Legislature immediately appropriated $340,000 for the erection of a new main building, and the Board of Regents has let the contract for the same. The building is now under construction and will be completed by September 1, 1914.

The enrollment of students for the year ending May 25, 1915, was as follows:

Total number of different students attending during the year	2,084
Number of students attending training school	417
Total number enrolled for year	2,501

The faculty now numbers 47 members.

THIRD DISTRICT NORMAL SCHOOL—CAPE GIRARDEAU.

The Third District Normal School was established by an act of the Legislature approved March 22, 1873. This act created a Board of Regents for the management of the school. After due public notice, bids were received by the Board of Regents for its location, and they determined the location in favor of Cape Girardeau. On the third day of December, 1873, the Board of Regents selected the site for the building and made arrangements for the immediate opening of the school.

The school was opened, with about thirty students attending, in the public school building. In the spring of 1875 the school removed to the normal school building, which had been completed. In 1883 the auditorium of the normal school building was enlarged. In 1895 two wings were added to the building, one on the west and one on the east. The wings were built to furnish suitable halls for the literary societies of the normal school.

On April 7, 1902, the normal school building was burned. A group of new buildings have been erected since that time.

This normal school now has a group of six buildings (two dormitories included): Academic hall, completed in January, 1906; manual training hall, completed December, 1907; training hall, completed November, 1903; science hall, completed January, 1903. Academic hall is the main building of the school; contains an auditorium with seating capacity of 1,600; library, including stack rooms and reading rooms, having a total floor space of 98x65 feet; a gymnasium for men and a gymnasium for women; an art hall 92x35 feet; ladies' parlor, four literary society halls, six offices, twenty classrooms. Manual training hall is a completely equipped manual training building. Science hall has six well-equipped laboratories and equipment for cooking and sewing. Training hall is devoted to the elementary school maintained for practical and experimental work in education.

The attendance of the Third District State Normal School for the last sixteen years has been as follows: 1899-1900, 329; 1900-1901, 373; 1901-1902, 363; 1902-1903, 368; 1903-1904, 451; 1904-1905, 481; 1905-1906, 631; 1906-1907, 777; 1907-1908, 852; 1908-1909, 894; 1909-1910, 903; 1910-1911, 912; 1911-1912, 1,001; 1912-1913, 1,153; 1913-1914, 1,232; 1914-1915, 1,332.

THIRD DISTRICT NORMAL SCHOOL—CAPE GIRARDEAU.

The Third District Normal School was established by an act of the Legislature approved March 22, 1873. This act created a board of Regents for the management of the school. After due public notice, bids were received by the Board of Regents for its location, and they determined the location in favor of Cape Girardeau. On the third day of December, 1873, the board of Regents selected the site for the building and made arrangements for the immediate opening of the school.

The school was opened, with about thirty students attending, in the public school building. In the spring of 1875 the school removed to the normal school building, which had been completed. In 1883 the auditorium of the normal school building was enlarged. In 1893 two wings were added to the building, one on the west and one on the east. The wings were built to furnish suitable halls for the literary societies of the normal school.

On April 7, 1903, the normal school building was burned. A group of new buildings have been erected since that time.

This normal school now has a group of six buildings (two dormitories included): Academic hall, completed in January, 1906; normal training hall, completed December, 1907; training hall, completed November, 1903; science hall, completed January, 1903. Academic hall is the main building of the school; contains an auditorium with seating capacity of 1,600; library, including stack room and reading rooms, having a total floor space of 9585 feet; a gymnasium for men and a gymnasium for women; an art hall 92x35 feet; ladies' parlor, four literary society halls, six offices, twenty classrooms. Manual training hall is a completely equipped manual training building. Science hall has six well-equipped laboratories and equipment for cooking and sewing. Training hall is devoted to the elementary school maintained for practical and experimental work in education.

The attendance of the Third District State Normal School for the last eleven years has been as follows: 1895-1896, 329; 1900-1901, 373; 1901-1902, 323; 1902-1903, 368; 1903-1904, 451; 1904-1905, 481; 1905-1906, 621; 1906-1907, 777; 1907-1908, 852; 1908-1909, 894; 1909-1910, 902; 1910-1911, 912; 1911-1912, 1,001; 1912-1913, 1,123; 1913-1914, 1,232; 1914-1915, 1,332.

FOURTH DISTRICT NORMAL SCHOOL—SPRINGFIELD.

This institution was established by an act of the Forty-third General Assembly, approved March 17, 1905. The district is composed of twenty-two counties in Southwest Missouri. The commission appointed to locate the school selected Springfield as the site. The bonus given by the citizens of Springfield consisted of forty acres of land inside the city limits, valued at $40,000, and $25,000 in cash.

It began its work in leased buildings June 11, 1906, and enrolled 543 students in its first term. The total enrollment for the year of forty-eight weeks, beginning September, 1906, was 934; for the next year, 1,087; for the third year, 1,237; for the fourth year, 1388; for the fifth year, 1,408; for sixth year, 1,724; for seventh year, 2.018, and for last year, 2,166.

The Forty-fourth General Assembly appropriated $225,000 for buildings. Academic hall, shown in the accompanying picture, was erected at a cost of approximately $225,000. The corner stone was laid August 10, 1907. It was first occupied by the school January 4, 1909. The Forty-sixth General Assembly appropriated $65,000 for auditorium and gymnasium.

These structures are the only fireproof school buildings owned by the state. They are constructed of Missouri marble, finished in hard wood, handsome in architecture and as complete in heating, ventilation and light as modern science can provide.

This school has had nine commencements, in August of each year, from 1907 to 1915. In that time it has graduated 634 from its diploma course and has had 17 to take the degree of B. S. in Education. It has graduated 798 from the secondary school course. Academically, the secondary school course is equal to that of a first-class high school, and the full course is equal to that of a junior college. Pedagogically, the secondary course equips one for the successful management of graded and rural schools, and the full course gives complete equipment for supervising and teaching any grade of public school, including high schools.

FIFTH DISTRICT NORMAL SCHOOL—MARYVILLE.

By an act of the General Assembly the Fifth district Normal School of Missouri was established on the 25th day of March, 1905.

Some weeks later a commission, consisting of C. C. Fogle of Lancaster, Edmund McWilliams of Plattsburg, C. A. Calvird of Clinton, J. W. Cox of Monroe City and J. C. Jones of Columbia, was appointed by the Governor to select a location for the proposed school. This commission, after visiting a number of competing points, reported in favor of Maryville, and announced the tender on the part of Maryville and Nodaway county of 86½ acres of land and $58,672 in cash. Shortly afterward a Board of Regents was appointed for the new school. This board met in Maryville September 12, 1905, and effected an organiza-

LINCOLN INSTITUTE—JEFFERSON CITY.

Lincoln Institute had its origin in a fund of $6,379, contributed by the 62nd and 65th regiments of the United States Colored Infantry when discharged from service January 14, 1866, of which the 62nd gave $5,000. The only condition of the gift was that a school be established in Missouri open to the colored people. The board of trustees, ten in number, was organized June 8th and incorporated June 25, 1866, and the school was opened September 17, 1866. In June, 1877, the main building was completed. It was a substantial three-story brick building, 60x70 feet, located just outside the limits of Jefferson City, the grounds containing twenty acres.

DR. B. F. ALLEN, PRESIDENT LINCOLN INSTITUTE, JEFFERSON CITY, AND VIEWS OF INDUSTRIAL BUILDING, MAIN SCHOOL BUILDING, BOYS' DORMITORY AND GIRLS' DORMITORY.

BUILDING NOW OCCUPIED AND OWNED BY THE
GENERAL FACULTY, TEACHERS' TRAINING CITY AND AREAS OF LANDSCAPE BUILDING AND SCHOOL

The Legislature of 1879 appropriated $15,000 for the support of the institute, provided $5,000 should be applied to the payment of the indebtedness. This appropriation was contained in the general appropriation bill and was a grant to a corporation managing a charity. The grant was in violation of the Constitution, and Governor Phelps held the bill until the board of trustees met and unanimously voted to transfer the institute to the state. Governor Phelps immediately approved the bill, thus enabling the trustees to pay off all debts.

The main building was destroyed by fire on August 1, 1894, but was soon replaced by a far more commodious structure, for which the Legislature appropriated $40,000.

The buildings on the grounds are the following: Main institute building, industrial building, president's home, boys' dormitory, girls' dormitory and farm cottage.

STATE HOSPITAL NO. 1—FULTON.

State Hospital No. 1 for the Insane is located at Fulton, Callaway county, and was the first institution of the kind in the state, having been established in 1847. It is on a tract of land comprising 544 acres, a short distance from the town of Fulton. Of this tract 160 acres are in cultivation, 30 in orchard and the remainder in pasture, campus, building sites, etc. About seventy of the patients work on the farm, producing much toward the support of the institution. In addition to the hospital buildings proper, there are machine and carpenter shops and a poultry yard, where such of the patients as are capable of labor, in addition to those needed on the farm, are given employment and greatly benefited thereby. The state property is estimated to be worth $600,000. New buildings, for which $35,000 was appropriated in 1903 and $15,000 in 1907, are now completed and occupied. The institution has a cold storage plant, laundry, bakery, water plant, electric light plant, telephone system and other modern conveniences.

The Legislature of 1879 appropriated $15,000 for the support of the Institute, provided $5,000 should be applied to the payment of the indebtedness. This appropriation was obtained in the general appropriation bill and was a grant to a corporation managing a charity. The grant was in violation of the Constitution, and Governor Phelps held the bill until the board of trustees met and unanimously voted to transfer the Institute to the state. Governor Phelps immediately approved the bill, thus enabling the trustees to pay off all debts.

The main building was destroyed by fire on August 1, 1894, but was soon replaced by a far more commodious structure, for which the Legislature appropriated $40,000.

The buildings on the grounds are the following: Main Institute building, industrial building, president's home, boys' dormitory, girls' dormitory and farm cottage.

STATE HOSPITAL NO. 2—ST. JOSEPH.

State Hospital No. 2 was established by an act of the General Assembly in 1872 authorizing the issuance of bonds to the extent of $200,000. The institution was opened for patients November 9, 1874. First Board of Managers—Allen H. Vories, president; Rufus L. McDonald, secretary; John C. Evans, Silas Woodson, Dr. Joseph Malin, Dr. Emund A. Donelan and James C. Roberts. The first superintendent was Dr. George C. Catlett. January 25, 1879, the institution was totally destroyed by fire. It was rebuilt, and the reconstructed asylum was opened for the admission of patients on April 1, 1880, and it is now the largest of the state hospitals. Its original location was one mile east of the corporate limits of the city of St. Joseph, but it is now within the city limits and is on a tract of extremely fertile land, comprising 232 acres, beautifully located. The management rents in addition to the above about 900 acres. Following are the buildings: One main hospital building, three detached buildings for men (one of these especially reconstructed for "tubercular patients"), five detached buildings for women (one of these especially reconstructed for "tubercular patients"), one bathhouse and morgue, one cold storage plant and meat house, one laundry building and equipments, one power house, boilers and light plant, three greenhouses, two barns; 232 acres of land, live stock, furnishings and other property, bring the total of the state's investment up to $685,182.02.

Total number of patients admitted from the date of the opening of the institution on November 9, 1874, to January 1, 1915: Male, 6,238; female, 4,380; total, 10,618. Total number of "discharges" since the opening date: Male, 3,544; female, 2,536; total, 6,080. Total number of deaths since the opening date: Male, 1,821, female, 1,056; total, 2,877. Number remaining "enrolled" December 31, 1914: Male, 873; female, 788; total, 1,661. Number on "parole" December 31, 1914: Male, 21; female, 11; total, 32. Number "present" December 31, 1914: Male, 852; female, 777; total, 1,629. Average cost of maintenance (annual) per patient present for the years 1913 and 1914, $181.79.

STATE HOSPITAL NO. 2—ST. JOSEPH.

State Hospital No. 2 was established by an act of the General Assembly in 1872 authorizing the issuance of bonds to the extent of $200,000. The institution was opened for patients November 9, 1874. First Board of Managers—Allen H. Voris, president; Rufus T. McDonald, secretary; John C. Kinney, Silas Woodson, Dr. Joseph Main, Dr. Simond A. Donelson and James C. Roberts. The first superintendent was Dr. George C. Callier. January 28, 1879, the institution was totally destroyed by fire. It was rebuilt, and the reconstructed asylum was opened for the admission of patients on April 1, 1880, and it is now the largest of the state hospitals. Its original location was one mile east of the corporate limits of the city of St. Joseph, but it is now within the city limits and is on a tract of extremely fertile land, comprising 282 acres, beautifully located. The management owns in addition to the above about 900 acres. Following are the buildings: One main hospital building, three detached buildings for men (one of these especially reconstructed for "tubercular patients"), five detached buildings for women (one of these especially reconstructed for "tubercular patients"), one building used as a cottage for employes, one cold storage plant and meat house, one laundry building and equipments, one power house, boilers and light plant, three greenhouses, two barns; 232 acres of land, five acres, buildings and other property, bring the total of the state's investment up to $365,152.02.

Total number of patients admitted from the date of the opening of the institution on November 9, 1874, to January 1, 1913: Male, 9,232; female, 4,380; total, 10,616. Total number of "discharges" since the opening date: Male, 3,544; female, 2,346; total, 6,090. Total number of deaths since the opening date: Male, 1,821; female, 1,056; total, 2,877. Number remaining "supplied" December 31, 1911: Male, 873; female, 783; total, 1,656. Number on "parole" December 31, 1913: Male, 852; female, 777; total, 1,629. Average "present" (annual) per patient present for the years 1913 and 1914, 3181.79.

STATE HOSPITAL NO. 3—NEVADA.

State Hospital No. 3 was established at Nevada by the General Assembly of 1887 and $200,000 appropriated therefor. The succeeding Legislature appropriated $149,000 and subsequent Legislatures $215,375, a total of $564,375, which has been used in completing the institution. In addition to the original main buildings, there have been erected two new wings, chapel, electric light plant, carpenter shop, machine shop, cold storage, ice plant, butcher shop, water system, tool house, three barns, vegetable and ice house, dairy and storerooms, cow sheds, two tubercular buildings, industrial building, boiler room, engine house and new laundry. A late inventory of the entire plant shows a valuation of $940,605.23.

The institution has an industrial department, an occupation department and a training school for nurses and attendants. The industrial department manufactures many articles, such as mattresses, brooms, brushes, carpets, rugs, tables and practically all the clothing used by the patients. The occupation department is conducted by an occupation teacher and many valuable and useful articles are made in this department. The women patients are given employment in the occupation department each morning and the male patients each afternoon. This diversional occupation work is made as attractive as possible and a great many patients are started on the way to recovery in this department. It is indeed a valuable adjunct to methods of treatment of the insane. The training school for nurses and attendants is under the supervision of a superintendent of nurses and is affiliated with the general hospital at Kansas City. The length of training in this training school is one year for attendants, two and a half years for nurses. By the aid of this training course a much better class of attendants and nurses can be secured and retained. The training school for nurses and attendants was established in October, 1912, and the first class of nurses was graduated in June, 1915.

Under the present management restraints of all kinds have been practically done away with. Employment of some kind has been insisted upon for all those who are physically able, and as a result more than 80 per cent of the patients in the hospital are engaged in some kind of work.

During the years 1913-1914 the total number of patients under treatment was 1,537. Of this number 184 died, and 327 were discharged as restored, improved and stationary. There were remaining January 1, 1915, 1,300 (in hospital and on parole). Since the establishment of the institution to January 1, 1915, the admissions aggregate 7,238. Of that number 2,761 have been discharged as recovered, 717 as improved, 621 as stationary, 8 as not insane and 1,799 died. The per capita cost including clothing was $179.38. On May 1, 1915, there were 1,336 patients.

STATE HOSPITAL NO. 4—FARMINGTON.

This hospital was established and a commission appointed for its location at the session of the General Assembly of 1899. Three hundred and twenty-six acres of land were purchased near Farmington, the state paying $13,889.90 and the citizens paying $6,110.10 for same. Subsequently 65 acres at $100.00 per acre were purchased, making a total of 391 acres.

The original appropriation for hospital buildings was $150,000. From time to time other appropriations have been made by the Legislature, until now Hospital No. 4 has a large number of beautiful, modern and up-to-date buildings, located in the foothills of the Ozarks, with beautiful scenery, fine water, pure air and perfect hygienic surroundings. The buildings at present consist of the administration building; superintendent's residence; Folk building for nurses, attendants and amusements; the Governor's cottage row, consisting of the Stephens, Dockery, Hadley and Major cottages; also the Berry, Hall and Cayce cottages. There is also a large hospital building, the Harrison, accommodating 150 patients; a general dining room, kitchen, storeroom, ice plant, vegetable room, power house, laundry, hay barn and stock barn. There is a peach and apple orchard consisting of 15 acres, with a small grape vineyard. There are three deep wells, affording an inexhaustible supply of pure, cool water, and a steel tank of 50,000 gallons capacity.

A great deal of work and considerable money have been expended on the driveways and walks, all of which are in a beautiful and most excellent condition.

Hospital No. 4 was opened for patients January 1, 1903, since which time it has made a continuous growth, until today it is one of the prettiest, one of the best arranged and one of the most substantial of all our state institutions. During the past biennial period there has been built a modern tuberculosis cottage, accommodating 75 patients; there was also built a farm cottage for the out help.

Since the opening of the hospital there has been admitted, up to July 1, 1915, 1,245 male and 1,050 female patients; total, 2,295. Of all those admitted 571 have been discharged as recovered, the same being 25% of all those admitted. On July 1, 1915, there were present in the hospital 662 patients; on parole 10 patients; making a total on the life register of the hospital of 672 patients.

The annual per capita cost of maintenance for the biennial period ending December 31, 1914, was $198.92; the daily per capita cost for the same period was $0.545. The board paid by the various counties for each patient is $156.00 per annum; the board paid for private patients is $180.00 per annum. It will thus be seen that the State of Missouri is very charitable at State Hospital No. 4 in making up these deficits. The cottage plan is more expensive but more desirable.

STATE CONFEDERATE SOLDIERS HOME—HIGGINSVILLE.

This institution originated in the earnest efforts of a number of charitable men and women of Missouri, who began the commendable work of providing a home for the old, infirm and dependent Confederate soldiers, their wives, widows and orphans. A large and excellent tract of land containing 362 acres was purchased near Higginsville, and a number of frame cottages, a church building and a large and commodious two-story brick structure erected thereon. The land and buildings cost about $68,000.00. By act of the General Assembly of 1897 the home was declared to be one of the eleemosynary institutions of the state, and the commonwealth assumed the support of the institution for twenty years. The then executive committee of the home conveyed the property to the state. The property now consists of the original two-story main building containing sixteen large rooms and a large dormitory and dining room, with a seating capacity of 110, also commodious kitchen and laundry, together with ample lavatories, closets and bathrooms. Hospital No. 1, 20 rooms, dormitory, dining room, kitchen and bathrooms. Hospital No. 2, 10 rooms, 4 dor-

STATE FEDERAL SOLDIERS HOME—ST. JAMES.

This institution owes its origin to the efforts of the Women's Relief Corps and the G. A. R's, who began the commendable work of providing a home for the old and dependent Federal soldiers and their wives.

A Federal Soldiers Home Association was incorporated in 1894 with headquarters in St. Louis. The people of St. James, aided by friends in other parts of the state, purchased and donated to the association the James mansion, situated on a tract of 60 acres of land near St. James, in Phelps county, which originally cost $70,000. The association expended some $7,000 in repairs and improvements, and on June 25, 1897, conveyed the property for $1.00 consideration to the State of Missouri for a State Soldiers Home. The Thirty-ninth General Assembly appropriated $10,000 for support. The Forty-first General Assembly appropriated $22,000 for dormitory and hospital, which were erected. The Forty-third General Assembly appropriated $3,000 for a commissary building and the further sum of $15,000 for a dormitory building, both having been in use since May 1, 1906. The Forty-fourth General Assembly appropriated $10,500 for a steam heating plant, which was erected and has been in use since December, 1907, and the further sum of $1,300 for enlarging laundry, and same was used. The property is valued at $137,742.27. There was also an appropriation of $900.00 for sidewalks and gradings, which completes the walk from the home to the town of St. James. Its management is vested in a board of five trustees. Each member receives $100.00 a year and traveling expenses, as for other state institutions.

There are now in the home 296 inmates. During the last biennial period 50 of the inmates died. The cost of support per capita per diem was .58 cents.

RULES FOR ADMISSION OF INMATES TO THE HOME.

Application must be made upon the forms prescribed, and contain the information and evidence called for, and be accompanied by both pension certificate (if pensioner) and discharge of soldier, sailor or nurse—evidence of honorable discharge from service being essential basis of the application, and if ever an inmate of any other soldiers home, an honorable discharge therefrom must be sent. When application and evidence are received by the superintendent, he causes same to be recorded and forwarded to the president of the board, by whom final action is taken, and the papers sent for file in the superintendent's office, whence notice is sent to applicant as soon as there is room for his reception. These blanks can be had from any trustee or officer of the home.

The following general information may be found useful:

1. Letters of inquiry on behalf of an intended applicant should state name, service and postoffice address before asking the blanks.

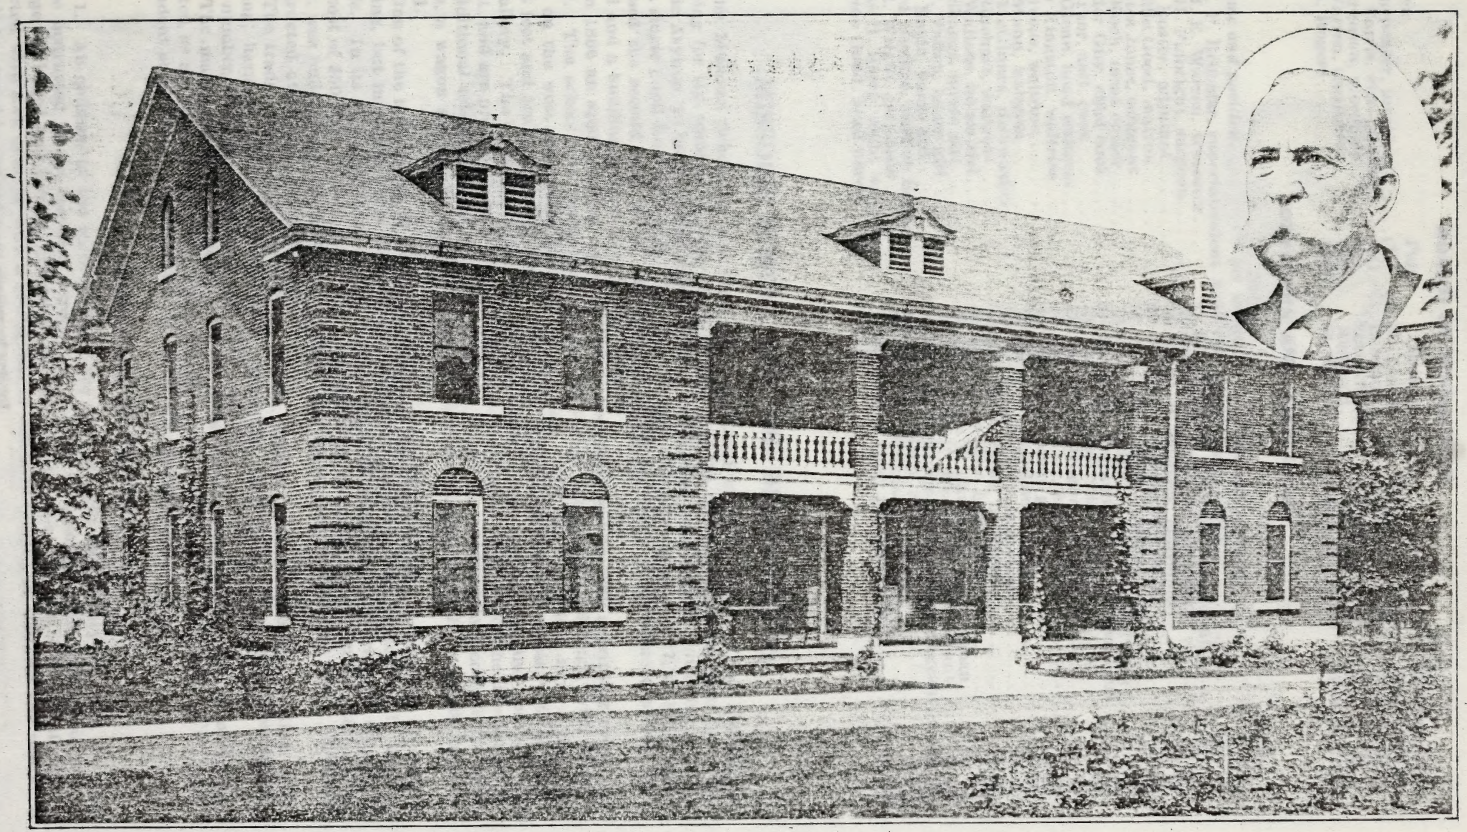

2. All outlay for railroad tickets and other expenses of persons coming to the home must be borne by themselves or others for them. County courts are authorized by law to incur this expense.

3. Persons afflicted by incurable malady, or infectious diseases, or any grade of insanity, are not admissible, though otherwise eligible. If such are sent, they will be returned at once at cost of those sending them.

4. No furniture of any sort should be brought to the home. But wearing apparel, chair cushions, headrests, work basket, or other small articles of room ornament as applicant may have, may be brought; also quilt, spread, table cover, towels and napkins.

5. Neither children or other dependent relatives of the soldier are eligible to this home —nor are wives or widows of soldiers under 50 or widow under 60 years of age.

6. Every applicant must pass a physical examination by his local physician and be examined and passed by the home surgeon upon arrival before admission. Two creditable persons acquainted with applicant's circumstances must be present and make oath thereto with him before a magistrate; lastly, the applicant must have the recommendation of either a post commander, a corps president, trustee of the home board or judge of county or probate court.

MISSOURI SCHOOL FOR THE DEAF—FULTON.

The Missouri School for the Deaf was established in 1851, an act of the Legislature providing for the transfer of forty acres of land and the buildings thereon from the State Lunatic Asylum, to be dedicated to this school. The school was opened November 5, 1851, with a single pupil from St. Louis. By July 16, 1852, the attendance was 17, which number increased the second year to 54. In 1854 an additional tract of eighteen acres was purchased and a building erected at a cost of $28,000.

In 1866 an appropriation was made for a workshop, and in 1879 a printing press was added. The school now comprises a group of twelve substantial buildings, with schoolhouse on the west and trades building on the east. The main buildings have a frontage of 225 feet and are four stories high. The school building contains 33 rooms, with a chapel and gallery. The buildings, which were burned in 1888, were well insured, and were speedily rebuilt, and are practically new fireproof buildings, admirably adapted for the uses intended. An additional school building was completed in November, 1904, while a cottage for small pupils, a wagon shop and other buildings were erected during the 1907 and 1908 biennial period.

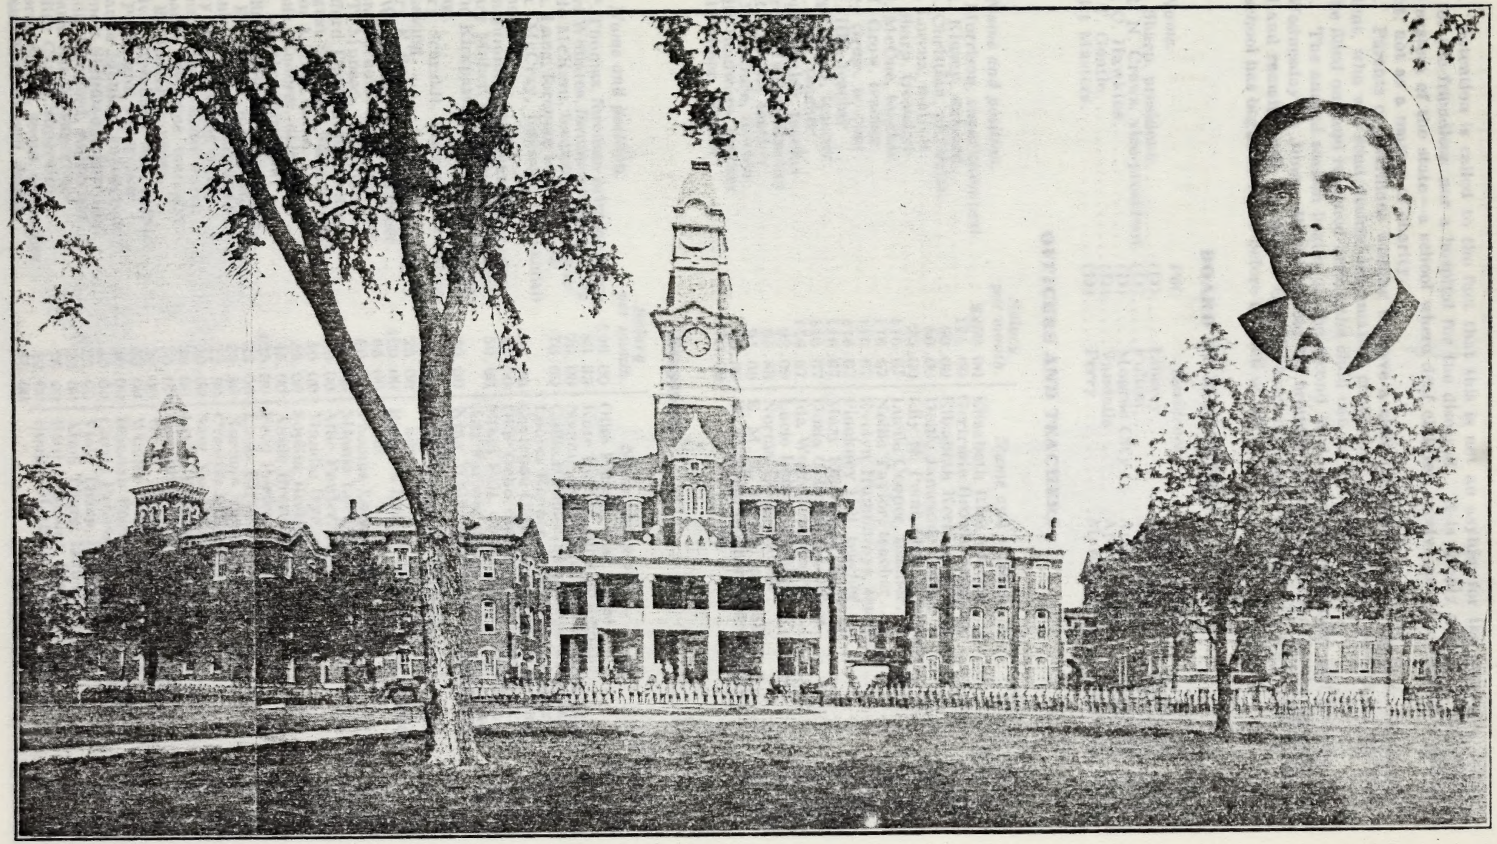

One of the main group of buildings, known as the "East building," originally the school building, but in recent years the principal dormitory for boys, was condemned in 1907 as unsafe. In its place has been erected a substantial fireproof and well-arranged dormitory at a cost of $50,000. A new dairy barn, supplied with the most modern and sanitary equipment, was build during the summer of 1911. During the year 1913 a new power plant was constructed at a cost of $30,000.00.

The trades taught include cooking, baking, cabinet making, tailoring, printing, shoemaking, harness making, blacksmithing, barbering, gardening, sewing and dressmaking. The number of pupils December 31, 1914, was 300.

The management is vested in a Board of Managers, composed of five members, appointed as are the boards of the other eleemosynary institutions of the state. The superintendent and teachers are appointed by the Board of Managers.

ADMISSION OF PUPILS.

1. All children in the state between the ages of eight and twenty-one, and too deaf to be instructed in the common schools, are entitled to admission into this school free of charge for board and tuition; provided, no one shall be admitted who is feeble-minded, or afflicted with sore eyes, or with a contagious or offensive disease, or who, for any reason, is unable to attend to the ordinary duties of school.

J. STEWART MORRISON, SUPERINTENDENT STATE SCHOOL FOR THE DEAF, FULTON, AND VIEW OF INSTITUTION.

NORTHEAST MISSOURI STATE SCHOOL FOR THE DEAF, KIRKSVILLE, AND NEW DORMITORY BUILDING.

2. Attention is called to the fact that this is not an asylum for the defective, nor a home for the friendless, nor a hospital for the diseased. It is simply a part of the public school system of the state—a school where deaf children receive an education as a matter of right, not as a matter of charity.

3. Parents or guardians wishing to have a child admitted should apply to the superintendent, who will send desired information concerning the school and certain blanks that must be filled out and returned before the child can be received.

4. The annual session begins on the second Wednesday in September and ends on the first Wednesday in June. Pupils should be brought to the institution at the opening of school and remain until the close. Only in extreme cases will pupils be permitted to enter after school has begun or leave before the end of the term.

2. Attention is called to the fact that this is not an asylum for the defective, nor a home for the friendless, nor a hospital for the diseased. It is simply a part of the public school system of the state—a school where deaf children receive an education as a matter of right, not as a matter of charity.

3. Parents or guardians wishing to have a child admitted should apply to the superintendent, who will send desired information concerning the school and certain blanks that must be filled out and returned before the child can be received.

4. The annual session begins on the second Wednesday in September and ends on the first Wednesday in June. Pupils should be brought to the institution at the opening of school and remain until the close. Only in extreme cases will pupils be permitted to enter after school has begun or leave before the end of the term.

MISSOURI SCHOOL FOR THE BLIND—ST. LOUIS.

The Missouri School for the Blind was founded in 1851 by Mr. Eli W. Whelan, opening with three blind pupils as a private charitable enterprise. It became a few years later a state institution, and has furnished instruction to 1,230 blind children. It is a public school for children of defective sight between the ages of six and twenty. Courses of study are from the kindergarten to the high school. An eight-year course in piano and pipe organ, composition and harmony, and an industrial department for both sexes. The boys are taught broom making, chair caning, wirework, wood sloyd and piano tuning. The girls are taught knitting, sewing, basket making and cooking. The school is located at Spring and Magnolia avenues, opposite Tower Grove park, and when completed will be one of the best institutions in the country for the education of blind children. The building is a plain, fireproof, two-story structure, especially adapted for its purpose. When the girls' wing is completed, ample room will be afforded for the music department. The Forty-sixth General Assembly made an appropriation of $32,500 for the erection of one wing of the building, which was completed January 1, 1912.

COLONY FOR THE FEEBLE-MINDED AND EPILEPTIC—MARSHALL.

This institution was established by an act of the Legislature approved May 24, 1899, and was located at Marshall. It was declared in the act of establishment to be for "the humane, curative, scientific and economic treatment of the feeble-minded and epileptic." The law provided that the institution should be built on the cottage or village plan, and should contain cottages for domiciliary use, an infirmary, chapel, schoolhouse and workshop. The management is vested in five managers, two of whom shall be women, and but two of the others to be of the controlling political party. The term of office is four years, two to be first appointed for two years, three for four years and vacancies to be filled every two years thereafter. Compensation, $100 a year and traveling expenses. The officers of the institution are superintendent, treasurer, steward and matron. The Legislature of 1899 appropriated $30,000 and that of 1901, $150,000. Seven cottages have been erected, and the other buildings provided for by law.

MISSOURI STATE SANATORIUM—MT. VERNON.

Dr. James Stewart of Warren county introduced in the House of Representatives of the Forty-third General Assembly a bill (which became a law) providing for the establishment, at some place in the state, of an institution for the treatment of tuberculosis in its earlier stages. Fifty thousand dollars was appropriated for establishing this institution, and the act provided for the board to select location and cause the erection of suitable buildings.

During the fall of 1905 the board, after inspecting many available sites, decided on one of 200 acres offered by the citizens of Mt. Vernon, Lawrence county, Missouri. This beautiful little village is on the crest of the Ozarks, the climate of which already has considerable of a reputation for the curing of tuberculosis. A suitable building was erected and turned over to the Board of Managers in the spring of 1907. The Forty-fourth General Assembly appropriated $135,000 for other buildings, equipment and maintenance; the Forty-fifth, $164,250; the Forty-sixth, $170,000; the Forty-seventh, $153,000, and the Forty-eighth General Assembly made an appropriation of $175,700.

Seven permanent buildings are completed and in use. Four of these are for patients. The power house contains two 175-horsepower boilers and an engine and dynamo. All the buildings are heated and lighted from this machinery. The medical wing is used for administrative quarters.

DR. C. C. ENGLISH, SUPERINTENDENT STATE SANATORIUM, MT. VERNON, AND VIEW OF MINOR BUILDING.

FIG. 2. C. EARLE WARRINGTON, STATE EXAMINER, IN HIS NEW AREA OF FOUR BUILDING.

All of the permanent buildings are constructed of red brick.

The sanatorium opened August 1, 1907, for the reception of patients, since which time there have been 1,560 patients treated. At present there are 200 patients in the institution.

The sanatorium is situated at Mt. Vernon, the county seat of Lawrence county. The Frisco has a branch line from Aurora to Greenfield. This passes through Mt. Vernon. The Missouri Pacific passes through Hoberg, two and one-half miles distant.

The results of treatment have been far more successful than even the most sanguine supporters had expected. In spite of the fact that there has been a good per cent of the patients in the past incipient stage, most all patients have made improvement while in the sanatorium. Practically all of the cases that were received in anywhere near the incipient stage have done well.

In addition to caring for the patients who are fortunate enough to get into the sanatorium, the medical staff attempts to do as much good in an educational way as is possible.

RULES OF ADMISSION.

The law provides for two classes of patients, namely, free patients and private patients.

The proper method of applying in each case is as follows:

A free patient makes an affidavit to the clerk of the court of the county in which he resides, or if in the city of St. Louis, to the city auditor, to the effect that he desires admission to the Missouri State Sanatorium, and that he is unable to pay for his support and treatment while there.

The court after investigation, and finding the applicant to be worthy of the charity, recommends his admission to the sanatorium.

Private patients apply directly to the sanatorium. A list is kept of each class of applicants. The names are placed on the list in the order of their receipt.

All of the permanent buildings are constructed of red brick.

The sanatorium opened August 1, 1907, for the reception of patients, since which time there have been 1,560 patients treated. At present there are 200 patients in the institution.

The sanatorium is situated at Mt. Vernon, the county seat of Lawrence county. The Frisco has a branch line from Aurora to Greenfield. This passes through Mt. Vernon. The Missouri Pacific passes through Hoberly, two and one-half miles distant.

The results of treatment have been far more successful than even the most sanguine supporters had expected. In spite of the fact that there has been a good per cent of the patients in the past incipient stage, most all patients have made improvement while in the sanatorium. Practically all of the cases that were received in any where near the incipient stage have done well.

In addition to caring for the patients who are fortunate enough to get into the sanatorium, the medical staff attempts to do as much good in an educational way as is possible.

RULES OF ADMISSION.

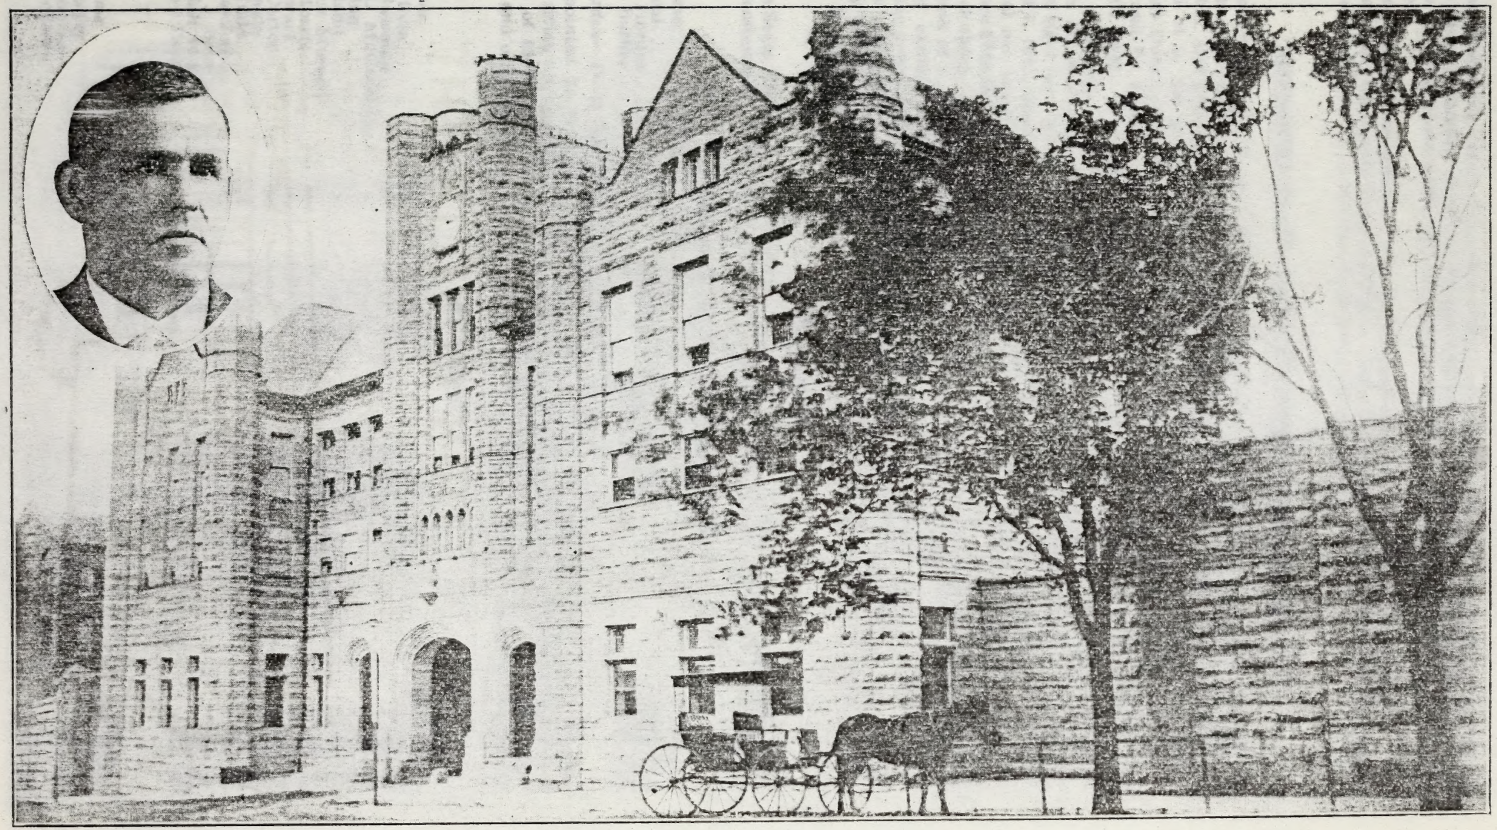

The law provides for two classes of patients named. Free patients and pay patients.

The proper method of applying in each case is as follows:

A free patient makes an affidavit in the clerk of the county in which he resides, or if in the city of St. Louis, in the city auditor, to the effect that he is a citizen of the State of Missouri and has been such for one year next before his application and has been while there.

The court after investigation, and finding the applicant to be worthy of the charity, recommends his admission to the sanatorium.

Private patients apply directly to the superintendent. A fee of $10 per month is charged for board, lodging, medical attendance and nursing. Private patients are required to furnish their own clothing, and must be provided with a trunk. Private patients are required to pay for their transportation to and from the institution.

D. C. McCLUNG, WARDEN OF STATE PENITENTIARY, JEFFERSON CITY, AND VIEW OF MAIN ENTRANCE TO INSTITUTION.

No. 1. Jefferson City, and View of Main Entrance to Institution.

When a vacancy occurs the person whose name appears first on the list of free patients is referred to an examining physician for examination. If there are no applications from free patients, the one whose name appears first on the list of private patients is referred to an examiner.

The cases that are found to be in the incipient stage are sent to the sanatorium.

The county transports the free patients. Only those who have been residents of Missouri for at least one year can be taken as patients to the sanatorium.

MISSOURI STATE PENITENTIARY—JEFFERSON CITY.

The erection of a State Penitentiary "house" at Jefferson City was authorized by an act of the General Assembly approved January 16, 1833, appropriating $25,000 for the cost of erection, and providing for its completion by October 1, 1834. The contractor failing to complete it in the given time, the Legislature of 1835 passed a special resolution authorizing James Dunica, the commissioner, to complete the stonework under contract with J. A. Crump and E. Finley. The Prison Inspection Board was created by an act approved March 18, 1835. The same act provided for a warden to be chosen by a joint vote of the General Assembly. The first prisoner was received March 8, 1836, and the total number of prisoners for that year was eighteen. From the opening until January 1, 1915, 40,042 prisoners have been received. The greatest number imprisoned at any one time was 2,699. On April 1, 1915, there were 2,585 male and 55 female convicts in the Missouri Penitentiary. The total net earnings of the penitentiary for the biennial period ending December 31, 1914, were $748,047.14. The cost of food for the same period was $301,226.62; fuel, $120,-031.02; clothing, $70,422.32; salaries, $284,970,97; cost of water, hospital, repairs and all other items of expense, $156,564.25, a total expenditure of $933,215.38, making the cost in excess of earnings less the deficiency of 1911 and 1912, $110,168.24. The state's property at the penitentiary was appraised on January 3, 1915, at $1,987,113.87.

The penitentiary is under the control and direction of three inspectors, one warden, a deputy warden, physician, chief clerk, chaplain and matron, with such guards and assistants as may be necessary.

INSPECTORS.

The State Treasurer, State Auditor and the Attorney-General are ex officio inspectors at the penitentiary. Compensation each, $250.00 per annum. Prison inspection monthly.

THE MISSOURI REFORMATORY—BOONVILLE.

The school was created by the act approved March 30, 1887, and was located near the city of Boonville by a commission composed of Governor John S. Marmaduke, Attorney-General B. G. Boone and Register of Lands Robert McCulloch. The main building was erected by contract under the supervision of this commission, and was opened for the reception of boys on the first of January, 1889.

The tract of land originally purchased as a site for the institution contained one hundred and eighty-one acres. The Legislature of 1897 appropriated seven thousand dollars, with which one hundred sixty-nine acres lying east of and adjoining the original tracts were purchased. A small tract containing eight acres south of the main building was also bought and paid for out of the proceeds of the brickyard, and this tract is now used as a playground and roadway. The Legislature of 1905 appropriated twelve thousand dollars to buy addi-

THE MISSOURI REFORMATORY—BOONVILLE.

The school was created by the act approved March 30, 1897, and was located near the city of Boonville by a commission composed of Governor John S. Marmaduke, Attorney-General H. G. Hoppe and Register of Lands Lehmer McCulloch. The main building was erected by contract under the supervision of this commission, and was opened for the reception of boys on the first of January, 1889.

The tract of land originally purchased as a site for the institution contained one hundred and eighty-one acres. The Legislature of 1897 appropriated seven thousand dollars, with which one hundred sixty-nine acres lying east of and adjoining the original tract were purchased. A small tract containing eight acres south of the main building was also bought and paid for out of the proceeds of the industrial, and this tract is now used as a playground and roadway. The Legislature of 1905 appropriated twelve thousand dollars to buy 82.50

tional land. With this money the board purchased one hundred and forty-two acres adjoining the school property on the south. This tract lies partly within the limits of the city of Boonville, and was the only available land which could be secured by the school. The State now owns five hundred acres of land. There are located upon this land twenty-eight substantial buildings. All of them, except the main building, were constructed by the boys. There is also a brick dwelling house on the land recently purchased.

This institution has graded schools up to eighth grade.

Number of boys in school December, 1914, is 494.

STATE INDUSTRIAL HOME FOR GIRLS—CHILLICOTHE.

The State Industrial Home for Girls was established by an act of the Thirty-fourth General Assembly approved March 30, 1887. The sum of $50,000 was appropriated for the building. A commission, composed of the Governor, Attorney-General and Register of Lands, was appointed to locate the home, and the commissioners were authorized to receive such donations in money, land or building material as might be tendered to secure the location. On July 28, 1887, the commissioners accepted a donation of $5,000, tendered by the citizens of Chillicothe, through the Chillicothe Board of Trade, and located the institution on its present site in Chillicothe. Under the provisions of the act establishing the institution, the management is on the cottage plan. On June 15, 1888, the wall of the basement of the first cottage being completed, the corner stone was laid; this cottage is known as "Marmaduke Cottage." Three more cottages have since been added, and they are known as "Missouri Cottage," "Slack Cottage" and "Folk Cottage." Besides these buildings several others have been erected—a school building and chapel combined, a large boiler house of sufficient capacity to furnish steam heat and power for all buildings, and a new administration building at a cost of $15,000, a beautiful plot of ground immediately fronting the three cottages having been purchased for this building. One thousand one hundred and four girls have entered the institution, 879 have left it for various reasons, viz: Good behavior, expiration of time, etc., and 225 are at present in the home.

EXECUTIVE BIOGRAPHICAL.

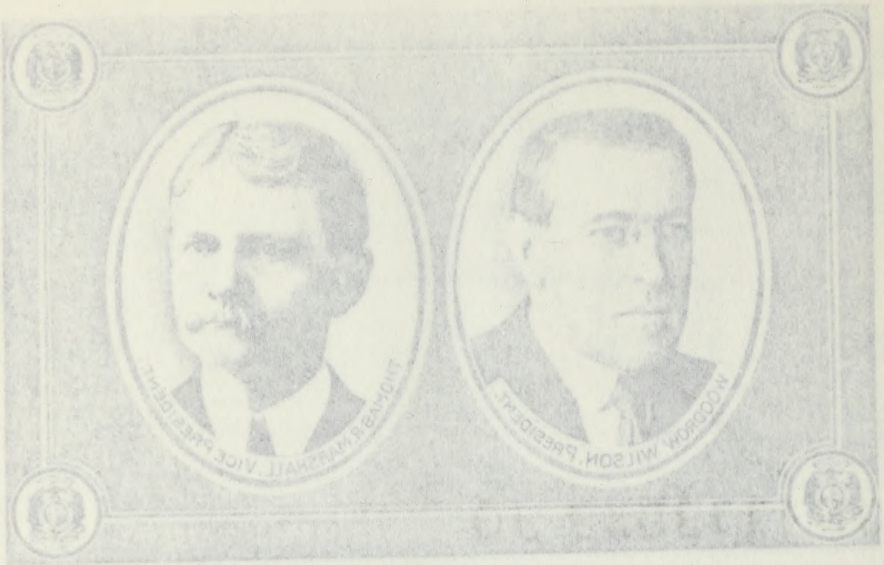

Copyright by G. V. Buck, Underwood & Underwood, N. Y.

WOODROW WILSON (Democrat), President, was born at Staunton, Va., December 28, 1856, and is a son of the Rev. Joseph R. Wilson and Jessie Woodrow Wilson, the former a distinguished scholar and clergyman of the Presbyterian Church of the South. His father was a native of Ohio and his mother of Scotland, and his ancestry on both sides is Scotch-Irish. His boyhood days were spent in Augusta, Ga., at Columbia, S. C., and Wilmington, N. C., where he prepared for college with private tutors and at the schools of these places. His real educator, however, was his father, a scholar of high order, for some years professor of the Columbia (S. C.) Theological Seminary, and who closed his career as professor in the Southwestern Theological Seminary at Clarksville, Tenn. In 1874 he entered Davidson College, North Carolina, remained one year, and in the fall of 1875 went to Princeton College, from which he was graduated in the class of 1879. Following his graduation he entered the University of Virginia, Charlottesville, Va., as a law student and was graduated in 1881. For two years he practiced law at Atlanta, Ga. In 1883 to 1885 did graduate work at the Johns Hopkins University, Baltimore, Md., in political economy and history; 1885 to 1888, professor of history and political economy at Bryn Mawr College, Pennsylvania; 1888 to 1890, professor in the same branches of science at Wesleyan University. In June, 1890, he was elected professor of jurisprudence and political economy at Princeton University. In 1895 the department was divided and he was assigned to the chair of jurisprudence. In 1897 he was promoted to the McCormick professorship of jurisprudence and politics. In 1902 he was elected president of the university, resigning both that office and his professorship in October, 1910, immediately after his nomination for Governor of New Jersey, to which office he was elected November 8, 1910, by a plurality of 49,056 votes. He was married June 24, 1885, to Miss Ellen Louise Axson of a distinguished family of Savannah, Ga. Mrs. Wilson died at the White House on August 6, 1914. The President has three daughters, Miss Margaret Woodrow Wilson, Mrs. Francis Bowes Sayre and Mrs. William Gibbs McAdoo. He is the author of the following works: Congressional Government, in 1885; The State-Elements of Historical and Practical Politics, in 1889; Division and Reunion, in 1893; An Old Master, and Other Political Essays, in 1893; Mere Literature and Other Essays, in 1896; Life of George Washington, in 1896; History of the American People, in 1902; and Constitutional Government in the United States, in 1908.

THOMAS R. MARSHALL (Democrat) of Indianapolis, Ind., Vice-President of the United States, was born in North Manchester, Wabash county, Indiana, March 14, 1854; the son of Dr. Daniel M. and Martha A. Patterson Marshall; was graduated from Wabash College in 1873, which college, as well as Notre Dame University, the University of Pennsylvania, the University of North Carolina and the University of Maine, has conferred upon him the degree of LL. D.; began the practice of law in Columbia City, Indiana, on his twenty-first birthday and continued without interruption the practice of law there until 1908, when he was elected governor of the State of Indiana; was married October 2, 1895, to Miss Lois I. Kimsey of Angola, Indiana. He was elected Vice-President in 1912.

DEMOCRATIC PARTY.

DEMOCRATIC NATIONAL CONVENTION.

(Nominees—For President, Woodrow Wilson of New Jersey; for Vice-President, Thomas R. Marshall of Indiana.)

The Democratic national convention assembled at Baltimore, Md., June 25, 1912, and was called to order at 12:21 p. m. by the Hon. Norman E. Mack, chairman of the Democratic National Committee. Judge Alton B. Parker of New York was temporary chairman and Ollie James of Kentucky was permanent chairman. The rule of the Democratic conventions called for a two-third vote of the delegates to nominate the candidates for President and Vice-President, and not a plurality or majority vote. This rule complicates the choice of candidates and makes it comparatively easy for the convention to fall into a deadlock. The test of strength was mainly between Hon. Champ Clark of Missouri and Governor Woodrow Wilson of New Jersey. Mr. Clark received plurality of votes cast on twenty-nine ballots, his vote running from 440½ on first ballot to 556 on tenth ballot, and had the convention been governed by a plurality or majority vote, the Hon. Champ Clark of Missouri would have received the nomination on that ballot. From the tenth ballot on Governor Wilson gained in votes and was finally nominated by vote of 990 on the forty-sixth ballot, the Missouri delegation voting for Mr. Clark to the last ballot. Senator Stone immediately moved that the nomination be made unanimous by acclamation. This was carried with cheers, and at 3:33 o'clock the nomination of Governor Wilson was announced amid great uproar. Thomas R. Marshall was unanimously nominated for Vice-President, and after the reading of the platform the convention adjourned.

THE PLATFORM.

(Adopted at Baltimore, Md., July 2, 1912.)

We, the representatives of the Democratic party of the United States, in National Convention assembled, reaffirm our devotion to the principles of Democratic government formulated by Thomas Jefferson and enforced by a long and illustrious line of Democratic Presidents.

We declare it to be a fundamental principle of the Democratic party that the Federal Government under the Constitution has no right or power to impose or collect tariff duties, except for the purpose of revenue, and we demand that the collection of such taxes shall be limited to the necessities of government honestly and economically administered.

The high Republican tariff is the principal cause of the unequal distribution of wealth; it is a system of taxation which makes the rich richer and the poor poorer; under its operations the American farmer and laboring man are the chief sufferers; it raises the cost of the necessaries of life to them but does not protect their product or wages. The farmer sells largely in free markets and buys almost entirely in the protected markets. In the most highly protected industries, such as cotton and wool, steel and iron, the wages of the laborers are the lowest paid in any of our industries. We denounce the Republican pretense on that subject and assert that American wages are established by competitive conditions and not by the tariff.

Downward Revision of Duties.—We favor the immediate downward revision of the existing high and in many cases prohibitive tariff duties, insisting that material reductions be speedily made upon the necessaries of life. Articles entering into competition with trust-controlled products and articles of American manufacture which are sold abroad more cheaply than at home should be put upon the free list.

We recognize that our system of tariff taxation is intimately connected with the business of the country, and we favor the ultimate attainment of the principles we advocate by legislation that will not injure or destroy legitimate industry.

We denounce the action of President Taft in vetoing the bills to reduce the tariff in the cotton, woolen, metals and chemical schedules and the farmers' free list bill, all of which were designed to give immediate relief to the masses from the exactions of the trusts.

The Republican party, while promising tariff revision, has shown by its tariff legislation that such revision is not to be in the people's interest; and having been faithless to its pledges of 1908, it should no longer enjoy the confidence of the nation. We appeal to the American people to support us in our demand for a tariff for revenue only.

High Cost of Living.—The high cost of living is a serious problem in every American home. The Republican party in its platform attempts to escape from responsibility for present conditions by denying that they are due to a protective tariff. We take issue with them on this subject, and charge that excessive prices result in a large measure from the high tariff laws enacted and maintained by the Republican party and from trusts and commercial conspiracies fostered and encouraged by such laws, and we assert that no substantial relief can be secured for the people until import duties on the necessaries of life are materially reduced and these criminal conspiracies broken up.

Anti-Trust Law.—A private monopoly is indefensible and intolerable. We therefore favor the vigorous enforcement of the criminal as well as the civil law against trusts and trust officials, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States.

We favor the declaration by law of the conditions upon which corporations shall be permitted to engage in interstate trade, including among others the prevention of holding companies, of interlocking directors, of stock watering, of discrimination in price, and the control by any one corporation of so large a proportion of any industry as to make it a menace to competitive conditions.

We condemn the action of the Republican administration in compromising with the Standard Oil Company and the tobacco trust, and its failure to invoke the criminal provisions of the anti-trust law against the officers of those corporations after the court had declared that from the undisputed facts in the record they had violated the criminal provisions of the law.

DEMOCRATIC PARTY.

DEMOCRATIC NATIONAL CONVENTION.

(Nominees.—For President, Woodrow Wilson of New Jersey; for Vice-President, Thomas R. Marshall of Indiana.)

The Democratic national convention assembled at Baltimore, Md., June 25, 1912, and was called to order at 12:21 p. m. by the Hon. Norman E. Mack, chairman of the Democratic National Committee. Judge Alton B. Parker of New York was temporary chairman and Ollie James of Kentucky was permanent chairman. The rule of the Democratic conventions called for a two-third vote of the delegates to nominate the candidates for President and Vice-President, and not a plurality or majority vote. This rule compliantes the choice of candidates and makes it comparatively easy for the convention to fall into a deadlock. The first attempt was made by Parker Hon. Champ Clark of Missouri and Governor Woodrow Wilson of New Jersey. Mr. Clark received plurality of votes cast on twenty-nine ballots, the vote running from 440½ on first ballot to 556 on tenth ballot, and had the convention been governed by a plurality or majority vote the Hon. Champ Clark of Missouri would have received the nomination on that ballot. From the tenth ballot on Governor Wilson gained in votes and was finally nominated by vote of 990 on the forty-sixth ballot. The fifty-third ballot vote for Mr. Clark to the last ballot. Simpler stood unanimously moved that the nomination be made unanimous by acclamation. This was carried with cheers, and at 2.34 o'clock the nomination of Governor Wilson was announced and great applause. Thomas R. Marshall was unanimously nominated for Vice-President, and after the reading of the platform the convention adjourned.

THE PLATFORM.

(Adopted at Baltimore, Md., July 2, 1912.)

We, the representatives of the Democratic party of the United States in National Convention assembled, reaffirm our devotion to the principles of Democracy contained in the platform adopted by Thomas Jefferson and enforced by a long and illustrious line of Democratic Presidents and leaders.

We declare it to be a fundamental principle of the Democratic party that the Federal Government under the Constitution has no right or power to impose or collect tariff duties except for the purpose of revenue, and we demand that the collection of such taxes shall be limited to the necessities of government honestly and economically administered.

The high Republican tariff is the principal cause of the unequal distribution of wealth; it is a system of taxation which makes the rich richer and the poor poorer, adds to the opportunities of life to titans but does not protect their profits or wages. The farmer sells largely in free markets and buys almost entirely in the protected markets. In the most highly protected industries, such as cotton and wool, steel and iron, the wages of the laborers are the lowest paid in any of our industries. We denounce the Republican pretense on this subject and assert that American wages are established by competitive conditions and not by the tariff.

Downward Revision of Duties.—We favor the immediate downward revision of the existing high and in many cases prohibitive tariff duties, insisting that material reductions must specially be made upon the necessities of life. Articles entering into competition with trust-controlled products and articles of American manufacture which are sold abroad more cheaply than at home should be put upon the free list.

We recognize that our system of tariff taxation is intimately connected with the business of the country, and we favor the ultimate attainment of the principles we advocate by legislation that will not injure or destroy legitimate industry.

We denounce the action of President Taft in vetoing the bills to reduce the tariff in the cotton, woolen, metals and chemical schedules and the farmers' free list bill, all of which were designed to give immediate relief to the masses from the exactions of the trusts.

The Republican party, while pretending tariff revision, has shown by its tariff legislation that such revision is not to be in the people's interest, and having been faithless to the pledges of 1908, it should no longer enjoy the confidence of the nation. We appeal to the thinking people to support us in our demand for a tariff for revenue only.

High Cost of Living.—The high cost of living is a serious problem in every American home. The Republican party in its platform attempts to escape from responsibility for present conditions by denying that they are due to a protective tariff. We take issue with them on this subject, and charge that excessive prices result in a large measure from the high tariff laws enacted and maintained by the Republican party and from trusts and conspiracies fostered and encouraged by such laws, and we assert that no substantial relief can be secured for the people until import duties on the necessaries of life are materially reduced and these criminal conspiracies broken up.

Anti-Trust Law.—A private monopoly is indefensible and intolerable. We therefore favor the vigorous enforcement of the criminal as well as the civil law against trusts and trust officials, and demand the enactment of such additional legislation as may be necessary to make it impossible for a private monopoly to exist in the United States.

We favor the declaration by law of the conditions upon which corporations shall be permitted to engage in interstate trade, including among other the prevention of holding companies, of interlocking directorates, of stock watering, of discrimination in price, and the control by any one corporation of so large a proportion of any industry as to give it a monopoly or to create injurious conditions.

We condemn the action of the Republican administration in cooperating with the Standard Oil Company and the tobacco trust, and in failure to tackle the criminal monopolies of the anti-trust law pending the efforts of those corporations to enter into new and revised unlawful agreements.

We regret that the Sherman anti-trust law has received a judicial construction depriving it of much of its efficacy, and we favor the enactment of legislation which will restore to the statute the strength of which it has been deprived by such interpretation.

Rights of the States.—We believe in the preservation and maintenance in their full strength and integrity of the three co-ordinate branches of the Federal Government—the executive, the legislative and the judicial—each keeping within its own bounds and not encroaching upon the just powers of either of the others.

Believing that the most efficient results under our system of government are to be attained by the full exercise by the states of their reserved sovereign powers, we denounce as usurpation the efforts of our opponents to deprive the states of any of the rights reserved to them, and to enlarge and magnify by indirection the powers of the Federal Government.

We insist upon the full exercise of all the powers of the government, both state and national, to protect the people from injustice at the hands of those who seek to make the government a private asset in business. There is no twilight zone between the nation and the state in which exploiting interests can take refuge from both. It is as necessary that the Federal Government shall exercise the powers reserved to them, but we insist that federal remedies for the regulation of interstate commerce and for the prevention of private monopoly shall be added to and not substituted for state remedies.

Income Tax and Popular Election of Senators.—We congratulate the country upon the triumph of two important reforms demanded in the last national platform, namely, the amendment of the Federal Constitution authorizing an income tax and the amendment providing for the popular election of Senators, and we call upon the people of all the states to rally to the support of the pending propositions and secure their ratification.

We note with gratification the unanimous sentiment in favor of publicity, before the election, of campaign contributions, a measure demanded in our national platform of 1908, and at that time opposed by the Republican party, and we commend the Democratic House of Representatives for extending the doctrine of publicity to recommendations, verbal and written, upon which presidential appointments are made, to the ownership and control of newspapers and to the expenditures made by and in behalf of those who aspire to presidential nominations, and we point for additional justification for this legislation to the enormous expenditures of money in behalf of the President and his predecessor in the recent contest for the Republican nomination for President.

Presidential Primaries.—The movement toward more popular government should be promoted through legislation in each state which will permit the expression of the preference of the electors for national candidates at presidential primaries.

We direct that the national committee incorporate in the call for the next nominating convention a requirement that all expressions of preference for presidential candidates shall be given and the selection of delegates and alternates be made through a primary election conducted by the party organization in each state where such expression and election are not provided for by state law. Committeemen who are hereafter to constitute the membership of the Democratic National Committee and whose election is not provided for by law shall be chosen in each state at such primary elections, and the service and authority of committeemen, however chosen, shall begin immediately upon the receipt of their credentials respectively.

Campaign Contributions.—We pledge the Democratic party to the enactment of a law prohibiting any corporation from contributing to a campaign fund and any individual from contributing any amount above a reasonable maximum.

Term of President.—We favor a single presidential term, and to that end urge the adoption of an amendment to the Constitution making the President of the United States ineligible for re-election, and we pledge the candidate of this convention to this principle.

Democratic Congress.—At this time, when the Republican party, after a generation of unlimited power in its control of the Federal Government, is rent into factions, it is opportune to point to the record of accomplishment of the Democratic House of Representatives in the Sixty-second Congress. We indorse its action and we challenge comparison of its record with that of any Congress which has been controlled by our opponents.

We call the attention of the patriotic citizens of our country to its record of efficiency, economy and constructive legislation.

It has, among other achievements, revised the rules of the House of Representatives so as to give to the representatives of the American people freedom of speech and of action in advocating, proposing and perfecting remedial legislation.

It has passed bills for the relief of the people and the development of our country; it has endeavored to revise the tariff taxes downward in the interest of the consuming masses and thus reduce the high cost of living.

It has proposed an amendment to the Federal Constitution providing for the election of United States Senators by the direct vote of the people.

It has secured the admission of Arizona and New Mexico as two sovereign states.

It has required the publicity of campaign expenses both before and after election and fixed a limit upon the election expenses of United States Senators and Representatives.

It has also passed a bill to prevent the abuse of the writ of injunction.

It has passed a law establishing an eight-hour day for workmen on all national public work.

It has passed a resolution which forced the President to take immediate steps to abrogate the Russian treaty.

And it has passed the great supply bills which lessen waste and extravagance and which reduce the annual expenses of the government by many millions of dollars.

We approve the measure reported by the Democratic leaders in the House of Representatives for the creation of a council of national defense which will determine a definite naval program with a view to increased efficiency and economy. The party that proclaimed and has always enforced the Monroe Doctrine and was sponsor for the new navy will continue faithfully to observe the constitutional requirements to provide and maintain an adequate and well-proportioned navy sufficient to defend American policies, protect our citizens and uphold the honor and dignity of the nation.

Republican Extravagance.—We denounce the profligate waste of the money wrung from the people by oppressive taxation through the lavish appropriations of recent Republican Congresses, which have kept taxes high and reduced the purchasing power of the people's toil. We demand a return to that simplicity and economy which befits a democratic government and a reduction in the number of useless offices, the salaries of which drain the substance of the people.

Railroads, Express Companies, Telegraph and Telephone Lines.—We favor the efficient supervision and rate regulation of railroads, express companies, telegraph and telephone lines engaged in interstate commerce. To this end we recommend the valuation of railroads, express companies, telegraph and telephone lines by the Interstate Commerce Commission, such valuation to take into consideration the physical value of the property, the original cost, the cost of reproduction, and any element of value that will render the valuation fair and just.

We favor such legislation as will effectually prohibit the railroads, express, telegraph and telephone companies from engaging in business which bring them into competition with their shippers or patrons; also legislation preventing the overissue of stocks and bonds by interstate railroads, express companies, telegraph and telephone lines, and legislation which will assure such reduction in transportation rates as conditions will permit, care being taken to avoid reduction that would compel a reduction of wages, prevent adequate service, or do injustice to legitimate investments.

Banking Legislation.—We oppose the so-called Aldrich bill or the establishment of a central bank, and we believe the people of the country will be largely freed from panics and consequent unemployment and business depression by such a systematic revision of our banking laws as will render temporary relief in localities where such relief is needed, with protection from control or dominion by what is known as the money trust.

Banks exist for the accommodation of the public and not for the control of business. All legislation on the subject of banking and currency should have for its purpose the securing of these accommodations on terms of absolute security to the public and of complete protection from the misuse of the power that wealth gives to those who possess it.

We condemn the present methods of depositing government funds in a few favored banks, largely situated in or controlled by Wall Street, in return for political favors, and we pledge our party to provide by law for their deposit by competitive bidding in the banking institutions of the country, national and state, without discrimination as to locality, upon approved securities and subject to call by the government.

Rural Credits.—Of equal importance with the question of currency reform is the question of rural credits or agricultural finance. Therefore we recommend that an investigation of agricultural credit societies in foreign countries be made, so that it may be ascertained whether a system of rural credits may be devised suitable to conditions in the United States; and we also favor legislation permitting national banks to loan a reasonable proportion of their funds on real estate security.

We recognize the value of vocational education and urge federal appropriations for such training and extension teaching in agriculture in co-operation with the several states.

Waterways.—We renew the declaration in our last platform relating to the conservation of our natural resources and the development of our waterways. The present devastation of the Lower Mississippi Valley accentuates the movement for the regulation of river flow by additional bank and levee protection below, and the diversion, storage and control of the flood waters above, and their utilization for beneficial purposes in the reclamation of arid and swamp lands and the development of water power, instead of permitting the floods to continue, as heretofore, agents of destruction.

We hold that the control of the Mississippi river is a national problem. The preservation of the depth of its water for the purpose of navigation, the building of levees to maintain the integrity of its channel and the prevention of the overflow of the land and its consequent devastation, resulting in the interruption of interstate commerce, the disorganization of the mail service and the enormous loss of life and property, impose an obligation which alone can be discharged by the general government.

To maintain an adequate depth of water the entire year and thereby encourage water transportation is a consummation worthy of legislative attention and presents an issue national in its character. It calls for prompt action on the part of Congress, and the Democratic party pledges itself to the enactment of legislation leading to that end.

We favor the co-operation of the United States and the respective states in plans for the comprehensive treatment of all waterways with a view of co-ordinating plans for channel improvement with plans of drainage of swamp and overflowed lands, and to this end we favor the appropriation by the Federal Government of sufficient funds to make surveys of such lands, to develop plans for draining of the same and to supervise the work of construction.

We favor the adoption of a liberal and comprehensive plan for the development and improvement of our inland waterways with economy and efficiency, so as to permit their navigation by vessels of standard draught.

Post Roads.—We favor national aid to state and local authorities in the construction and maintenance of post roads.

Rights of Labor.—We repeat our declaration of the platform of 1908, as follows:

"The courts of justice are the bulwarks of our liberties and we yield to none in our purpose to maintain their dignity. Our party has given to the bench a long line of distinguished justices who have added to the respect and confidence in which this department must be jealously maintained. We resent the attempt of the Republican party to raise a false issue respecting the judiciary. It is an unjust reflection upon a great body of our citizens to assume that they lack respect for the courts.

"It is the function of the courts to interpret the laws which the people enact, and if the laws appear to work economic, social or political injustice, it is our duty to change them. The only basis upon which the integrity of our courts can stand is that of unswerving justice and protection of life, personal liberty and property. As judicial processes may be abused, we should guard them against abuse.

"Experience has proved the necessity of a modification of the present law relating to injunction, and we reiterate the pledges of our platforms of 1896 and 1904 in favor of a measure which passed the United States Senate in 1896, relating to contempt in federal courts and providing for trial by jury in cases of indirect contempt.

"Questions of judicial practice have arisen, especially in connection with industrial disputes. We believe that the parties to all judicial proceedings should be treated with rigid impartiality, and that injunctions should not be issued in any case in which an injunction would not issue if no industrial dispute were involved.

"The expanding organization of industry makes it essential that there should be no abridgment of the right of the wage-earners and producers to organize for the protection of wages and the improvement of labor conditions, to the end that such labor organizations and their members should not be regarded as illegal combinations in restraint of trade.

Railroads, Express Companies, Telegraph and Telephone Lines.—We favor the efficient supervision and rate regulation of railroads, express companies, telegraph and telephone lines engaged in interstate commerce. To this end we recommend the valuation of railroads, express companies, telegraph and telephone lines by the Interstate Commerce Commission, such valuation to take into consideration the physical value of the property, the original cost, the cost of reproduction, and any element of value that will render the valuation fair and just.

"We pledge the Democratic party to the enactment of a law creating a Department of Labor represented separately in the President's Cabinet, in which department shall be included the subject of mines and mining."

We pledge the Democratic party, so far as the federal jurisdiction extends, to an employe's compensation law, providing adequate indemnity for injury to body or loss of life.

Conservation.—We believe in the conservation and the development, for the use of all the people, of the natural resources of the country. Our forests, our sources of water supply, our arable and our mineral lands, our navigable streams and all the other material resources with which our country has been so lavishly endowed, constitute the foundation of our national wealth. Such additional legislation as may be necessary to prevent their being wasted or absorbed by special or privileged interests should be enacted and the policy of their conservation should be rigidly adhered to.

The public domain should be administered and disposed of with due regard to the general welfare. Reservations should be limited to the purposes which they purport to serve and not extended to include land wholly unsuited therefor. The unnecessary withdrawal from sale and settlement of enormous tracts of public land, upon which tree growth never existed and cannot be promoted, tends only to retard development, create discontent and bring reproach upon the policy of conservation.

The public land laws should be administered in a spirit of the broadest liberality toward the settler exhibiting a bona fide purpose to comply therewith, to the end that the invitation of this government to the landless should be as attractive as possible; and the plain provisions of the forest reserve act, permitting homestead entries to be made within the national forests, should not be nullified by administrative regulations which amount to a withdrawal of great areas of the same from settlement.

Immediate action should be taken by Congress to make available the vast and valuable coal deposits of Alaska under conditions that will be a perfect guaranty against their falling into the hands of monopolizing corporations, associations or interests.

Mines and Miners.—We rejoice in the inheritance of mineral resources unequaled in extent, variety or value, and in the development of a mining industry unequaled in its magnitude and importance. We honor the men who, in their hazardous toil underground, daily risk their lives in extracting and preparing for our use the products of the mine, so essential to the industries, the commerce and the comfort of the people of this country. And we pledge ourselves to the extension of the work of the Bureau of Mines in every way appropriate for national legislation, with a view of safeguarding the lives of the miners, lessening the waste of essential resources and promoting the economic development of mining, which, along with agriculture, must in the future, even more than in the past, serve as the very foundation of our national prosperity and welfare and our international commerce.

Agriculture.—We believe in encouraging the development of a modern system of agriculture and a systematic effort to improve the conditions of trade in farm products, so as to benefit both the consumers and producers. And as an efficient means to this end we favor the enactment by Congress of legislation that will suppress the pernicious practice of gambling in agricultural products by organized exchanges or others.

Merchant Marine.—We believe in fostering, by constitutional regulation of commerce, the growth of a merchant marine which shall develop and strengthen the commercial ties which bind us to our sister republics of the south, but without imposing additional burdens upon the people and without bounties or subsidies from the public treasury.

We urge upon Congress the speedy enactment of laws for the greater security of life and property at sea, and we favor the repeal of all laws, and the abrogation of so much of our treaties with other nations, as provide for the arrest and imprisonment of seamen charged with desertion or with violation of their contract of service.

Such laws and treaties are un-American and violate the spirit, if not the letter, of the Constitution of the United States.

We favor the exemption from tolls of American ships engaged in coastwise trade passing through the Panama canal.

We also favor legislation forbidding the use of the Panama canal by ships owned or controlled by railroad carriers engaged in transportation competitive with the canal.

Pure Food and Public Health.—We reaffirm our previous declarations advocating the union and strengthening of the various governmental agencies relating to pure foods, quarantine, vital statistics and human health. Thus united and administered without partiality to or discrimination against any school of medicine or system of healing, they would constitute a single health service not subordinated to any commercial or financial interests, but devoted exclusively to the conservation of human life and efficiency. Moreover, this health service should co-operate with the health agencies of our various states and cities, without interference with their prerogatives or with the freedom of individuals to employ such medical or hygienic aid as they may see fit.

Civil Service Law.—The law pertaining to the civil service should be honestly and rigidly enforced, to the end that merit and ability should be the standard of appointment and promotion rather than service rendered to a political party; and we favor a reorganization of the civil service, with adequate compensation, commensurate with the class of work performed, for all officers and employes; we also favor the extension to all classes of civil service employes of the benefits of the provisions of the employers' liability law; we also recognize the right of direct petition to Congress by employes for the redress of grievances.

Law Reform.—We recognize the urgent need of reform in the administration of civil and criminal law in the United States, and we recommend the enactment of such legislation and the promotion of such measures as will rid the present legal system of the delays, expense and uncertainties incident to the system as now administered.

The Philippines.—We reaffirm the position thrice announced by the Democracy in national convention assembled against a policy of imperialism and colonial exploitation in the Philippines or elsewhere. We condemn the experiment in imperialism as an inexcusable blunder which has involved us in enormous expense, brought us weakness instead of strength and laid our nation open to the charge of abandonment of the fundamental doctrine of self-government. We favor an immediate declaration of the nation's purpose to recognize the independence of the Philippine Islands as soon as a stable government can be established, such independence to be guaranteed by us until the neutralization of the islands can be secured by treaty with other powers. In recognizing the independence of the Philippines, our government should retain such land as may be necessary for coaling stations and naval bases.

"We pledge the Democratic party to the enactment of a law creating a Department of Labor represented separately in the President's Cabinet, in which department shall be included the subjects of mines and mining."

We pledge the Democratic party, so far as the federal jurisdiction extends, to an employe's compensation law, providing adequate indemnity for injury to body or loss of life.

The public domain should be administered and disposed of with due regard to the general welfare. Reservations should be limited to the purposes which they purport to serve and not extended to include land wholly unsuited thereto. The unnecessary withdrawal from sale and settlement of enormous tracts of public land, upon which free growth may be stifled and cannot be promoted, tends only to retard development, create discontent and bring reproach upon the policy of conservation.

The public land laws should be administered in a spirit of the broadest liberality toward the settler exhibiting a bona fide purpose to comply therewith, to the end that the invitation of this government to the landless should be as attractive as possible, and the plain provisions of the forest reserve act, permitting homestead entries to be made within the national forests, should not be nullified by administrative regulations which amount to a withdrawal of great areas of the same from settlement.

Immediate action should be taken by Congress to make available the vast and valuable coal deposits of Alaska under conditions that will be a perfect guaranty against their falling into the hands of monopolizing corporations, associations or interests.

Mines and Mineral.—We rejoice in the influence of mineral resources employed in extent, variety or value, and in the development of a mining industry unequaled in its magnitude and importance. We honor the men who, in their hazardous toil underground, daily risk their lives in extracting and preparing for use by the products of the mine, so essential to the industries, the commerce and the comfort of the people of this country. Civil Service Law.—The law pertaining to the civil service should be honestly and rigidly enforced, to the end that such ability should be the standard of appointment and promotion rather than service rendered to a political party; and we favor a reclassification of the civil service, with adequate compensation, commensurate with the character of work performed, for all officers and employes; we favor the extension to all classes of civil service employes of the benefits of the provisions of the employers' liability law; we also recognize the right of direct petition to Congress by employes for the redress of grievances.

Law Reform.—We recognize the urgent need of reform in the administration of civil and criminal law in the United States, and we recommend the enactment of such legislation and the promotion of such measures as will rid the present legal system of the delays, expense and uncertainties incident to the system as now administered.

We condemn the experiment in imperialism as an unwise policy which has involved us in the enormous expense, brought us weakness instead of strength and laid our nation open to the charge of abandonment of the fundamental principle of self-government. We favor an immediate declaration of the purpose to recognize the independence of the Filipino people as soon as a stable government can be established therefor and, pending the establishment by us of such government, the adoption of a definite policy looking to the withdrawal of the sovereignty of the United States and the relinquishment of the control of the Philippine group, reserving such naval stations as may be necessary for the protection of our interests in the Pacific ocean.

Arizona and New Mexico.—We welcome Arizona and New Mexico to the sisterhood of states and heartily congratulate them upon their auspicious beginning of great and glorious careers.

Alaska.—We demand for the people of Alaska the full enjoyment of the rights and privileges of a territorial form of government, and we believe that the officials appointed to administer the government of all our territories and the District of Columbia should be qualified by previous bona fide residence.

The Russian Treaty.—We commend the patriotism of the Democratic members of the Senate and House of Representatives which compelled the termination of the Russian treaty of 1832, and we pledge ourselves anew to preserve the sacred rights of American citizenship at home and abroad. No treaty should receive the sanction of our government which does not recognize that equality of all of our citizens, irrespective of race or creed, and which does not expressly guarantee the fundamental right of expatriation.

The constitutional rights of American citizens should protect them on our borders and go with them throughout the world, and every American citizen residing or having property in any foreign country is entitled to and must be given the full protection of the United States Government, both for himself and his property.

Parcel Post and Rural Delivery.—We favor the establishment of a parcel post or postal express and also the extension of the rural delivery system as rapidly as practicable.

Panama Canal Exposition.—We hereby express our deep interest in the great Panama Canal Exposition to be held in San Francisco in 1915, and favor such encouragement as can be properly given.

Protection of National Uniform.—We commend to the several states the adoption of a law making it an offense for the proprietors of places of public amusement and entertainment to discriminate against the uniform of the United States, similar to the law passed by Congress applicable to the District of Columbia and the territories in 1911.

Pensions.—We renew the declaration of our last platform relating to a generous pension policy.

Rule of the People.—We call attention to the fact that the Democratic party's demand for a return to the rule of the people, expressed in the national platform four years ago, has now become the accepted doctrine of a large majority of the electors. We again remind the country that only by a larger exercise of the reserved power of the people can they protect themselves from the misuse of delegated power and the usurpation of governmental instrumentalities by special interests. For this reason the national convention insisted on the overthrow of Cannonism and the inauguration of a system by which United States Senators could be elected by direct vote.

The Democratic party offers itself to the country as an agency through which the complete overthrow and extirpation of corruption, fraud and machine rule in American politics can be effected.

Conclusion.—Our platform is one of principles which we believe to be essential to our national welfare. Our pledges are made to be kept when in office as well as relied upon during the campaign, and we invite the co-operation of all citizens, regardless of party, who believe in maintaining unimpaired the institutions and traditions of our country.

DEMOCRATIC STATE CONVENTION, 1914.

The Democratic state convention assembled in Jefferson City August 25, 1914, meeting in the House of Representatives. The convention was called to order by former State Chairman D. C. McClung. Senator John F. Morton of Richmond was selected as temporary chairman and Horace Blackwell of Lexington as temporary secretary. The permanent officers were Joe T. Russell of Charleston, chairman; Horace P. Blackwell of Lexington, secretary, and J. H. Brooks of St. Louis, assistant secretary. The platform was read to the convention by Senator William J. Stone of the resolution committee and adopted unanimously.

DEMOCRATIC STATE PLATFORM.

National Affairs.—Voicing what we believe to be the sentiment of the Missouri Democracy, we declare our confidence in the President Woodrow Wilson is one of the wisest and greatest of all the Chief Executives who have guided the destinies of this republic. During the eighteen months of his administration the constructive work, both legislative and executive, already accomplished and that in progress of being accomplished and now projected, distinguishes his administration as one pre-eminent in the history of our country.

Things Accomplished.—The revision of the tariff in as in large measure to place the consuming public from unjust burdens and to make monopoly far more difficult is accomplished. The establishment of the federal reserve system, the federal trade commission, the rural credits law, the good roads law, the parcels post law, the law prohibiting the issuance of watered stock, the law prohibiting the issuance of bonds by railroads for the purpose of paying dividends

possible; the imposition of an income tax requiring those of ample fortune to contribute more equitably on a graduated scale of taxation to the support of the government; the establishment of a new banking and currency system to take the place of an old system long since become so imperfect, unscientific and inefficient as to be almost obsolete, and through the agencies of this new system to enable the government and the financial institutions of the country to legitimately co-operate in mobilizing and employing assets so as to minimize the danger of panics and more readily and effectually serve the needs of honest business in every section of the country, are a part, and only a part, of the conspicuous achievements already completed.

Things Near Completion.—The enactment of a statute establishing a federal trades commission designed to prevent unfair and destructive competition in business; the enactment of statutes to strengthen existing laws against monopoly and combinations in restraint of trade; the enactment of statutes to promote the welfare of workingmen and women and to protect them in all legitimate efforts to improve their condition, and the enactment of statutes to revive and restore our merchant marine, and thus supply independent facilities of our own for conveying American products to the markets of the world, are some of the more striking policies of the administration now nearing legislative completion.

Works of Peace.—Especially should we congratulate the country on the signally important work performed by this administration in the interest of peace. In the face of great and often exasperating difficulties, and in spite of hostile and vexing criticism, the President's firm adherence to his patient, patriotic and humane policy of "watchful waiting" has been so triumphantly vindicated as to silence opposition. Because of this policy we have not only avoided a costly and bloody conflict with a neighboring and sorely distressed republic, but we have encouraged the people there in righteous work and helped to start them anew on the highway of national progress, while, at the same time, we have strengthened the ties of amity and good will between this nation and all the republics on this hemisphere. Moreover, the American people should rejoice that while the great nations of Europe and practically of all the world are embroiled in one of the most disastrous wars of history, the United States, stupendous in strength and opulence, is almost the sole great power upholding the banner of peace. At the very time the nations of Europe were sending ultimatums and issuing declarations of war, the President was concluding and the Senate ratifying treaties of peace, designed to prevent war, with over twenty of the independent nations of the world. It should be a proud reflection that our government has been so wisely administered that among all the powers we alone hold a position that enables us to stand forth as the champion of peace, civilization and progress and to be influential in checking the havoc of war and bringing order out of chaos.

Unity of Action.—In maturing and consummating this program of constructive work, national and international, the Democratic Congress has worked in harmony and co-operation with the Democratic President. In the freedom of debate, differences of opinion in matters of detail have sometimes and almost inevitably arisen, but in the end all forces have combined and differences disappeared, and at the close of the first year and a half of this Democratic administration all patriotic people have abundant and most inspiring reasons for congratulation when they review the character and importance of the work done and being done.

Resolutions.—Therefore, be it resolved, That we most heartily indorse the administration of President Wilson and the splendid work performed by the Democratic Senate and House of Representatives, and especially do we commend the Missouri delegation for remaining steadfastly at their posts in the discharge of official duties.

Resolved, That we reaffirm the declarations of the Baltimore platform as the last national expression of party policy and purpose with respect to the more important questions affecting our people and their government, and be it further

Resolved, That we urge upon Congress the necessity of making necessary appropriations at this session of Congress for the improvement of rivers and harbors, to the end that improvements now being made may be continued and the work already done may be protected.

State Affairs.—We heartily approve and endorse the able and efficient administration of state affairs by Governor Elliott W. Major and his Democratic associates and the progressive record made by the last General Assembly. More constructive legislation has been enacted and put into operation during the present administration than during any equal period in the history of the state.

State Finances.—The splendid financial conditions of the state and the unprecedented surplus now in the treasury attest to the wise and economical management of state affairs.

Good Roads.—The people are to be congratulated upon the magnificent public interest that has resulted in vast road improvements. While great progress has been made in the betterment of public roads during this administration, we favor such a revision of the road laws as will bring about greater progress in this regard, and the establishment of such a system as will furnish to every section of the state the benefits to be derived from road improvements.

Schools and Education.—A greater measure of state aid for public education has been given by legislative enactment than ever before. While we feel a pride in the superiority of our public school system, we realize that much more may be accomplished by extending the teaching of practical agriculture and vocational training wherever practicable, and we pledge our party to the adoption of such measures as will result in keeping Missouri in the forefront among her sister states. During the year 1914 there has been apportioned and appropriated from the state treasury to the public schools of the state almost two million dollars, approximately a quarter of a million more than in any previous year. We favor the continuation of increasing appropriations for the public schools and are in favor of liberal salaries for our public school teachers.

State Institutions.—During the present administration the penal, eleemosynary and educational institutions of the state have been conducted in such a manner that there has not been one word of censure from any quarter toward those having the management of said institutions in charge. They have been free from scandal and the influence of petty politics. A standard of efficiency has been inaugurated in these institutions commensurate with the march of civilization. We favor increased facilities in our reformatory institutions for industrial training to the end that useful citizenship shall be placed above mere punishment. We favor the establishment of an intermediate reformatory for youthful offenders.

Organizing Public Service.—In the interest of that economy which the Democratic party has ever favored in public service, we believe the work being done by the Labor Bureau, Mine Inspection Bureau, Hotel Inspection Department, Factory Inspection Department and

the Board of Mediation and Arbitration, created by former Legislatures, should be combined under one head and managed by an industrial commission.

Simplified Court Procedure.—We believe the time has arrived when court procedure should be simplified, and we endorse the appointment by the Governor of the Code Commission charged with the duty of recommending to the next session of the General Assembly a revised and simplified system calculated to avoid the expense and delay now so common in defeating the ends of justice.

The New Capitol.—We heartily endorse the State Capitol Building Commission in its efforts to compel the contractor to carry out the original contract in all its provisions, and we voice the wishes of the people in insisting that the new capitol shall be constructed of the best building stone to be found in the state and completed within the time originally agreed upon, and we condemn the contractor's policy of delay already too long endured.

Banking Laws.—As this state has more state banks and trust companies than any other state in the Union, we approve the unanimous action of the recent convention of Missouri bankers in appointing a commission looking to a revision of the banking laws of this state, and pledge the Democratic party to such a revision of our banking laws as will give specific authority to state banks and trust companies to take stock in the federal regional banks, inasmuch as it is doubtful whether or not the present banking acts give such authority, and give the people enlarged banking facilities, and give, also, increased protection against bad banking.

Public Service Commission.—The Public Service Commission has met the fair expectations of the people of the state. To render the work more effective, we favor additional legislation; more specifically defining the powers, duties and authority of the commission.

Law Enforcement.—The laws of the state represent the will of the people. The people can rule only by and through due observance of law, and we favor its enforcement.

Minimum Wage.—We favor legislation to provide a reasonable minimum wage scale for women and girls who work to support themselves and those dependent upon them.

Insurance.—We favor such legislation on the subject of insurance as will safeguard the interests of the public.

Contract Convict Labor.—We reaffirm our belief that contract convict labor should be abolished, and we pledge the co-operation of our nominees to any reasonable plan that will secure this result.

Workmen's Compensation.—We favor the passage of a workmen's compensation law that will be just to the employer and to the employe.

Economy in Taxation.—We reaffirm our allegiance to the taxpayers of Missouri and promise to continue our well-known opposition to the advocates of an excessive valuation of property. We are in favor of low taxes and collecting only such an amount as will be necessary to administer the affairs of state economically and judiciously, a policy which has always been a cardinal principle of democracy in this state.

REPUBLICAN PARTY.

REPUBLICAN NATIONAL CONVENTION.

(Nominees—For President, William Howard Taft of Ohio; for Vice-President, James S. Sherman of New York.)

The Republican national convention met in Chicago June 18, 1912, and was called to order by William Hayward, secretary of the National Committee. Governor Herbert S. Hadley of Missouri was floor manager for the Roosevelt delegates and James E. Watson of Indiana acted in the same capacity for the Taft delegates. The convention was characterized by an extreme hard-fought fight between the Roosevelt and Taft delegates for control of the convention. There were in dispute about 260 seats. Most of these were in the south and concerned chiefly the negro delegates from the southern states. It was evident at this time that the balance of power in the convention rested in the hands of these colored delegates. The result of the contest before the national committee gave Mr. Taft 555 votes, or enough for the nomination if these votes could be held. The withdrawal of 60 or 70 colored delegates from his support to that of Mr. Roosevelt would prevent the President's renomination. The first test of strength was shown in the election of Senator Elihu Root of New York, a Taft delegate, as temporary chairman by a vote of 558 to 502. The next show of strength was made before the committee on credentials, in which the credentials committee in each instance endorsed the action of the national committee in seating the Taft delegates. A bitter fight was waged against the adoption of the committee's report, led by Governor Hadley, representing the Roosevelt forces, but which resulted in the seating in each instance of the Taft delegates. On Saturday, June 22nd, Senator Root was made permanent chairman and the permanent organization concluded. Following the election of Permanent Chairman Root, Hon. Henry J. Allen of Texas, who had succeeded Governor Hadley as representative of Mr. Roosevelt in the convention, read the following statement from Mr. Roosevelt:

Final Statement of Mr. Roosevelt.—"A clear majority of the delegates honestly elected to this convention were chosen by the people to nominate me. Under the direction and with the encouragement of Mr. Taft the majority of the national committee, by the so-called 'steam roller' methods and with scandalous disregard of every principle of elementary honesty and decency, stole eighty or ninety delegates, putting on the temporary call a sufficient number of fraudulent delegates to defeat the legally expressed will of the people and to substitute a dishonest for an honest majority.

"The convention has now declined to purge the roll of the fraudulent delegates placed thereon by the defunct national committee, and the majority which thus endorsed fraud was made a majority only because it included the fraudulent delegates themselves, who all sat as judges on one another's cases. If these fraudulent votes had not thus been cast and counted the convention would have been purged of their presence. This action makes the convention in no proper sense any longer a Republican convention representing the real Republican party. Therefore I hope the men elected as Roosevelt delegates will now decline to vote on any matter before the convention. I do not release any delegate from his honorable obligation to vote for me if he votes at all; but under the actual conditions I hope that he will not vote at all.

"The convention as now composed has no claim to represent the voters of the Republican party. It represents nothing but a successful fraud in overriding the will of the rank and file of the party. Any man nominated by the convention as now constituted will be merely the beneficiary of this successful fraud; it would be deeply discreditable to any man to accept the convention's nomination under these circumstances, and any man thus accepting it would have no claim to the support of any Republican on party grounds and would have forfeited the right to ask the support of any honest man of any party on moral grounds."

Following the issuance of this statement Mr. Taft was nominated on the first ballot by a vote of 561, 344 not voting. Following this, James S. Sherman of New York was nominated for Vice-President. Following the nomination of Mr. Taft the Roosevelt delegates assembled at Orchestra hall and organized an informal nominating convention and proceeded to organize the Progressive party.

THE PLATFORM.

(*Adopted at Chicago, Ill., June 22, 1912.*)

The Republican party, assembled by its representatives in national convention, declares its unchanging faith in government of the people, by the people, for the people. We renew our allegiance to the principles of the Republican party and our devotion to the cause of Republican institutions established by the fathers.

Following Mr. Taft's nomination Mr. Sherman of New York was nominated for Vice-President. Following the nomination of Mr. Taft the Roosevelt delegates assembled at Orchestra hall and organized as informal nominating convention and proceeded to organize the Progressive party.

THE PLATFORM.

(Adopted at Chicago, Ill., June 22, 1912.)

The Republican party, assembled by its representatives in national convention, declares its unchanging faith in government of the people, by the people, for the people. We renew our allegiance to the principles of the Republican party and declare that the existence of the party has been justified by the complete achievement of its historic purposes and by the wonderful growth and prosperity of the nation during the fifty-two years of Republican control of the national government.

It is appropriate that we should now recall with a sense of veneration and gratitude the name of our first great leader, who was nominated in this city, and whose lofty principles and superb devotion to his country are an inspiration to the party he honored—Abraham Lincoln. In the present state of public affairs we should be inspired by his broad statesmanship and by his tolerant spirit toward men.

The Republican party looks back on its record with pride and satisfaction and forward to its new responsibilities with hope and confidence. Its achievements in government constitute the most luminous pages in our history. Our greatest national advance has been made during the years of its ascendancy in public affairs. It has been genuinely and always a party of progress; it has never been either stationary or reactionary. It has gone from the fulfillment of one great pledge to the fulfillment of another in response to the public need and to the popular will.

Government of Laws, Not of Men.—We believe in our self-controlled representative democracy, which is a government of laws, not of men, and in which order is the prerequisite of progress.

The principles of constitutional government, which make provision for orderly and effective expression of the popular will, for the protection of civil liberty and the rights of men, and for the interpretation of the law by an untrammeled and independent judiciary, have proved themselves capable of sustaining the structure of a government which, after more than a century of development, embraces 100,000,000 of people, scattered over a wide and diverse territory, but bound by common purpose, common ideals and common affection to the Constitution of the United States.

Under the Constitution and the principles asserted and vitalized by it, the United States has grown to be one of the great civilized and civilizing powers of the earth. It offers a home and an opportunity to the ambitious and the industrious from other lands. Resting upon the broad basis of a people's confidence and a people's support, and managed by the people themselves, the Government of the United States will meet the problems of the future as satisfactorily as it has solved those of the past.

The Party's Program.—The Republican party is now, as always, a party of advanced and constructive statesmanship. It is prepared to go forward with the solution of those new questions which social, economic and political development have brought into the forefront of the nation's interest. It will strive, not only in the nation but in the several states, to enact the necessary legislation to safeguard the public health; to limit effectively the labor of women and children; to protect wage-earners engaged in dangerous occupations; to enact comprehensive and generous workman's compensation laws in place of the present wasteful and unjust system of employers' liability, and in all possible ways to satisfy the just demand of the people for the study and solution of the complex and constantly changing problems of social welfare.

In dealing with these questions it is important that the rights of every individual to the freest possible development of his own powers and resources and to the control of his own justly acquired property, so far as those are compatible with the rights of others, shall not be interfered with or destroyed. The social and political structure of the United States rests upon the civil liberty of the individual; and for the protection of that liberty the people have wisely, in the national and state institutions, put definite limitations upon themselves and upon their governmental officers and agencies. To enforce these limitations, to secure the orderly and coherent exercise of governmental powers, and to protect the rights of even the humblest and least favored individual are the function of independent courts of justice.

To Uphold Courts.—The Republican party reaffirms its intention to uphold at all times the authority and integrity of the courts, both state and federal, and it will ever insist that their powers to enforce their process and to protect life, liberty and property shall be preserved inviolate. An orderly method is provided under our system of government by which the people may, when they choose, alter or amend the constitutional provisions which underlie that government. Until these constitutional provisions are so altered or amended, in orderly fashion, it is the duty of the courts to see to it that when challenged they are enforced.

That the courts, both federal and state, may bear the heavy burden laid upon them to the complete satisfaction of public opinion, we favor legislation to prevent long delays and the tedious and costly appeals which have so often amounted to a denial of justice in civil cases and to a failure to protect the public at large in criminal cases.

Since the responsibility of the judiciary is so great, the standards of judicial action must be always and everywhere above suspicion and reproach. While we regard the recall of judges as unnecessary and unwise, we favor such action as may be necessary to simplify the process by which any judge who is found to be derelict in his duty may be removed from office.

Together with peaceful and orderly development at home, the Republican party earnestly favors all measures for the establishment and protection of the peace of the world and for the development of closer relations between the various nations of the earth. It believes most earnestly in the peaceful settlement of international disputes and in the reference of all justiciable controversies between nations to an international court of justice.

Monopoly and Privilege.—The Republican party is opposed to special privilege and to monopoly. It placed upon the statute book the interstate commerce act of 1887, and the important amendments thereto, and the anti-trust act of 1890, and it has consistently and successfully enforced the provisions of these laws. It will take no backward step to permit the re-establishment in any degree of conditions which were intolerable.

Experience makes it plain that the business of the country may be carried on without fear or without disturbance and at the same time without resort to practices which are abhorrent to the common sense of justice. The Republican party favors the enactment of legislation supplementary to the existing anti-trust act, which will define as criminal offenses those specific acts that uniformly mark attempts to restrain and to monopolize trade, to the end that those who honestly intend to obey the law may have a guide for their action and that those who aim to violate the law may the more surely be punished.

The same certainty should be given to the law prohibiting combinations and monopolies that characterizes other provisions of commercial law, in order that no part of the field of business opportunity may be restricted by monopoly or combination, that business success honorably achieved may not be converted into crime, and that the right of every man to acquire commodities, and particularly the necessaries of life, in an open market, uninfluenced by the manipulation of trust or combination, may be preserved.

Federal Trade Commission.—In the enforcement and administration of federal laws governing interstate commerce and enterprises impressed with a public use engaged therein, there is much that may be committed to a federal trade commission, thus placing in the hands

of an administrative board many of the functions now necessarily exercised by the courts. This will promote promptness in the administration of the law and avoid delays and technicalities incident to court procedure.

The Tariff.—We reaffirm our belief in a protective tariff. The Republican tariff policy has been of the greatest benefit to the country, developing our resources, diversifying our industries and protecting our workmen against competition with cheaper labor abroad, thus establishing for our wage-earners the American standard of living. The protective tariff is so woven into the fabric of our industrial and agricultural life that to substitute for it a tariff for revenue only would destroy many industries and throw millions of our people out of employment. The products of the farm and of the mine should receive the same measure of protection as other products of American labor.

We hold that the import duties should be high enough, while yielding a sufficient revenue, to protect adequately American industries and wages. Some of the existing import duties are too high and should be reduced. Readjustment should be made from time to time to conform to changing conditions and to reduce excessive rates, but without injury to any American industry. To accomplish this correct information is indispensable. This information can best be obtained by an expert commission, as the large volume of useful facts contained in the recent reports of the tariff board has demonstrated. The pronounced feature of modern industrial life is its enormous diversification. To apply tariff rates justly to these changing conditions requires closer study and more scientific methods than ever before. The Republican party has shown by its creation of a tariff board its recognition of this situation and its determination to be equal to it. We condemn the Democratic party for its failure either to provide funds for the continuance of this board or to make some other provision for securing the information requisite for intelligent tariff legislation. We protest against the Democratic method of legislating on these vitally important subjects without careful investigation.

We condemn the Democratic tariff bills passed by the House of Representatives of the Sixty-second Congress as sectional, as injurious to the public credit, and as destructive of business enterprise.

Cost of Living.—The steadily increasing cost of living has become a matter not only of national but of world-wide concern. The fact that it is not due to the protective tariff system is evidenced by the existence of similar conditions in countries which have a tariff policy different from our own, as well as by the fact that the cost of living has increased while rates of duty have remained stationary or been reduced. The Republican party will support a prompt scientific inquiry into the causes which are operative, both in the United States and elsewhere, to increase the cost of living. When the exact facts are known, it will take the necessary steps to remove any abuses that may be found to exist in order that the cost of the food, clothing and shelter of the people may in no way be unduly or artificially increased.

Banking and Currency.—The Republican party has always stood for a sound currency and for safe banking methods. It is responsible for the resumption of specie payments and for the establishment of the gold standard. It is committed to the progressive development of our banking and currency systems. Our banking arrangements today need further revision to meet the requirements of current conditions. We need measures which will prevent the recurrence of money panics and financial disturbances and which will promote the prosperity of business and the welfare of labor by producing constant employment. We need better currency facilities for the movement of crops in the west and south. We need banking arrangements under American auspices for the encouragement and better conduct of our foreign trade. In attaining these ends, the independence of individual banks, whether organized under national or state charters, must be carefully protected and our banking and currency system must be safeguarded from any possibility of domination by sectional, financial or political interests.

It is of great importance to the social and economic welfare of this country that its farmers have facilities for borrowing easily and cheaply the money they need to increase the productivity of their land. It is as important that financial machinery be provided to supply the demand of farmers for credit as it is that the banking and currency systems be reformed in the interests of general business. Therefore, we recommend and urge an authoritative investigation of agricultural credit societies and corporations in other countries, and the passage of state and federal laws for the establishment and capable supervision of organizations having for their purpose the loaning of funds to farmers.

The Civil Service.—We reaffirm our adherence to the principle of appointment to public office based on proved fitness and tenure during good behavior and efficiency. The Republican party stands committed to the maintenance, extension and enforcement of the civil service law, and it favors the passage of legislation empowering the President to extend the competitive service as far as possible, the equitable retirement of disabled and superannuated members of the civil service, in order that a higher order of efficiency may be maintained.

Employers' Liability.—We favor the amendment of the federal employers' liability law so as to extend its provision to all government employes, as well as to provide a more liberal scale of compensation for injury and death.

Campaign Contributions.—We favor such additional legislation as may be necessary more effectually to prohibit corporations from contributing funds, directly or indirectly, to campaigns for the nomination or election of the President, the Vice-President, Senators and Representatives in Congress. We heartily approve the recent act of Congress requiring the fullest publicity in regard to all campaign contributions, whether made in connection with primaries, conventions or elections.

Conservation of Natural Resources.—We rejoice in the success of the distinctive Republican policy of the conservation of our natural resources, for their use by the people without waste and without monopoly. We pledge ourselves to a continuance of such a policy.

Acquisition of Public Lands.—We favor such fair and reasonable rules and regulations as will not discourage or interfere with actual bona fide homeseekers, prospectors and miners in the acquisition of public lands under existing laws.

Parcel Post.—In the interest of the general public, and particularly of the agricultural or rural communities, we favor legislation looking to the establishment, under proper regulations, of a parcel post, the postal rates to be graduated under a zone system in proportion to the length of carriage.

Protection of American Citizens.—We approve the action taken by the President and the Congress to secure with Russia, as with other countries, a treaty that will recognize the

of an administrative board many of the functions now necessarily exercised by the courts. This will promote promptness in the administration of the law and avoid delay and technicalities incident to court procedure.

The Tariff.—We reaffirm our belief in a protective tariff. The Republican tariff policy has been of the greatest benefit to the country, developing our resources, diversifying our industries and protecting our workmen against competition with cheaper labor abroad. thus establishing for our wage-earners the American standard of living. The protective tariff is so woven into the fabric of our industrial and agricultural life that to substitute for it a tariff for revenue only would destroy many industries and throw millions of our people out of employment. Our banking arrangements today need further revision to meet the requirements of current conditions. We need monetary which will prevent the recurrence of money panics and financial disturbances and which will promote the prosperity of business and the welfare of labor by producing constant employment. We need better currency facilities for the movement of crops in the west and south. We need banking arrangements under American auspices for the encouragement and better conduct of our foreign trade. In attaining these ends, the independence of individual banks, whether organized under national or state charters, must be carefully protected and our banking and currency system must be safeguarded from any possibility of domination by combinations of capital or political interests.

It is of great importance to the social and economic welfare of this country that its farmers have facilities for borrowing easily and cheaply the money they need to increase the productivity of their land. It is as important that financial machinery be provided to supply the demand of farmers for credit as it is that the banking and currency systems be operated in the interests of general business. Therefore, we recommend and urge an authoritative investigation of agricultural credit societies and corporations in other countries, and the passage of state and federal laws for the establishment and capable supervision of organizations having for their purpose the loaning of funds to farmers.

The Civil Service.—We reaffirm our adherence to the principle of appointment to public office based on proved fitness and tested by competitive merit and efficiency. The Republican party, stands committed to the maintenance, extension and enforcement of the civil service law, and it favors the passage of legislation empowering the President to extend the competitive service as far as possible, the equitable retirement of disabled and superannuated members of the civil service. In order that a higher order of efficiency may be maintained.

Employers' Liability.—We favor the amendment of the federal employers' liability law so as to extend its provision to all government employees, as well as to provide a more liberal scale of compensation for injury and death.

Campaign Contributions.—We favor such additional legislation as may be necessary more effectually to prohibit corporations from contributing funds, directly or indirectly, to campaigns for the nomination or election of the President, the Vice-President, Senators and Representatives in Congress. We heartily approve the recent act of Congress requiring the fullest publicity in regard to all campaign contributions, whether made in opposition with primaries, conventions or elections.

Conservation of Natural Resources.—We believe in the success of the distinctive Republican policy of the conservation of our natural resources, for their use by the people without waste and without monopoly. We pledge ourselves to a continuance of such a policy.

Acquisition of Public Lands.—We favor such fair and reasonable rules and regulations as will not discourage or interfere with actual bona fide home-seekers, prospectors and miners in the acquisition of public lands under existing laws.

Parcel Post.—In the interest of the general public, and particularly of the agricultural or rural communities, we favor legislation looking to the establishment, under proper regulations of a parcel post, the postal rates to be graduated under a zone system in proportion to the length of carriage.

Protection of American Citizens.—We approve the action taken by the President and

absolute right of expatriation, and that will prevent all discrimination of whatever kind between American citizens, whether native born or alien, and regardless of race, religion or previous political allegiance. The right of asylum is a precious possession of the people of the United States, and it is to be neither surrendered nor restricted.

The Navy.—We believe in the maintenance of an adequate navy for the national defense, and we condemn the action of the Democratic House of Representatives in refusing to authorize the construction of additional ships.

Merchant Marine.—We believe that one of the country's most urgent needs is a revived merchant marine. There should be American ships, and plenty of them, to make use of the great American interoceanic canal now nearing completion.

Flood Prevention in the Mississippi Valley.—The Mississippi river is the nation's drainage ditch. Its flood waters, gathered from thirty-one states and the Dominion of Canada, constitute an overpowering force which breaks the levees and pours its torrents over many million acres of the richest land in the Union, stopping mails, impeding commerce, and causing great loss of life and property. These floods are national in scope, and the disasters they produce seriously affect the general welfare. The states unaided cannot cope with this giant problem; hence we believe the Federal Government should assume a fair proportion of the burden of its control so as to prevent the disasters from recurring floods.

Reclamation of Arid Lands.—We favor the continuance of the policy of the government with regard to the reclamation of arid lands, and for the encouragement of the speedy settlement and improvement of such lands; we favor an amendment to the law that will reasonably extend the time within which the cost of any reclamation project may be repaid by the landowners under it.

Rivers and Harbors.—We favor a liberal and systematic policy for the improvement of our rivers and harbors. Such improvements should be made upon expert information and after a careful comparison of cost and prospective benefits.

Alaska.—We favor a liberal policy toward Alaska, to promote the development of the great resources of that district, with such safeguards as will prevent waste and monopoly. We favor the opening of the coal lands to development through a law leasing the lands on such terms as will invite development and provide fuel for the navy and the commerce of the Pacific ocean, while retaining title in the United States to prevent monopoly.

Porto Rico.—We ratify in all its particulars the platform of 1908 respecting citizenship for the people of Porto Rico.

Philippine Policy.—The Philippine policy of the Republican party has been and is inspired by the belief that our duty toward the Filipino people is a national obligation which should remain entirely free from partisan politics.

Immigration.—We pledge the Republican party to the enactment of appropriate laws to give relief from the constantly growing evil of induced or undesirable immigration, which is inimical to the progress and welfare of the people of the United States.

Safety at Sea.—We favor the speedy enactment of laws to provide that seamen shall not be compelled to endure involuntary servitude and that life and property at sea shall be safeguarded by the ample equipment of vessels with life-saving appliances and with full complements of skilled, able-bodied seamen to operate them.

Republican Accomplishment.—The approaching completion of the Panama canal, the establishment of a bureau of mines, the institution of postal savings banks, the increased provision made in 1912 for the aged and infirm soldiers and sailors of the republic and for their widows, and the vigorous administration of the laws relating to pure food and drugs, all mark the successful progress of Republican administration and are additional evidence of its effectiveness.

Economy and Efficiency.—We commend the earnest effort of the Republican administration to secure greater economy and increased efficiency in the conduct of government business; extravagant appropriations and the creation of unnecessary offices are an injustice to the taxpayer and a bad example to the citizen.

Civic Duty.—We call upon the people to quicken their interest in public affairs, to condemn and punish lynchings and other forms of lawlessness, and to strengthen in all possible ways a respect for law and the observance of it. Indifferent citizenship is an evil from which the law affords no adequate protection and for which legislation can provide no remedy.

Arizona and New Mexico.—We congratulate the people of Arizona and New Mexico upon the admission of those states, thus merging in the Union in final and enduring form the last remaining portion of our continental territory.

Republican Administration.—We challenge successful criticism of the sixteen years of Republican administration under Presidents McKinley, Roosevelt and Taft. We heartily reaffirm the endorsement of President McKinley contained in the platform of 1900 and of 1904 and that of President Roosevelt contained in the platforms of 1904 and 1908.

We invite the intelligent judgment of the American people upon the administration of William H. Taft. The country has prospered and been at peace under his Presidency. During the years in which he had the co-operation of a Republican Congress an unexampled amount of constructive legislation was framed and passed in the interest of the people and in obedience to their wish. That legislation is a record on which any administration might appeal with confidence to the favorable judgment of history.

We appeal to the American electorate upon the record of the Republican party and upon this declaration of its principles and purposes. We are confident that under the leadership of the candidates here to be nominated our appeal will not be in vain; that the Republican party will meet every just expectation of the people whose servant it is; that under its administration and its laws our nation will continue to advance; that peace and prosperity will abide with the people, and that new glory will be added to the great republic.

REPUBLICAN NATIONAL CONVENTION, 1912.

The Republican national state convention met at the Armory in St. Louis, Mo., on April 25, 1912. The temporary officers of the convention were Frederick B. Kriesmann, chairman; T. W. Hukriede, secretary; Wm. P. Pindly, assistant secretary. The permanent officers were Herbert S. Hadley, chairman; James A. Finch, secretary; William T. Pindly, assistant secretary; Frederick Lang, sergeant-at-arms.

REPUBLICAN STATE CONVENTION, 1914.

The Republican state convention assembled in St. Louis August 25, 1914, in the Old Museum of Fine Arts in St. Louis, Mo., and proceeded to organize with Berryman Henwood of Hannibal as temporary chairman and Conway Elder of St. Louis as temporary secretary. The permanent officers were Thomas J. Akins, chairman, and Conway Elder, secretary. The platform was adopted August 26, 1914.

THE PLATFORM.

The Republican party of Missouri, through its legally chosen representatives in convention assembled, hail with satisfaction the multiplying evidences of the return of the Republican party to power in state and nation.

The result of every primary, election or registration held since 1912 proves the constantly increasing drift toward the Republican party, and demonstrates beyond question that the sole hope of the people for relief from the burdens of Democratic misrule is through the return to power of the Republican party. Renewed evidences of the unwise theory of government taught and administered by the Democratic party is found in the present industrial depression which pervades the country today under the free trade policies of the party in power.

The voters of Missouri and the nation impatiently await the opportunity to correct the mistakes made in 1912. The present conditions are but a repetition of what the nation experienced from 1893 to 1897 under the administration of Grover Cleveland.

The Democratic party has enacted a tariff law that has resulted in turning against us the balance of trade, taking from the American farmer the protection he has enjoyed in the past, and leaving our people to the mercy of the competition of the coolie labor of the Orient and cheap labor and lands of the South American republics; taking a duty from the manufactured products of other countries that has resulted in flooding the American market with foreign-made goods, forcing our domestic manufacturers into bankruptcy and throwing more than a million of men out of employment, closing our mills and our mines and crippling our railroads and bringing about a universal stagnation of business. Not satisfied with the ruin that is already manifest, they propose the enactment of additional laws to terrorize and throttle the business interests of the country. They have sought to relieve the financial stringency brought on by their unwise tariff legislation by the creation of a banking system that has not relieved the stringency, but has complicated and added additional burdens to the business world, so as to destroy confidence, paralyze business and render impossible the financing of any enterprise no matter how meritorious.

We condemn the present national administration for its repeated violations of plighted faith with the people. It promised a revision of the tariff that would not disturb business; but has given us a sectional tariff measure which has disturbed and depressed business to an extent unknown since the last Democratic tariff revision. It promised a tariff which would lower the cost of living and at the same time maintain wages and the price of farm products; but it has enacted a law which has not reduced the cost of living and has reduced wages and the price of farm products.

It promised a strict adherance to civil service reform principles, but has stripped by farcical examinations the diplomatic service, postal service, and other branches of the government of its trained experts to make place for untrained Democratic partisans.

It promised economy and retrenchment, but has increased the appropriations more than $100,000,000 annually. It promised the overthrow of caucus rule, but has given such an exhibition of the tyranny of the secret caucus as has never before been witnessed.

It pledged the freedom of debate and deliberation in Congress and the curtailing of the power of the Speaker; it has resorted to "gag" rule, transferring to the Democratic floor leader all the power formerly vested in the Speaker.

It declared for free tolls for American coastwise vessels through the Panama canal, but, at the behest of Great Britain, it has repealed the law providing for this exemption. It has declared repeatedly against centralization of government and aggressions by the Executive, but has made of Congress a servile instrument of the Executive will. It declared against dollar diplomacy, but has effected treaties with Hayti and Nicaragua, providing for it in flagrant form.

It promised American producers freer access to the markets of the world, and gives us treasury figures which prove the rapid shrinkage of exports. It promised greater prosperity to the farmer, but gave him the competition of cheap labor and cheap lands of foreign countries.

Protective Tariff.—The Republican party is now, and always has been, the consistent and steadfast advocate of protection to American labor and the promotion of American industry. We hold that the first duty of good government is to protect the rights and promote the interests of its own people.

We believe that all articles which cannot be produced in our own country, except luxuries, should be admitted free of duty, and that on all imports coming into competition with American labor there should be levied a duty equal to the difference between the cost of production at home and abroad.

We believe that the products of the farm and that of the mine should receive the same measure of protection as the products of the factory.

We hold that this is the true American policy; that it taxes foreign products and encourages home industry; that it puts the burden of revenue on the foreign producer, while, at the same time, it makes secure the American market for the American producer; that it upholds the standard of wages for the American workingman.

As a result of fifty years of protection the American market is the richest and best on earth, and we believe in religiously preserving that market for the American producer. For that reason we must vigorously protest against the Underwood bill, passed by the present Democratic Congress.

Realizing that a tariff too low brings destructive competition and that a tariff too high affords a shelter for monopoly, we are in favor of a nonpartisan tariff commission, and demand of our Senators and Representatives in Congress that proper legislation be speedily enacted to establish such commission, to the end that all duties be adjusted to the exact difference between the cost of production at home and abroad.

Panama Canal.—The Panama canal is a United States enterprise. We bought, paid for and own the canal. It is as much our property as the Mississippi river. It is, however, a great public highway for the use of all foreign nations upon terms of exact equality. Under the treaties with other countries, under the Monroe Doctrine, and in justice to ourselves, no other nation can be permitted to share in its management or control.

We should fortify and maintain the canal for all time and work out the details of its future operation without dictation or advice from any foreign power.

REPUBLICAN STATE CONVENTION, 1914.

The Republican state convention assembled in St. Louis August 25, 1914, in the Old Museum of Fine Arts in St. Louis, Mo., and proceeded to organize with Harryman Horwood of Hannibal as temporary chairman and Conway Isidor of St. Louis as temporary secretary. The permanent officers were Thomas J. Akins, chairman, and Conway Isidor, secretary. The platform was adopted August 26, 1914.

THE PLATFORM.

The Republican party of Missouri, through its legally chosen representatives in convention assembled, hail with satisfaction the multiplying evidences of the return of the Republican party to power in state and nation.

Incensed evidences of the awful theory of government taught and administered by the Democratic party is found in the present industrial depression which pervades the country today under the free trade policies of the party in power.

The voters of Missouri and the nation unanimously await the opportunity to correct the mistake made in 1912. The present conditions are but a repetition of what the nation experienced from 1893 to 1897 under the administration of Grover Cleveland.

The Democratic party has enacted a tariff law that has resulted in turning against us the balance of trade, taking from the American farmer the protection he has enjoyed in the past, and leaving our people to the mercy of the competition of the cheap labor of the Orient and cheap labor and lands of the South American republics; taking a duty from the manufactured products of other countries that has resulted in flooding the American markets with foreign made goods, forcing our domestic consumers into bankruptcy and throwing more than a million of men out of employment, closing our mills and our mines and crippling our railroads and bringing about a universal stagnation of business. Not satisfied with the ruin that is already manifest, they propose the enactment of additional laws to terrorize and throttle the business interests of the country. They have sought to relieve the financial stringency brought on by their unwise tariff legislation by the creation of a banking system that has not relieved the stringency, but has complicated and added additional burdens to the business world, so as to destroy confidence, paralyze business and render impossible the planning of any enterprise on matter how meritorious.

We condemn the present national administration for its repeated violations of pledges made with the people. It promised a revision of the tariff that would not disturb industries, but has given us a sectional tariff measure which has disturbed and depressed business to an extent unknown since the last Democratic tariff revision. It promised a tariff which would lower the cost of living and at the same time maintain wages and the price of farm products, but it has enacted a law which has not reduced the cost of living and has reduced wages and the price of farm products.

It promised a strict adherence to civil service reform principles, but has stripped by farcical examinations the diplomatic service, postal service, and other branches of the government of its trained experts to make place for untrained Democratic partisans.

It promised economy and retrenchment, but has increased the appropriations more than $100,000,000 annually. It promised the overthrow of coercive rule, but has given such an exhibition of the tyranny of the secret caucus as has never before been witnessed.

It blighted the freedom of debate and deliberation in Congress and the curtailing of the power of the Speaker; it has reverted to "pap" rule, transferring to the Democratic floor leader all the power formerly vested in the Speaker.

It declared for free tolls for American coastwise vessels through the Panama canal, but, at the behest of Great Britain, it has repealed the law providing for this exemption. It has declared repeatedly against centralization of government and aggressions by the Executive, but has usurped the functions of Congress and serves instruments of the Executive will. It declared dollar diplomacy, but has effected treaties with Haiti and Nicaragua, providing for it in diverse form.

It promised American producers free access to the markets of the world, and gives us treaties which prate the equal advantages of exports. It promised cheaper money to the farmer, but gave him the competition of cheap labor and cheap lands of foreign countries.

Protective Tariff.—The Republican party is now, and always has been, the consistent and steadfast advocate of protection to American labor and the prosperity of America industry. We hold that the first duty of good government is to protect the rights and promote the interests of its own people.

We believe that all articles which cannot be produced in our own country, except luxuries, should be admitted free of duty, and that on all imports coming into competition with American labor there should be levied a duty equal to the difference between the cost of production at home and abroad.

We believe that the products of the farm and that of the mine should receive the same measure of protection as the products of the factory.

We hold that this is the true American policy; that it taxes foreign products and encourages home industry; that it puts the burden of revenue on the foreign producer, while at the same time it makes secure the American market for the American producer; that it upholds the standard of wages for the American workingman.

As a result of fifty years of protection the American market is the richest and best on earth, and we believe in reluctantly preserving that market for the American producer. For that reason we must vigorously protest against the Underwood bill, passed by the present Democratic Congress.

Realizing that a tariff too low brings destructive competition and that a tariff too high affords a shelter for monopoly, we are in favor of a nonpartisan tariff commission, composed of our statesmen and experts, to be created by Congress that proper legislation be speedily enacted to establish such conditions, to the end that all duties be adjusted to the exact difference between the cost of production at home and abroad.

Panama Canal.—The Panama canal is a United States enterprise. We should build for and own the canal. It is as much our property as the Mississippi river. We favor a free public highway for the use of all foreign nations upon terms of exact equality. Under the treaties with other countries, under the Monroe Doctrine, and in justice to ourselves and other nations can be permitted to share in the management or control.

We should fortify and maintain the canal for all time and work out the details of its future

Merchant Marine.—The Republican party has consistently supported and championed the expansion of our merchant marine, while the Democratic party has tenaciously opposed every measure tending to this, and today we observe the glaring fallacy of their course. No means of transportation are in consequence of their attitude available to ship our nation's products to foreign ports.

Mexico.—We emphatically disapprove the course of the Democratic administration toward Mexico. The policy of the administration should have been vigorous and decided, and a firm stand taken by the Government should have made secure the lives and property of every American citizen living within the Republic of Mexico. If lives and property were destroyed, prompt action should have been taken and indemnities demanded.

The differences of the Republican party with the national administration, however, are differences of policy only and not of patriotism, and we pledge our undivided support at all times to uphold the nation's honor and the nation's rights in Mexico or elsewhere.

International Arbitration.—The Republican party of Missouri deeply deplores that a war—perhaps the most destructive in the history of the human race—is now in progress in Europe, and again affirms its belief that international differences should be settled by arbitration.

Pensions.—We favor now, as we always have, the most generous provisions for the soldiers of the Republic, their widows and orphans. We condemn the methods of proof now employed by the Democratic Commissioner of Pensions to obstruct and delay the payment of just claims under the existing laws.

We deplore the removal from office of aged veterans of the Civil war by the present administration.

Rural Credits.—We favor such national legislation as will develop a modern system of rural credits, such as will prevent excessive interest rates and commissions.

Against Nepotism.—We recommend the enactment of such laws that will prevent the prevailing abuse in our state capital of employing kinsmen instead of competent assistants.

Child Labor.—The Republican party reaffirms its steadfast opposition to the child labor evil and pledges itself to eradicate the same, if afforded an opportunity to do so.

Social and Industrial Conditions.—We favor the enactment of a law that will grant better conditions and hours for the women wage-earners in the state. We favor the enforcement of all laws seeking to make the workshop more sanitary and healthful, thereby reducing the spread of contagious diseases to the lowest possible minimum, and a more thorough safeguarding of all dangerous machinery that the toiler may be protected to the fullest degree.

We are opposed to placing convict-made goods in competition with the products of free labor.

Mining Laws.—We believe there is room for improvement in the mining laws of the state, to the end that the lives of miners shall be safeguarded and their interests promoted.

Workmen's Compensation Law.—The Republican party, always alive to the best interests of labor and with a knowledge of the vast sums spent by employers and employes in litigation, believes that a just and equitable compensation law to both parties should be enacted, and we now renew our pledge to enact such a law.

Good Roads.—Realizing the value of good roads, both educationally and commercially to our entire state, we favor the building and improvement of our highways and state and national appropriations therefor.

Education.—The Republican party reaffirms its loyalty to the cause of education in all its branches, and hereby pledges itself to continue to liberally support the State University, Agricultural College, normal schools and public schools of our state, as well as our eleemosynary institutions. We indorse the work of Hon. William P. Evans, State Superintendent of Schools, under whose direction the schools of Missouri have prospered as never before. We commend his able and efficient work which has increased the attendance in the public schools over 10 per cent, which has extended aid to districts financially weak, and which has fostered and built up high schools, and we pledge ourselves to a continuance of this policy and to the development of vocational education.

Courts.—We favor a general revision and simplification of the laws and of the civil and criminal codes of procedure in our courts, and, recognizing the fact that our courts should, so far as possible, be kept free from political influence, we pledge the Republican party and all Republican members of both houses of the General Assembly to enact laws to those ends.

Primary Elections.—We favor amending the primary election laws of this state, thus further safeguarding the rights of the voters so that the will of the people may prevail.

Home Rule.—As an evidence of the intensely partisan course of the Democratic party of Missouri, we call attention to its action on the subject of home rule for the larger cities of the state. The last General Assembly having given the larger cities the right of local self-government, the Democrats in the Legislature voting for such legislation on the supposition that unusual conditions would make the city of St. Louis Democratic. But the home-rule act was suspended until the November election by referendum petitions circulated and signed by Democrats, solely because the citizens of St. Louis elected a Republican mayor subsequent to the passage of the act by the General Assembly. On this occasion we again reiterate our advocacy of home rule in its fullest scope for the larger municipalities.

PROGRESSIVE PARTY.

PROGRESSIVE NATIONAL CONVENTION.

(Nominees—For President, Theodore Roosevelt of New York; for Vice-President, Hiram W. Johnson of California.)

The Progressive National Convention met in Chicago August 5, 1912, and was called to order by Senator Dixon of Montana. Albert J. Beveridge of Indiana was selected as temporary chairman. The nomination for President came on the third day, August 8th. William A. Prendergast of New York presented the name of Mr. Roosevelt, and he was nominated by acclamation. Governor Johnson of California received the unanimous nomination for Vice-President, and the convention adjourned.

THE PLATFORM.

(*Adopted at Chicago, Ill., August 7, 1912.*)

Declaration of Principles.—The conscience of the people, in a time of grave national problems, has called into being a new party, born of the nation's awakened sense of injustice.

We of the Progressive party here dedicate ourselves to the fulfillment of the duty laid upon us by our fathers to maintain that government of the people, by the people and for the people whose foundations they laid.

We hold, with Thomas Jefferson and Abraham Lincoln, that the people are the masters of their Constitution, to fulfill its purposes and to safeguard it from those who, by perversion of its intent, would convert it into an instrument of injustice. In accordance with the needs of each generation, the people must use their sovereign powers to establish and maintain equal opportunity and industrial justice, to secure which this government was founded and without which no republic can endure.

This country belongs to the people who inhabit it. Its resources, its business, its institutions and its laws should be utilized, maintained or altered in whatever manner will best promote the general interest. It is time to set the public welfare in the first place.

The Old Parties.—Political parties exist to secure responsible government and to execute the will of the people. From these great tasks both the old parties have turned aside. Instead of instruments to promote the general welfare they have become the tools of corrupt interests, which use them impartially to serve their selfish purposes. Behind the ostensible government sits enthroned an invisible government, owing no allegiance and acknowledging no responsibility to the people. To destroy this invisible government, to dissolve the unholy alliance between corrupt business and corrupt politics, is the first task of the statesmanship of the day.

The deliberate betrayal of its trust by the Republican party, the fatal incapacity of the Democratic party to deal with the new issues of the new time, have compelled the people to forge a new instrument of government through which to give effect to their will in laws and institutions.

Unhampered by tradition, uncorrupted by power, undismayed by the magnitude of the task, the new party offers itself as the instrument of the people to sweep away old abuses, to build a new and nobler commonwealth.

Covenant with the People.—This declaration is our covenant with the people, and we hereby bind the party and its candidates in state and nation to the pledges made herein.

Rule of the People.—The Progressive party, committed to the principle of government by a self-controlled democracy expressing its will through representatives of the people, pledges itself to secure such alterations in the fundamental law of the several states and of the United States as shall insure the representative character of the government. In particular the party declares for direct primaries for the nomination of state and national officers, for nation-wide preferential primaries for candidates for the presidency, for the direct election of United States Senators by the people, and we urge on the states the policy of the short ballot, with responsibility to the people secured by the initiative, referendum and recall.

THE PLATFORM.

(Adopted at Chicago, Ill., August 7, 1912.)

Declaration of Principles.—The conscience of the people, in a time of grave national problems, has called into being a new party, born of the nation's awakened sense of humanity. We of the Progressive party here dedicate ourselves to the fulfillment of the duty laid upon us by our fathers to maintain that government of the people, by the people and for the people whose foundations they laid.

We hold with Thomas Jefferson and Abraham Lincoln, that the people are the masters of their Constitution, to fulfill its purposes and to safeguard it from those who, by perversion of its intent, would convert it into an instrument of injustice. In accordance with the needs of each generation, the people must use their sovereign powers to establish and maintain equal opportunity and industrial justice, to secure which this government was founded and without which no republic can endure.

This country belongs to the people who inhabit it. Its resources, its business, its industries and its laws should be utilized, maintained or altered in whatever manner will best promote the general interest. It is time to set the public welfare in the first place.

The Old Parties.—Political parties exist to secure responsible government and to execute the will of the people. From time to time new issues arise and new parties have thereupon arisen instead of instruments to promote the general welfare they have become the tools of corrupt interests, which use them impartially to serve their selfish purposes. Under the compelling force of great national issues, one of these parties has been split and the other has completely broken down, so that government also is rendered an invisible government, owing no allegiance and acknowledging no responsibility to the people. To destroy this invisible government, to dissolve the unholy alliance between corrupt business and corrupt politics, is the first task of the statesmanship of the day.

The deliberate betrayal of its trust by the Republican party, the fatal incapacity of the Democratic party to deal with the new issues of the new time, have compelled the people to forge a new instrument of government through which to give effect to their will in law and to their conscience in administration.

Unhampered by tradition, unencumbered by power, undismayed by the magnitude of the task, the new party offers itself as the instrument of the people to sweep away old abuses, to build a new and nobler commonwealth.

Covenant with the People.—This declaration is our covenant with the people, and we hereby bind the party and its candidates in state and nation to the pledges made herein.

Rule of the People.—The Progressive party, committed to the principle of government by a self-controlled democracy expressing its will through representatives of the people, pledges itself to secure such alterations in the fundamental law of the several states and of the United States as shall insure the representative character of the government. In particular the party declares for direct primaries for the nomination of state and national officers, for nation-wide preferential primaries for candidates for the presidency, for the direct election of United States Senators by the people, and we urge on the states the policy of the short ballot, with responsibility to the people secured by the initiative and recall.

Constitution Should be Easily Amended.—The Progressive party, believing that a free people should have the power from time to time to amend their fundamental law so as to adapt it progressively to the changing needs of the people, pledges itself to provide a more easy and expeditious method of amending the Federal Constitution.

Nation and State.—Up to the limit of the Constitution, and later by amendment of the Constitution, if found necessary, we advocate bringing under effective national jurisdiction those problems which have expanded beyond the reach of the individual states.

It is as grotesque as it is intolerable that the several states should, by unequal laws in matter of common concern, become competing commercial agencies, barter the lives of their children, the health of their women and the safety and well-being of their working people for the benefit of their financial interests.

The extreme insistence on states' rights by the Democratic party in the Baltimore platform demonstrates anew its inability to understand the world into which it has survived or to administer the affairs of a union of states which have in all essential respects become one people.

Social and Industrial Reform.—The supreme duty of the nation is the conservation of human resources through an enlightened measure of social and industrial justice. We pledge ourselves to work unceasingly in state and nation for:

Effective legislation looking to the prevention of industrial accidents, occupational diseases, overwork, involuntary unemployment and other injurious effects incident to modern industry.

The fixing of minimum safety and health standards for the various occupations, and the exercise of the public authority of state and nation, including the federal control over interstate commerce and the taxing power, to maintain such standards.

The prohibition of child labor.

Minimum wage standards for working women, to provide a "living scale" in all industrial occupations.

The prohibition of night work for women, and the establishment of an eight-hour day for women and young persons.

One day's rest in seven for all wageworkers.

The eight-hour day in continuous twenty-four-hour industries.

The abolition of the convict contract labor system; substituting a system of prison production for governmental consumption only, and the application of prisoners' earnings to the support of their dependent families.

Publicity as to wages, hours and conditions of labor; full reports upon industrial accidents and diseases and the opening to public inspection of all tallies, weights, measures and check systems on labor products.

Standards of compensation for death by industrial accident and injury and trade diseases which will transfer the burden of lost earnings from the families of working people to the industry, and thus to the community.

The protection of home life against the hazards of sickness, irregular employment and old age through the adoption of a system of social insurance adapted to American use.

The development of the creative labor power of America by lifting the last load of illiteracy from American youth, and establishing continuation schools for industrial education under public control and encouraging agricultural education and demonstration in rural schools.

The establishment of industrial research laboratories to put the methods and discoveries of science at the service of American producers.

We favor the organization of the workers, men and women, as a means of protecting their interests and of promoting their progress.

Regulation of Interstate Corporations.—We believe that true popular government, justice and prosperity go hand in hand, and, so believing, it is our purpose to secure that large measure of general prosperity which is the fruit of legitimate and honest business, fostered by equal justice and by sound progressive laws.

We demand that the test of true prosperity shall be the benefits conferred thereby on all the citizens, not confined to individuals or classes, and that the test of corporate efficiency shall be the ability better to serve the public; that those who profit by control of business affairs shall justify that profit and that control by sharing with the public the fruits thereof.

We therefore demand a strong national regulation of interstate corporations. The corporation is an essential part of modern business. The concentration of modern business, in some degree, is both inevitable and necessary for national and international business efficiency. But the existing concentration of vast wealth under a corporate system, unguarded and uncontrolled by the nation, has placed in the hands of a few men enormous, secret, irresponsible power over the daily life of the citizen—a power unsufferable in a free government and certain of abuse.

This power has been abused in monopoly of national resources, in stock watering, in unfair competition and unfair privileges, and, finally, in sinister influences on the public agencies of state and nation. We do not fear commercial power, but we insist that it shall be exercised openly, under publicity, supervision and regulation of the most efficient sort, which shall preserve its good while eradicating and preventing its evils.

To that end we urge the establishment of a strong federal administrative commission of high standing, which shall maintain permanent, active supervision over industrial corporations engaged in interstate commerce, or such of them as are of public importance, doing for them what the government now does for the national banks and what is now done for the railroads by the Interstate Commerce Commission.

Such a commission must enforce the complete publicity of those corporate transactions which are of public interest; must attack unfair competition, false capitalization and special privilege, and by continuous trained watchfulness guard and keep open equally to all the high ways of American commerce. Thus the business man will have certain knowledge of the law and will be able to conduct his business easily in conformity therewith, the investor will find security for his capital, dividends will be rendered more certain and the savings of the people will be drawn naturally and safely into the channels of trade.

Under such a system of constructive regulation legitimate business, freed from confusion, uncertainty and fruitless litigation, will develop normally in response to the energy and enterprise of the American business man.

Commercial Development.—The time has come when the Federal Government should co-operate with manufacturers and producers in extending our foreign commerce. To this end we demand adequate appropriations by Congress and the appointment of diplomatic and consular officers solely with a view to their special fitness and worth, and not in consideration of political expediency.

Constitution Should be Easily Amended.—The Progressive party, believing that a free people should have the power from time to time to amend their fundamental law so as to adapt it progressively to the changing needs of the people, declares itself to provide a more easy and expeditious method of amending the Federal Constitution.

Nation and State.—Up to the limit of the Constitution, and later by amendment of the Constitution, if found necessary, we advocate bringing under effective national jurisdiction those problems which have expanded beyond the reach of the individual states.

It is as grotesque as it is intolerable that the several states should, by unequal laws in matter of common concern, become competing agencies, barring the lives of their children, the health of their women and the safety and well-being of their working people for the benefit of their financial interests.

The extreme insistence on states' rights by the Democratic party in the Baltimore platform demonstrates anew its inability to understand the world into which it has survived or to administer the affairs of a nation of states which have in all essential respects become one people.

Social and Industrial Reform.—The supreme duty of the nation is the conservation of human resources through an enlightened measure of social and industrial justice. We pledge ourselves to work unceasingly in state and nation for:

Effective legislation looking to the prevention of industrial accidents, occupational diseases, overwork, involuntary unemployment and other injurious effects incident to modern industry.

The fixing of minimum safety and health standards for the various occupations, and the exercise of the public authority of state and nation, including the Federal control over interstate commerce and the taxing power, to maintain such standards.

The prohibition of child labor.

Minimum wage standards for working women, to provide a "living scale" in all industrial occupations.

The prohibition of night work for women, and the establishment of an eight-hour day for women and young persons.

One day's rest in seven for all wage-workers.

The eight-hour day in continuous twenty-four-hour industries.

The abolition of the convict contract labor system, substituting a system of prison production for governmental consumption only, and the application of prisoners' earnings to the support of their dependent families.

Publicity as to wages, hours and conditions of labor; full reports upon industrial accidents and diseases and the opening to public inspection of all tallies, weights, measures and check systems on labor products.

Standards of compensation for death by industrial accident and injury and trade diseases which will transfer the burden of lost earnings from the families of working people to the industry, and thus to the community.

The protection of home life against the hazards of sickness, irregular employment and old age through the adoption of a system of social insurance adapted to American use.

The development of the creative labor power of America by lifting the load of illiteracy from American youth, and establishing continuation schools for industrial education under public control and encouraging vocational education and demonstration in rural schools.

The establishment of industrial research laboratories to put the methods and discoveries of science at the service of American producers.

We favor the organization of the workers, men and women, as a means of protecting their interests and of promoting their progress.

Regulation of Interstate Corporations.—We believe that true popular government, justice and prosperity go hand in hand, and, so believing, it is our purpose to secure just legislative measures for general prosperity which is the fruit of righteousness and honest business, fostered by equal justice and by sound progressive laws.

We demand that the test of true prosperity shall be the benefits conferred thereby on all the citizens, not confined to individuals or classes, and that the test of corporate efficiency shall be the ability, better to serve the public; that those who profit by control of business affairs shall justly share profits with all who help produce them, and that the public welfare demands that these profits and that control of business affairs shall be based upon the public welfare.

We therefore demand a strong national regulation of interstate corporations. The corporation is an essential part of modern business. The concentration of modern business, in some degree, is both inevitable and necessary for national and international business efficiency. But the existing concentration of vast wealth under a corporate system, unregulated and uncontrolled by the nation, has placed in the hands of a few men enormous, secret, irresponsible power over the daily life of the citizen—a power unparalleled in a free government and certain of abuse.

This power has been abused in monopoly of natural resources, in stock watering, in unfair competition and unfair privileges, and, finally, in sinister influence on the public agencies of state and nation. We do not fear commercial power, but we insist that it shall be exercised openly, under publicity, supervision and regulation of the most efficient sort, which shall preserve its good while eradicating and preventing its evils.

To this end we urge the establishment of a strong federal administrative commission of high standing, which shall maintain permanent active supervision over industrial corporations engaged in interstate commerce, or such of them as are of public importance, doing for them what the government now does for the national banks and what is now done for the railroads by the Interstate Commerce Commission.

Such a commission must endeavor the complete publicity of those corporate transactions which are of public interest; must attack unfair competition, false capitalization and special privilege, and by continuous watchfulness and by day-to-day regulation to all the ends of higher efficiency in business, will have certain beneficial results. The business man will be able to conduct his business with more certain knowledge of the law and will be able to conduct his business in conformity with it; the investor will have more security for his capital; the employee will be protected more certain and the savings of the people will be drawn naturally and safely into the channels of trade.

Under such a system of constructive regulation by administrative boards, fraud, concealment, uncertainty and ruthless litigation, with drag on remedy in response to the money and energy of the American business man.

Commercial Development.—The time has come when the Federal Government should co-operate with manufacturers and producers in extending our foreign commerce. To this end we demand adequate appropriations by Congress and the organization of diplomatic and consular officers solely with a view to their special fitness and worth, and not in consideration of political expediency.

It is imperative to the welfare of our people that we enlarge and extend our foreign commerce. We are pre-eminently fitted to do this because, as a people, we have developed high skill in the art of manufacturing; our business men are strong executives, strong organizers. In every way possible our Federal Government should co-operate in this important matter.

Any one who has had opportunity to study and observe first-hand Germany's course in this respect must realize that their policy of co-operation between government and business has in comparatively few years made them a leading competitor for the commerce of the world. It should be remembered that they are doing this on a national scale and with large units of business, while the Democrats would have us believe that we should do it with small units of business, which would be controlled, not by the National Government, but by forty-nine conflicting sovereignties. Such a policy is utterly out of keeping with the progress of the times and gives our great commercial rivals in Europe—hungry for international markets—golden opportunities of which they are rapidly taking advantage.

The Tariff.—We believe in a protective tariff which shall equalize conditions of competition between the United States and foreign countries, both for the farmer and the manufacturer, and which shall maintain for labor an adequate standard of living. Primarily the benefit of any tariff should be disclosed in the pay envelope of the laborer. We declare that no industry deserves protection which is unfair to labor or which is operating in violation of federal law. We believe that the presumption is always in favor of the consuming public.

We demand tariff revision because the present tariff is unjust to the people of the United States. Fair dealing toward the people requires an immediate downward revision of those schedules wherein duties are shown to be unjust and excessive.

We pledge ourselves to the establishment of a nonpartisan scientific tariff commission, reporting both to the President and to either branch of Congress, which shall report, first, as to the costs of production, efficiency of labor, capitalization, industrial organization and efficiency, and the general competitive position in this country and abroad of industries seeking protection from Congress. Second, as to the revenue-producing power of the tariff and its relation to the resources of government, and thirdly, as to the effect of the tariff on prices, operations of middlemen, and on the purchasing power of the consumer.

We believe that this commission should have plenary power to elicit information, and for this purpose to prescribe a uniform system of accounting for the great protected industries. The work of the commission should not prevent the immediate adoption of acts reducing these schedules generally recognized as excessive.

We condemn the Payne-Aldrich bill as unjust to the people. The Republican organization is in the hands of those who have broken, and cannot again be trusted to keep, the promise of necessary downward revision. The Democratic party is committed to the destruction of the protective system through a tariff for revenue only—a policy which would inevitably produce widespread industrial and commercial disaster.

Reciprocity with Canada.—We demand the immediate repeal of the Canadian reciprocity act

High Cost of Living.—The high cost of living is due partly to world-wide and partly to local causes—partly to natural and partly to artificial causes. The measures proposed in this platform on various subjects, such as the tariff, the trusts and conservation, will of themselves remove the artificial causes. There will remain other elements, such as the tendency to leave the country for the city, waste, extravagance, bad system of taxation, poor methods of raising crops and bad business methods in marketing crops. To remedy these conditions requires the fullest information, and, based on this information, effective government supervision and control to remove all the artificial causes. We pledge ourselves to such full and immediate inquiry and to immediate action to deal with every need such inquiry discloses.

Improvement of the Currency.—We believe there exists imperative need for prompt legislation for the improvement of our national currency system. We believe the present method of issuing notes through private agencies is harmful and unscientific. The issue of currency is fundamentally a government function, and the system should have as basic principles soundness and elasticity. The control should be lodged with the government and should be protected from domination or manipulation by Wall Street or any special interests.

We are opposed to the so-called Aldrich currency bill, because its provisions would place our currency and credit system in private hands, not subject to effective public control.

Conservation of Natural Resources.—The natural resources of the nation must be promptly developed and generously used to supply the people's needs, but we cannot safely allow them to be wasted, exploited, monopolized or controlled against the general good. We heartily favor the policy of conservation, and we pledge our party to protect the national forest without hindering their legitimate use for the benefit of all the people. Agricultural lands in the national forests are and should remain open to the genuine settler. Conservation will not retard legitimate development. The honest settler must receive his patent promptly without hindrance, rules or delays.

We believe that the remaining forests, coal and oil lands, water powers and other natural resources still in state or national control (except agricultural lands) are more likely to be wisely conserved and utilized for the general welfare if held in the public hands.

In order that consumers and producers, managers and workmen, now and hereafter, need not pay toll to private monopolies of power and raw material, we demand that such resources shall be retained by the state or nation and opened to immediate use under laws which will encourage development and make to the people a moderate return for benefits conferred.

In particular we pledge our party to require reasonable compensation to the public for water power rights hereafter granted by the public. We pledge legislation to lease the public grazing lands under equitable provisions now pending, which will increase the production of food for the people and thoroughly safeguard the rights of the actual home makers. Natural resources whose conservation is necessary for the national welfare should be owned and controlled by the nation.

Waterways.—The rivers of the United States are the natural arteries of this continent. We demand that they shall be opened to traffic as indispensable parts of a great nation-wide system of transportation in which the Panama canal will be the central link, thus enabling the whole interior of the United States to share with the Atlantic and Pacific seaboards in the benefit derived from the canal.

It is a national obligation to develop our rivers, and especially the Mississippi and its tributaries, without delay, under a comprehensive general plan covering each river system, from its source to its mouth, designed to secure its highest usefulness for navigation, irrigation, domestic supply, water power and the prevention of floods. We pledge our party to the immediate preparation of such a plan, which should be made and carried out in close and friendly co-operation between the nation, the state and the cities affected.

Under such a plan the destructive floods of the Mississippi and other streams, which represent a vast and needless loss to the nation, would be controlled by forest conservation and water storage at the headwaters, and by levees below, land sufficient to support millions of people would be reclaimed from the deserts and swamps, water power enough to transform the industrial standing of whole states would be developed, adequate water terminals would be provided, transportation would revive, and the railroads would be compelled to co-operate as freely with the boat lines as with each other.

The equipment, organization and experience acquired in constructing the Panama canal soon will be available for the lakes-to-the-gulf deep waterway and other portions of this great work, and should be utilized by the nation in co-operation with the various states, at the lowest net cost to the people.

Panama Canal.—The Panama canal, built and paid for by the American people, must be used primarily for their benefit. We demand that the canal shall be so operated as to break the transportation monopoly now held and misused by the transcontinental railroads by maintaining sea competition with them; that ships directly or indirectly owned or controlled by American railroad corporations shall not be permitted to use the canal, and that American ships engaged in coastwise trade shall pay no tolls.

The Progressive party will favor legislation having for its aim the development of friendship and commerce between the United States and Latin-American nations.

Alaska.—The coal and other natural resources of Alaska should be opened to development at once. They are owned by the people of the United States and are safe from monopoly, waste or destruction only while so owned. We demand that they shall neither be sold nor given away except under the homestead law, but while held in government ownership shall be opened to use promptly upon liberal terms requiring immediate development.

Thus the benefit of cheap fuel will accrue to the Government of the United States and to the people of Alaska and the Pacific coast; the settlement of extensive agricultural lands will be hastened; the extermination of the salmon will be prevented, and the just and wise development of Alaskan resources will take the place of private extortion or monopoly.

We demand also that extortion or monopoly in transportation shall be prevented by the prompt acquisition, construction or improvement by the government of such railroads, harbor and other facilities for transportation as the welfare of the people may demand.

We promise the people of the Territory of Alaska the same measure of local self-government that was given to other American territories, and that federal officials appointed there shall be qualified by previous bona fide residence in the territory.

Woman Suffrage.—The Progressive party, believing that no people can justly claim to be a true democracy which denies political rights on account of sex, pledges itself to the task of securing equal suffrage to men and women alike.

Corrupt Election Practices.—We pledge our party to legislation that will compel strict limitation of all campaign contributions and expenditures and detailed publicity of both before as well as after primaries and elections.

Publicity and Public Service.—We pledge our party to legislation compelling the registration of lobbyists; publicity of committee hearings, except on foreign affairs, and recording of all votes in committee; and forbidding federal appointees from holding office in state or national political organizations or taking part as officers or delegates in political conventions for the nomination of elective state or national officials.

Popular Review of Judicial Decisions.—The Progressive party demands such restriction of the power of the courts as shall leave to the people the ultimate authority to determine fundamental questions of social welfare and public policy. To secure this end it pledges itself to provide:

First—That when an act passed under the police power of the state is held unconstitutional under the State Constitution by the courts, the people, after an ample interval for deliberation, shall have an opportunity to vote on the question whether they desire the act to become law, notwithstanding such decision.

Second—That every decision of the highest appellate court of a state declaring an act of the Legislature unconstitutional on the ground of its violation of the Federal Constitution shall be subject to the same review by the Supreme Court of the United States as is now accorded to decisions sustaining such legislation.

Administration of Justice.—The Progressive party, in order to secure to the people a better administration of justice, and by that means to bring about a more general respect for the law and the courts, pledges itself to work unceasingly for the reform of legal procedure and judicial methods.

We believe that the issuance of injunctions in cases arising out of labor disputes should be prohibited when such injunctions would not apply when no labor disputes existed.

We also believe that a person cited for contempt in labor disputes, except when such contempt was committed in the actual presence of the court or so near thereto as to interfere with the proper administration of justice, should have a right to trial by jury.

A Department of Labor.—We pledge our party to establish a department of labor, with a seat in the Cabinet, and with wide jurisdiction over matters affecting the conditions of labor and living.

Country Life.—The development and prosperity of country life are as important to the people who live in the cities as they are to the farmers. Increase of prosperity on the farm will favorably affect the cost of living and promote the interests of all who dwell in the country and all who depend upon its products for clothing, shelter and food.

We pledge our party to foster the development of agricultural credit and co-operation, the teaching of agriculture in schools, agricultural college extension, the use of mechanical power on the farm and to re-establish the country life commission, thus directly promoting the welfare of the farmers and bringing the benefits of better farming, better business and better living within their reach.

National Health Service.—We favor the union of all the existing agencies of the Federal Government dealing with the public health into a single national health service, without discrimination against or for any one set of therapeutic methods, school of medicine or school of healing, with such additional powers as may be necessary to enable it to perform efficiently such duties in the protection of the public from preventable disease as may be properly undertaken by the federal authorities, including the executing of existing laws regarding pure food; quarantine and cognate subjects; the promotion of appropriate action for the improvement of vital statistics and the extension of the registration area of such statistics, and co-operation with the health activities of the various states and cities of the nation.

Patents.—We pledge ourselves to the enactment of a patent law which will make it impossible for patents to be suppressed or used against the public welfare in the interest of injurious monopolies.

Interstate Commerce Commission.—We pledge our party to secure to the Interstate Commerce Commission the power to value the physical property of railroads. In order that the power of the commission to protect the people may not be impaired or destroyed, we demand the abolition of the commerce court.

Good Roads.—We recognize the vital importance of good roads, and we pledge our party to foster their extension in every proper way, and we favor the early construction of national highways. We also favor the extension of the rural free delivery service.

Inheritance and Income Tax.—We believe in a graduated inheritance tax as a national means of equalizing the obligations of holders of property to government, and we hereby pledge our party to enact such a federal law as will tax large inheritances, returning to the states an equitable percentage of all amounts collected. We favor the ratification of the pending amendment to the Constitution giving the government power to levy an income tax.

Peace and National Defense.—The Progressive party deplores the survival in our civilization of the barbaric system of warfare among nations, with its enormous waste of resources even in time of peace, and the consequent impoverishment of the life of the toiling masses. We pledge the party to use its best endeavors to substitute judicial and other peaceful means of settling international differences.

We favor an international agreement for the limitation of naval forces. Pending such an agreement, and as the best means of preserving peace, we pledge ourselves to maintain for the present the policy of building two battleships a year.

Protection of American Citizens Abroad.—We pledge our party to protect the rights of American citizenship at home and abroad. No treaty should receive the sanction of our government which discriminates between American citizens because of birthplace, race or religion, or that does not recognize the absolute right of expatriation.

Immigration.—Through the establishment of industrial standards we propose to secure to the able-bodied immigrant and to his native fellow workers a larger share of American opportunity.

We denounce the fatal policy of indifference and neglect which has left our enormous immigrant population to become the prey of chance and cupidity. We favor governmental action to encourage the distribution of immigrants away from the congested cities, to rigidly supervise all private agencies dealing with them and to promote their assimilation, education and advancement.

Pensions.—We pledge ourselves to a wise and just policy of pensioning American soldiers and sailors and their widows and children by the Federal Government.

And we approve the policy of the Southern States in granting pensions to the ex-Confederate soldiers and sailors and their widows and children.

Parcel Post.—We pledge our party to the immediate creation of a parcel post, with rates proportionate to distance and service.

The Civil Service Law.—We condemn the violations of the civil service law under the present administration, including the coercion and assessment of subordinate employes, and the President's refusal to punish such violation after a finding of guilty by his own commission; his distribution of patronage among subservient Congressmen while withholding it from those who refuse support of administration measures; his withdrawal of nominations from the Senate until political support for himself was secured, and his open use of the offices to reward those who voted for his renomination.

To eradicate these abuses we demand not only the enforcement of the civil service act in letter and spirit, but also legislation which will bring under the competitive system postmasters, collectors, marshals and all other nonpolitical officers, as well as the enactment of an equitable retirement law, and we also insist on continuous service during good behavior and efficiency.

Government Business Organization.—We pledge our party to readjustment of the business methods of the National Government and a proper co-ordination of the federal bureaus which will increase the economy and efficiency of the government service, prevent duplications and secure better results to the taxpayers for every dollar expended.

Supervision Over Investments.—The people of the United States are swindled out of many millions of dollars every year through worthless investments. The plain people, the wage-earners and the men and women with small savings, have no way of knowing the merit of concerns sending out highly colored prospectuses offering stock for sale, prospectuses that make big returns seem certain and fortunes easily within grasp.

We hold it to be the duty of the government to protect its people from this kind of piracy. We therefore demand wise, carefully thought-out legislation that will give us such governmental supervision over this matter as will furnish to the people of the United States this much-needed protection, and we pledge ourselves thereto.

Conclusion.—On these principles and on the recognized desirability of uniting the progressive forces of the nation into an organization which shall unequivocally represent the progressive spirit and policy, we appeal for the support of all American citizens without regard to previous political affiliations.

PROGRESSIVE SUBNATIONAL CONVENTION OF 1912.

The Progressive state convention met at St. Louis September 3, 1912. Permanent officers were Arthur N. Sager of St. Louis, chairman, and T. J. Murphy of Kansas City, secretary.

(For platform of Progressive subnational convention of 1912 and Progressive presidential electors see pages 458-461, Manual 1913-14.)

PROGRESSIVE PLATFORM.

(Adopted August 25, 1914, at Kansas City, Mo.)

The Progressive party of Missouri, by its regularly constituted representatives in convention assembled, reaffirms its adherence to the principles embodied in the national platform of the party of 1912 and reiterates its confidence in the character, patriotism and statesmanship of its great leader, Theodore Roosevelt, the apostle of "The Square Deal."

We believe, with Mr. Taft, that government means law and order, but say that first and above law and order should be written justice—equal and exact—between all men and classes of men.

It is to the end that justice be guaranteed to all that we again declare uncompromising warfare against the forces of privilege, corruption and inequality wherever they may be found.

Social Program.—The only vehicle for progressive principles is the Progressive party. Social and industrial justice is only possible of achievement through the medium of this party. It has pledged itself to the enactment of nation-wide legislation for the protection of children, of the care of the aged, the relief of overworked girls and the safeguarding of burdened men, and no other party has done so. This, the only possible method of relief, is denied by the Democratic party because of its adherence to the doctrine of stateism and its insistence that legislation embodying the humanities is not possible at the hands of the Federal Government. This is a denial of the remedy.

The Republican party, as it is now constituted and in the hands of the bosses and the reactionaries to which it seems to have committed itself, is not in sympathy with the downtrodden or the measures of relief proposed in their behalf, and it so confesses.

Tariff.—We deplore the inadequacy and inequalities of Democratic tariff legislation. We believe the tariff is purely an economic question, which can only be successfully handled by a nonpartisan commission of experts, as proposed in the National Progressive platform. We protest especially against the treatment of the farmers and the zinc and lead industries of the state under the present tariff.

Achievements.—We point with pride to the record in Congress of our small but valiant band of Progressives under the able and distinguished leadership of Victor Murdock. In fulfillment of the party's pledges they have introduced and urged the following measures for social and industrial relief: Prohibition of child labor; prohibition of interstate transportation of convict labor products; workmen's compensation for federal employes and a woman's eight-hour law for the District of Columbia. They have sought to create commissions on social insurance, naturalization and national rivers to the end that intelligent legislation in respect of these subjects may follow. They have introduced a bill for the creation of a tariff commission and bills to prevent unfair competition and suppress monopolies, not one which has become a law because of the opposition of the two old parties to these reforms.

State Policies.—We pledge ourselves again to strive for the enactment of the measures and principles set forth in the state platform of the party adopted at Jefferson City on September 10, 1912.

County Unit Bill.—We unequivocally endorse the county unit bill, which will be submitted to the people of Missouri for a referendum next November, and pledge our party organization to give all the aid and assistance in its power in favor of this measure.

We denounce the Democratic and Republican machines for their failure to endorse this legislation in response to the moral demand of a majority of the people of this state.

Judiciary.—We strongly advocate a nonpartisan judiciary, to be nominated by a judicial convention, in which all political parties shall be represented, the candidates so selected to be the nominees of all parties. We believe legislation to this end will elevate our judiciary and prevent the nomination of judges by political bosses and by private and corporate interests.

We again specifically endorse the judicial reforms proposed by the platform of 1912.

Primary Elections.—In the state-wide primary held on August 4, 1914, there was an actual participation of the electorate many times in excess of that ever known under the old party convention system. The crudities and imperfection of the present primary election laws were apparent. We pledge ourselves to the correction of these imperfections. We believe that the same privileges, secrecy and safeguard should be thrown around the primary ballot as protection for the ballot at general elections.

Constitutional Convention.—We are in favor of a constitutional convention to frame a new Constitution. The present Constitution was adopted in 1875, since which time the needs of the people and the problems of government have outgrown its provisions.

Amendment is impractical. For 24 years or more legislatures have submitted innumerable amendments to the people. Over $60,000.00 has been expended in advertising and other expenses incurred in the submission of these amendments. Many excellent and needed amendments have been defeated because they were coupled with objectionable amendments often proposed for that very purpose. Important reforms demanded by public necessity have been defeated or suspended because the organic law of the state was at fault. Such measures as commission form of government for our cities, changes and improvements in our judicial system and changes in our methods of assessment and taxation and other reforms await a new Constitution. New Missouri needs a new foundation.

State Board of Education.—We favor an effective and professional State Board of Education, and propose that such a board be charged, among other things, with the duty of selecting the State Superintendent of Public Schools.

Home Rule.—We favor the principle of home rule, as stated in our 1912 platform, but we denounce and oppose home rule bills which have for their purpose the violation of the state's excise laws and desecration of the Sabbath Day. We charge that the home rule measures promised by the Democratic and Republican parties in their platforms are inspired by the liquor interests, and that their purpose is to put the enforcement of the law regulating the liquor traffic and the observance of the Sabbath Day in the hands of officials who are not responsible to the people of the state and who will wink and connive at violations of said laws. It is a bid by these parties for the liquor and lawless vote of the state.

Honest Elections.—We denounce the Democratic administration of this state for its failure to insure honest elections in Kansas City and Jackson county. The election machinery is in the hands of the Governor and he should afford the same degree of protection to the voter and his vote in Kansas City that is extended to the citizens of St. Louis across the state. If the laws are inadequate they should be amended; if the fault lies with the officials charged with

the enforcement of the laws, the Governor should remove them. In any event, this scandal should cease.

Convicts.—Now that the convicts incarcerated in our State Penitentiary are about to be relieved from the inhumanities and oppressions of the contract labor system, we favor the establishment of state convict farms, and the employment of these unfortunate men in the building, improvement and maintenance of the highways of the state. We also favor the establishment of an institution for the reception and care of first offenders, in order that those who are not steeped in crime may not be subjected to the influence of the hardened and habitual criminal.

Workingman's Compensation Act.—The Missouri Senate Workmen's Compensation Committee will, on the 27th of August, put in final form their recommendations to the next Legislature. It is understood that they will approve two bills: One, "An elective workmen's compensation act," applying to all employments, except farm laborers and domestic servants, providing medical aid and compensation for a period of 400 weeks with a total liability of not less than $6.00 nor more than $15.00 per week against the liability for which the employer is required to insure; and second, a bill creating the Missouri Industrial Commission of five members, organized in the same manner and with similar powers of the Public Utilities Commission, abolishing the offices of Factory Inspector, Labor Commissioner, Mine Inspector, Hotel Inspector, and Board of Mediation and Arbitration, and imposing upon the Commission the power to perform the duties of all these officers, administer the workmen's compensation act, giving it complete supervision over every place of employment in the state, with power to make safety rules and regulations similar to the acts of Wisconsin and California and embodying all the ideas of the "Safety First" movement. We favor the enactment of such laws.

Equal Suffrage.—Again recognizing the superiority of woman's moral intuitions and her force and value in all movements for the betterment of home and state, we demand that the right of suffrage be extended to her in Missouri, and we specifically approve and pledge our party to work for the adoption of the constitutional amendment which makes that provision. We denounce the Democratic and Republican parties for their failure to favor the right of the noble women of our state to participate in the battle against evil and corruption, and charge that their failure to do so is due to their subserviency to the liquor and lawless interests of the state.

Conclusion.—We invite all good citizens to join us in this program to promote social and industrial justice and improve the standards of life for all our people. To those whom the Republican party would lure back to its ranks we point the fact that it is now fully and completely committed to the control of the bosses. Barnes, Penrose, Guggenheim and Smoot are at its helm. Recently in Kansas, Bristow, a Progressive Republican, went down to humiliating defeat before Curtis, a standpatter of the old guard. In this state the enemies of Roosevelt are running the old machine—naming its chairman and dictating its platform. There is no chance for progressive principles except through the Progressive party. It will never surrender." It will never compromise with the enemy. Confident of the strength of its cause, it will go on to victory. To those who believe in the broad principles of humanity and social justice we are striving to establish we again say, come and help.

PROHIBITION PARTY.

PROHIBITION NATIONAL CONVENTION.

The Prohibition party of the United States of America, in convention at Atlantic City, N. J., July 11, 1912, recognizing God as the source of all governmental authority, makes the following declaration of principles:

THE PLATFORM.

(Adopted at Atlantic City, N. J., July 11, 1912.)

The alcoholic drink traffic is wrong, the most serious drain upon the nation's wealth and resources, detrimental to the general welfare, destructive of the inalienable rights of life, liberty and the pursuit of happiness; and, therefore, all laws taxing or licensing a traffic that produces crime, poverty and political corruption and spreads disease and death should be repealed. To destroy such a traffic there must be elected to power a political party which will administer the government from the standpoint that the alcoholic drink traffic is a crime and not a business, and we pledge that the manufacture, importation, exportation, transportation and sale of alcoholic beverages shall be prohibited.

We favor:

The election of United States Senators by direct vote of the people.

Presidential terms of six years and one term only.

Uniform marriage and divorce laws.

The extermination of polygamy and the complete suppression of the traffic in girls.

Suffrage for women upon the same terms as to men.

Court review as to postoffice and other departmental decisions and orders; the establishment of postal savings banks; the extension of the rural delivery, and the establishment of an efficient parcel post, and add the following planks:

The protection of one day in seven as a day of rest.

The absolute protection of the rights of labor without impairment of the rights of capital.

The settlement of all international disputes by arbitration.

The initiative, referendum and recall.

The tariff is a commercial question and should be fixed on the basis of accurate knowledge secured by a permanent omnipartisan tariff commission with ample powers.

The abolition of child labor in the mines, workshops and factories, with the rigid enforcement of laws now flagrantly violated.

Equitable graduated income and inheritance taxes.

Conservation of our mineral and forest reserves, reclamation of arid and waste lands, and we urge that all mineral and timber lands and water powers now owned by the government to be held perpetually and leased for revenue purposes.

Clearly defined laws for the regulation and control of corporations transacting an interstate business.

Greater efficiency and economy in government service.

SOCIALIST PARTY.

THE SOCIALIST NATIONAL CONVENTION.

The Socialist national convention was held at Indianapolis, Ind., May 16, 1912, and nominated Eugene V. Debs of Indiana for President and Emil Seidel of Wisconsin for Vice-President.

THE PLATFORM.

(Adopted at Indianapolis, Ind., May 16, 1912.)

The representatives of the Socialist party, in national convention at Indianapolis, declare that the capitalist system has outgrown its historical function, and has become utterly incapable of meeting the problems now confronting society. We denounce this outgrown system as incompetent and corrupt and the source of unspeakable misery and suffering to the whole working class.

Under this system the industrial equipment of the nation has passed into the absolute control of a plutocracy which exacts an annual tribute of millions of dollars from the producers. Unafraid of any organized resistance, it stretches out its greedy hands over the still undeveloped resources of the nation—the land, the mines, the forests and the water powers of every state in the Union.

To the fundamental principles the National Prohibition party renews its long allegiance and on these issues invites the co-operation of all citizens to the end that the true object of popular government may be attained, i. e., equal and exact justice to all.

SOCIALIST PARTY.

THE SOCIALIST NATIONAL CONVENTION.

The Socialist national convention was held at Indianapolis, Ind., May 16, 1912, and nominated Eugene V. Debs of Indiana for President and Emil Seidel of Wisconsin for Vice-President.

THE PLATFORM.

(Adopted at Indianapolis, Ind., May 16, 1912.)

The representatives of the Socialist party, in national convention at Indianapolis, declare that the capitalist system has outgrown its historical function, and has become utterly incapable of meeting the problems now confronting society. We denounce this outgrown system as incompetent and corrupt and the source of unspeakable misery and suffering to the whole working class.

Under this system the industrial equipment of the nation has passed into the absolute control of a plutocracy which exacts an annual tribute of millions of dollars from the producers. Unafraid of any organized resistance, it stretches out its greedy hands over the still undeveloped resources of the nation, and the entire energy of the political state is prostituted to the service of this class.

In spite of the multiplication of labor-saving machines and improved methods in industry which cheapen the cost of production, the share of the producers grows ever less and the prices of all the necessities of life steadily increase. The boasted prosperity of this nation is for the owning class alone. To the rest it means only greater hardship and misery. The high cost of living is felt in every home. Millions of wageworkers have seen the purchasing power of their wages decrease until life has become a desperate battle for mere existence.

Multitudes of unemployed walk the streets of our cities or trudge from state to state awaiting the will of the masters to move the wheels of industry.

The farmers in every state are plundered by the increasing prices exacted for tools and machinery and by extortionate freight rates and storage charges.

Capitalism Denounced.—Capitalist concentration is mercilessly crushing the class of small business men and driving its members into the ranks of propertyless wageworkers. The overwhelming majority of the people of America are being forced under a yoke of bondage by this soulless industrial despotism.

It is this capitalist system that is responsible for the increasing burden of armaments, the poverty, slums, child labor, most of the insanity, crime and prostitution, and much of the disease that afflicts mankind.

Under this system the working class is exposed to poisonous conditions, to frightful and needless perils to life and limb, is walled around with court decisions, injunctions and unjust laws, and is preyed upon incessantly for the benefit of the controlling oligarchy of wealth. Under it, also, the children of the working class are doomed to ignorance, drudging toil and darkened lives.

In the face of these evils, so manifest that all thoughtful observers are appalled at them, the legislative representatives of the Republican and Democratic parties remain the faithful servants of the oppressors. Measures designed to secure to the wage-earners of this nation as humane and just treatment as is already enjoyed by the wage-earners of all other civilized nations have been smothered in committee without debate, and laws ostensibly designed to bring relief to the farmers and general consumers are juggled and transformed into instruments for the exaction of further tribute. The growing unrest under oppression has driven these two old parties to the enactment of a variety of regulative measures, none of which has limited in any appreciable degree the power of the plutocracy, and some of which have been perverted into means for increasing that power. Antitrust laws, railroad restrictions and regulations, with the prosecutions, indictments and investigations based upon such legislation, have proved to be utterly futile and ridiculous.

Nor has this plutocracy been seriously restrained or even threatened by any Republican or Democratic executive. It has continued to grow in power and insolence alike under the administrations of Cleveland, McKinley, Roosevelt and Taft.

In addition to this legislative juggling and this executive connivance, the courts of America have sanctioned and strengthened the hold of this plutocracy as the Dred Scott and other decisions strengthened the slave power before the Civil war.

We declare, therefore, that the longer sufferance of these conditions is impossible and we purpose to end them all. We declare them to be the product of the present system in which industry is carried on for private greed instead of for the welfare of society. We declare, furthermore, that for these evils there will be and can be no remedy and no substantial relie except through socialism, under which industry will be carried on for the common good and every worker receive the full social value of the wealth he creates.

Society is divided into warring groups and classes, based upon material interests. Fundamentally, this struggle is a conflict between the two main classes, one of which, the capitalist class, owns the means of production, and the other, the working class, must use these means of production on terms dictated by the owners.

The capitalist class, though few in numbers, absolutely controls the government—legislative, executive and judicial. This class owns the machinery of gathering and disseminating news through its organized press. It subsidizes seats of learning—the colleges and schools—and even religious and moral agencies. It has also the added prestige which established customs give to any order of society, right or wrong.

The working class, which includes all those who are forced to work for a living, whether by hand or brain, in shop, mine or on the soil, vastly outnumbers the capitalist class. Lacking effective organization and class solidarity, this class is unable to enforce its will. Given such class solidarity and effective organization, the workers will have the power to make all laws and control all industry in their own interest.

All political parties are the expression of economic class interests. All other parties than the Socialist party represent one or another group of the ruling capitalist class. Their political conflicts reflect merely superficial rivalries between competing capitalist groups. However they result, these conflicts have no issue of real value to the workers. Whether the Democrats or Republicans win politically, it is the capitalist class that is victorious economically.

Socialism the Expression of the Workers.—The Socialist party is the political expression of the economic interests of the workers. Its defeats have been their defeats and its victories their victories. It is a party founded on the science and laws of social development. It proposes that, since all social necessities today are socially produced, the means of their production and distribution shall be socially owned and democratically controlled.

In the face of the economic and political aggressions of the capitalist class the only reliance left the workers is that of their economic organizations and their political power. By the intelligent and class-conscious use of these, they may resist successfully the capitalist class, break the fetters of wage slavery and fit themselves for the future society, which is to displace the capitalist system. The Socialist party appreciates the full significance of class organization and urges the wage-earners, the working farmers and all other useful workers everywhere to organize for economic and political action, and we pledge ourselves to support the toilers of the fields as well as those in the shops, factories and mines of the nation in their struggles for economic justice.

In the defeat or victory of the working class party in this new struggle for freedom lies the defeat or triumph of the common people of all economic groups, as well as the failure or the triumph of popular government. Thus the Socialist party is the party of the present-day revolution, which marks the transition from economic individualism to socialism, from wage slavery to free co-operation, from capitalist oligarchy to industrial democracy.

Working Program.—As measures calculated to strengthen the working class in its fight for the realization of its ultimate aim, the co-operative commonwealth, and to increase its power of resistance against capitalist oppression, we advocate and pledge ourselves and our elected officers to the following program:

Collective Ownership.—First—The collective ownership and democratic management of railroads, wire and wireless telegraphs and telephones, express service, steamboat lines and all other social means of transportation and communication and of all large-scale industries.

Second—The immediate acquirement by the municipalities, the states or the Federal Government of all grain elevators, stockyards, storage warehouses and other distributing agencies, in order to reduce the present extortionate cost of living.

Third—The extension of the public domain to include mines, quarries, oil wells, forests and water power.

Fourth—The further conservation and development of natural resources for the use and benefit of all the people:

(a) By scientific forestation and timber protection.

(b) By the reclamation of arid and swamp tracts.

(c) By the storage of flood waters and the utilization of water power.

(d) By the stoppage of the present extravagant waste of the soil and of the products of mines and oil wells.

(e) By the development of highway and waterway systems.

Fifth—The collective ownership of land wherever practicable, and in cases where such ownership is impracticable, the appropriation by taxation of the annual rental value of all land held for speculation or exploitation.

Sixth—The collective ownership and democratic management of the banking and currency system.

Unemployment.—The immediate government relief of the unemployed by the extension of all useful public works. All persons employed on such works to be engaged directly by the government under a workday of not more than eight hours and at not less than the prevailing union wages. The government also to establish employment bureaus; to lend money to states and municipalities, without interest, for the purpose of carrying on public works, and to take such other measures within its power as will lessen the widespread misery of the workers caused by the misrule of the capitalist class.

Industrial Demands.—The conservation of human resources, particularly of the lives and well-being of the workers and their families:

First—By shortening the workday in keeping with the increased productiveness of machinery.

Second—By securing to every worker a rest period of not less than a day and a half in each week.

Third—By securing a more effective inspection of workshops, factories and mines.

Fourth—By forbidding the employment of children under sixteen years of age.

Fifth—By abolishing the brutal exploitation of convicts under the contract system and prohibiting the sale of goods so produced in competition with other labor.

Sixth—By forbidding the interstate transportation of the products of child labor, of convict labor and of all uninspected factories and mines.

Seventh—By abolishing the profit system in government work, and substituting either the direct hire of labor or the awarding of contracts to co-operative groups of workers.

Eighth—By establishing minimum wage scales.

Ninth—By abolishing official charity and substituting a noncontributory system of old-age pensions, a general system of insurance by the state of all its members against unemployment and invalidism and a system of compulsory insurance by employers of their workers, without cost to the latter, against industrial diseases, accidents and death.

Political Demands.—First—The absolute freedom of press, speech and assemblage.

Second—The adoption of a graduated income tax, the increase of the rates of the present corporation tax and the extension of inheritance taxes, graduated in proportion to the value of the estate and to nearness of kin—the proceeds of these taxes to be employed in the socialization of industry.

Third—The gradual reduction of all tariff duties, particularly those on the necessities of life. The government to guarantee the re-employment of wage-earners who may be disemployed by reason of changes in tariff schedules.

Fourth—The abolition of the monopoly ownership of patents and the substitution of collective ownership, with direct rewards to inventors by premiums or royalties.

Fifth—Unrestricted and equal suffrage for men and women.

Sixth—The adoption of the initiative, referendum and recall and of proportional representation, nationally as well as locally.

Seventh—The abolition of the Senate and of the veto power of the President.

Eighth—The election of the President and Vice-President by direct vote of the people.

Ninth—The abolition of the power usurped by the Supreme Court of the United States to pass upon the constitutionality of the legislation enacted by Congress. National laws to be repealed only by act of Congress or by a referendum vote of the whole people.

Tenth—The abolition of the present restrictions upon the amendment of the Constitution, so that that instrument may be made amendable by a majority of the voters in a majority of the states.

Eleventh—The granting of the right of suffrage in the District of Columbia with representation in Congress and a democratic form of municipal government for purely local affairs.

Twelfth—The extension of democratic government to all United States territory.

Thirteenth—The enactment of further measures for general education and particularly for vocational education in useful pursuits. The Bureau of Education to be made a department.

Fourteenth—The enactment of further measures for the conservation of health. The creation of an independent Bureau of Health, with such restrictions as will secure full liberty to all schools of practice.

Fifteenth—The separation of the present Bureau of Labor from the Department of Commerce and Labor and its elevation to the rank of a department.

Sixteenth—Abolition of all Federal District Courts and the United States Circuit Courts of Appeals. State courts to have jurisdiction in all cases arising between citizens of the several states and foreign corporations. The election of all judges for short terms.

Seventeenth—The immediate curbing of the power of the courts to issue injunctions.

Eighteenth—The free administration of justice.

Nineteenth—The calling of a convention for the revision of the Constitution of the United States.

Such measures of relief as we may be able to force from capitalism are but a preparation of the workers to seize the whole powers of government, in order that they may thereby lay hold of the whole system of socialized industry and thus come to their rightful inheritance.

Collective Ownership.—First—The collective ownership and democratic management of railroads, wire and wireless telegraphs and telephones, express service, steamboat lines and all other social means of transportation and communication and of all large-scale industries.

Second—The immediate acquirement by the municipalities, the states or the Federal Government of all grain elevators, stockyards, stores, warehouses and other distributing agencies, in order to reduce the present exploitative cost of living.

Third—The extension of the public domain to include mines, quarries, oil wells, forests and water power.

Fourth—The further conservation and development of natural resources for the use and benefit of all the people:

(a) By scientific forestation and timber protection.

Sixth—By forbidding the interstate transportation of the products of child labor, of convict labor and of all unimpressed factories and mines.

Seventh—By abolishing the penal system of government work, and substituting either the direct hire of labor or the awarding of contracts to co-operative groups of workers.

Eighth—By establishing minimum wage scales.

Ninth—By abolishing official charity and substituting a noncontributory system of old-age pensions, a general system of insurance by the state of all its members against unemployment and invalidism and a system of compulsory insurance by employers of their workers, without cost to the latter, against industrial diseases, accidents and death.

Eleventh—The granting of the right of suffrage in the District of Columbia with representation in Congress and a democratic form of municipal government for purely local affairs.

Twelfth—The extension of democratic governments to all United States territory.

Seventeenth—The immediate curbing of the power of the courts to issue injunctions.

Eighteenth—The free administration of justice.

Nineteenth—The calling of a convention for the revision of the Constitution of the United States.

Such measures of relief as we may be able to force from capitalism are but a postponement of the workers' social revolution. Only when the workers shall have gained control of the powers of government, political as well as industrial, will they be able to free themselves from the system of wage slavery. Only when the workers have established the co-operative commonwealth, in which the means of production and distribution are collectively owned and democratically managed in the interests of all the people, will there be an end to the domination of class over class and of one nation over another.

SOCIALIST PARTY NATIONAL COMMITTEE.

Walter Lanfersiek, executive secretary, 803 West Madison street, Chicago, Ill. This organization, known nationally as the Socialist party, is officially known as the Social Democratic party in Wisconsin and the Public Ownership party in Minnesota, to conform to the election laws in those states. The National Executive Committee is composed of five members, elected by the national committee. The executive secretary is elected in like manner. The term of office is one year. The following are the executive committee: Victor L. Berger, Milwaukee, Wis.; J. Stitt Wilson, Berkeley, Cal.; Lewis J. Duncan, Butte, Mont.; James H. Maurer, Reading, Pa.; Adolph Germer, Springfield, Ill. The national committee is composed of representatives from each organized state or territory, of which there are 49. Representation is as follows: The national committee consists of the state secretaries of all organized states and territories, or such other person as the members of the party in the state elect by referendum vote, with one additional member from each state or territory for every three thousand members in good standing in such state or territory. For the purpose of determining the representation to which each state or territory may be entitled, the national secretary computes the beginning of each calendar year the average dues-paying membership of such state or territory for the preceding year. Three years' consecutive membership in the party is necessary to qualify for membership in the national committee.

SOCIALIST STATE PLATFORM, 1914.

The Socialist party of Missouri reiterates its allegiance to the Socialist party of the United States of America and endorses its national Constitution, platform and program.

Modern capitalism, with its system of wage slavery and exploitation of labor by the owners of the means of production, produces conflicting interests, upon which the present class division in society is based. On the one side are the confiscators and owners of the natural resources and means of production—the capitalist class—while on the other side there is the working class—the vast army of wealth-producers—who are dependent for a living on the selling of their labor power to the capitalist class.

By selling their labor power to the capitalist owners of the means of production the wageworkers are practically selling themselves for so many hours, weeks, months, or years of their natural life, and have their physical and mental energy and vitality exploited by the employing class.

The ruling class, in order to strengthen and perpetuate their material class interests and privileges, will at all times endeavor to control the political machinery—local, state and national—and dictate the work of the legislative, executive and judiciary departments of government.

These efforts of the capitalist class to remain in political supremacy and thereby give legal sanction and perpetuity to their class privileges, necessarily lead to political organization on the part of the working class. Thus the Socialist party has sprung into existence as the natural result of the struggle between the capitalist class and the working class and considers it as its mission to organize the working class.

The Socialist party stands for the interests of the working class and considers it as its mission to organize the working class into a powerful political party on the platform of Socialism. The wageworkers are fast realizing the fact that the land, the natural resources and the means of production and distribution are being monopolized by the few exploiters of labor, while the great army of wealth-producers are hopelessly slaving and suffering from the cradle to the grave.

Trusts and combinations have monopolized the means of life of the people and are dictating the prices for everything the people eat, drink, wear or use. And this work of confiscation and legalized robbery has been carried on with the support, sanction and political protection of the Democratic and Republican parties. Thus the present high cost of living has been brought about, for which both the leading capitalist parties are responsible. The absolute failure of these capitalist parties to solve this problem of the high cost of living, to deal successfully with the misery of unemployment, and their failure to protect the very life interests of the masses of the people, demonstrate the necessity of the collective ownership of the means of production.

As a step in this direction the Socialist party advocated the public ownership of railroads and coal mines, telegraph and telephone, stockyards and slaughterhouses, grain elevators, etc.

The Socialist party insists that the working class and those in sympathy with this great modern Socialist and labor movement take possession of the law-making machinery by electing Socialist representatives to the State Legislature and other offices, where they can curb the dangerous power of the capitalist class, enact legislation for the benefit of the working class and lay the foundation for the social ownership of the means of production and distribution.

We appeal to the working class of Missouri and to all those in sympathy with our great cause to recognize the fact that "the emancipation of the working class must be achieved by the workers themselves," through their own political and economic organizations. Therefore, rally to the banner of the Socialist party and contribute your share of work to the noble cause of Labor's emancipation and for a higher civilization.

For the immediate relief of the people of this state the Socialist party proposes the following measures and pledges its candidates to do all in their power to have them enacted into law:

Industrial Demands.—1. State insurance for all workers against unemployment, sickness, injury and old age, without contribution on the part of the workers.

2. Relief for the unemployed by the establishment of state industries and the extension of public works. Persons so employed to receive the prevailing union wage for an eight-hour day.

3. Establishment of a legal maximum workday of eight hours, and a rest period of one and one-half days in each week.

4. Abolition of the contract system in all public work; the state shall directly perform such work under union conditions.

5. All employment bureaus to be operated by the state or the various municipalities. All private employment, detective and strikebreaker agencies to be prohibited.

6. A law prohibiting the use of the militia or police to break strikes and importing strikebreakers from other states and the lodging of the strikebreakers on premises where a strike is in progress. It shall be unlawful for any court to issue injunctions that prevent working people from improving their condition by organized effort.

7. Compulsory education for children to the age of sixteen years.

8. We demand the abolition of judicial precedent and of the common law in the trial of all legal cases, and the establishment of a court of equity to try all cases where the statutes do not apply. The decisions in said suits in equity to be made by a jury.

These efforts of the capitalist class to remain in political supremacy and thereby give legal sanction and perpetuity to their class privileges, necessarily lead to political organization on the part of the working class. Thus the Socialist party has sprung into existence as the natural result of the struggle between the capitalist class and the working class and considers it as its mission to organize the working class.

The Socialist party stands for the interests of the working class and considers it as its mission to organize the working class into a powerful political party on the platform of Socialism. The wageworkers are fast realizing the fact that the land, the natural resources and the means of production and distribution are being monopolized by the few capitalists while the great army of wealth-producers are hopelessly slaving and suffering from the cradle to the grave.

Trusts and combinations have monopolized the means of life of the people and are dictating the prices for everything the people eat, drink, wear or use. And this acts of collusion and legalized robbery has been carried on with the support, sanction and political protection of the Democratic and Republican parties. Thus the present high cost of living has been brought about, for which both the leading capitalist parties are responsible. The absolute failure of these capitalist parties to solve the problem of the high cost of living, to deal successfully with the misery of unemployment, and their failure to protect the very life interests of the masses of the people, demonstrate the necessity of the collective ownership of the means of production.

As a step in this direction the Socialist party advocated the public ownership of railroads and coal mines, telegraph and telephone, stockyards and slaughterhouses, grain elevators, etc.

The Socialist party insists that the working class and those in sympathy with this great modern Socialist and labor movement take possession of the law-making machinery by electing Socialist representatives to the state Legislature and other offices, where they can curb the dangerous power of the capitalist class, enact legislation for the benefit of the working class and lay the foundation for the social ownership of the means of production and distribution.

We appeal to the working class of Missouri and to all those in sympathy with our great cause to cooperate the fact that "the emancipation of the working class must be accomplished by the workers themselves," through their own political and economic organizations. Therefore, rally to the banner of the Socialist party and contribute your share of work to the noble cause of labor's emancipation and for a higher civilization.

For the immediate relief of the people of this state the Socialist party proposes the following measures and pledges its candidates to do all in their power to have them enacted into laws:

Industrial Demands.—1. State insurance for all workers against unemployment, sickness, injury and old age, without contribution on the part of the workers.

2. Relief for the unemployed by the establishment of state labor bureaus and the extension of public works. Persons so employed to receive the prevailing union wage for an eight-hour day.

3. Establishment of a legal maximum workday of eight hours, and a rest period of one and one-half days in each week.

4. Abolition of the contract system in all public work; the state shall directly perform such work under union conditions.

5. All employment bureaus to be operated by the state or the various municipalities. All private employment, detective and strikebreaking agencies to be prohibited.

6. A law prohibiting the use of the militia or police to break strikes and imported strikebreakers from other states and the lodging of the strikebreakers on premises where a strike is in progress. It shall be unlawful for any court to issue injunctions that prevent workingmen from improving their condition by organized effort.

7. Compulsory education for children to the age of sixteen years.

8. We demand the abolition of federal, state and municipal courts in the trial of all legal cases and the establishment of a system of courts in which all cases shall be tried before a jury.

Political Demands.—1. Municipal home rule, permitting the citizens of each community to direct their own public affairs free of interference by state officials or state laws. Removal of restrictions on municipalities as to: Limit of indebtedness; ownership, control and operation of any public utility, business or enterprise; maintenance and control of police, excise and election commissions.

2. Votes for women. Equal political and civil rights for men and women and equal pay for equal work.

3. Proportional representation for legislative bodies and the recall for all elective officials.

4. Abolition of the State Senate and the veto power of the governor.

5. No law enacted by the people or their representatives shall be declared unconstitutional by any court of this state; prohibition of the practice of taking civil cases from the jury; the state to conduct the defense as well as the prosecution in criminal cases; abolition of capital punishment and money fines in criminal cases; persons unjustly arrested or imprisoned to be compensated for damages suffered; reform in the selection of grand juries so that the working class interests will be properly represented.

General Demands.—1. Immediate acquirement by the state or the municipalities of grain elevators, stockyards, slaughterhouses, storage facilities and other means of distribution in order to reduce the present extortionate cost of living.

2. Extension of the public domain to include mines, quarries, forests, water power and other natural resources.

3. The state to monopolize and conduct as a public institution all life, fire and accident insurance.

4. A graduated income tax; the extension of inheritance taxes to include all inheritances of five thousand dollars or more; abolition of poll taxes throughout the state; land held for speculation or exploitation to be taxed at a higher rate than land used for homes or useful production.

5. Abolition of the use of convict labor in competition with free labor. Payment of wages to convicts when employed, for their own use when released or the support of their families when such exist.

6. Provision for a state printing office, to do all printing for the state, including free textbooks for the public schools.

SOCIALIST LABOR PARTY.

THE SOCIALIST LABOR NATIONAL CONVENTION.

The Socialist Labor Convention met in New York on April 10, 1912.

THE PLATFORM.

(Adopted at New York April 10, 1912.)

The Socialist Labor party of the United States of America, in national convention assembled in New York on April 10, 1912, reaffirming its previous platform pronouncements, and in accord with the international Socialist movement, declares:

Social conditions, as illustrated by the events that crowded into the last four years, have ripened so fast that each and all the principles hitherto proclaimed by the Socialist Labor party, and all and each the methods that the Socialist Labor party has hitherto advocated, stand today most conspicuously demonstrated.

The capitalist social system has wrought its own destruction. Its leading exponents, the present incumbent in the presidential chair, and his "illustrious predecessor," however, seemingly at war with each other on principles, cannot conceal the identity of their political views. The oligarchy proclaimed by the tenets of the one, the monarchy proclaimed by the tenets of the other, jointly proclaim the conviction of the foremost men in the ruling class that the republic of capital is at the end of its tether.

True to the economic laws from which socialism proceeds, dominant wealth has to such an extent concentrated into the hands of a select few, the plutocracy, that the lower layers of the capitalist class feel driven to the ragged edge, while the large majority of the people, the working class, are being submerged.

True to the sociologic laws, by the right of which socialism reads its forecasts, the plutocracy is breaking through its republic-democratic shell and is stretching out its hands towards absolutism in government; the property-holding layers below it are turning at bay; the proletariat is awakening to its consciousness of class and thereby to the perception of its historic mission.

In the midst of this hurly, all the colors of the rainbow are being projected upon the social mists from the prevalent confusion of thought.

From the lower layers of the capitalist class the bolder, yet foolhardy, portion bluntly demands that "the trust be smashed."

Even if the trust could, it should not be smashed; even if it should, it cannot. The law of social progress pushes towards a system of production that shall crown the efforts of man, without arduous toil, with an abundance of the necessaries for material existence, to the end of allowing leisure for mental and spiritual expansion. The trust is a mechanical contrivance wherewith to solve the problem. To smash the contrivance were to re-introduce the days of small-fry competition and set back the hands on the dial of time. The mere thought is foolhardy. He who undertakes the feat might as well brace himself against the cascade of Niagara. The cascade of social evolution would whelm him.

The less bold among the smaller property-holding element proposes to "curb" the trust with a variety of schemes. The very forces of social evolution that propel the development of the trust stamp the "curbing" schemes, whether political or economic, as childish. They are attempts to hold back a runaway horse by the tail. The laws by which the attempt has been tried strew the path of the runaway. They are splintered to pieces with its kicks and serve only to furnish a livelihood for the corporation and the anti-corporation lawyer.

From still lower layers of the same property-holding class, social layers that have sniffed the breath of socialism and imagine themselves socialists, comes the iridescent theory of capturing the trust for the people by the ballot only. The "capture of the trust for the people" implies the social revolution. To imply the social revolution with the ballot only, without the means to enforce the ballot's fiat, in case of reaction's attempt to override it, is to fire blank cartridges at a foe. It is worse. It is to threaten his existence without the means to carry out the threat. Threats of revolution without provisions to carry them out result in one of two things only—either the leaders are brought out, or the revolutionary class, to which the leaders appeal and which they succeed in drawing after themselves, are led like cattle to the shambles. The Commune disaster of France stands a monumental warning against the blunder.

An equally iridescent hue of the rainbow is projected from a still lower layer, a layer that lies almost wholly within the submerged class—the theory of capturing the trust for the working class with the fist only. The capture of the trust for the people implies something else besides revolution. It implies revolution carried on by the masses. For reasons parallel to those that decree the day of small-fry competition gone by, mass-revolutionary conspiracy is, today, an impossibility. The trust-holding plutocracy may successfully put through a conspiracy of physical force. The smallness of its numbers makes a successful conspiracy possible on its part. The hugeness of the numbers requisite for a revolution against the trust-holding plutocracy excludes conspiracy from the arsenal of the revolution. The idea of capturing the trust with physical force only is a wild chimera.

Only two programs—the program of the plutocracy and the program of the Socialist Labor party—grasp the situation.

The political state, another name for the class state, is worn out in this, the leading capitalist nation of the world, most prominently. The industrial or Socialist state is throbbing for birth. The political state, being a class state, is government separate and apart from the productive energies of the people; it is government mainly for holding the ruled class in subjection. The industrial or socialist state, being the denial of the class state, is government that is part and parcel of the productive energies of the people.

As their functions are different, so are the structures of the two states different.

The structure of the political state contemplates territorial "representation" only; the structure of the industrial state contemplates representation of industries, or useful occupations only.

The economic or industrial evolution has reached that point where the political state no longer can maintain itself under the forms of democracy. While the plutocracy has relatively shrunk, the enemies it has raised against itself have become too numerous to be dallied with. What is still worse, obedient to the law of its own existence the political state has

True to the economic laws from which socialism proceeds, dominant wealth has to such an extent concentrated into the hands of a select few, the plutocracy, that the lower layers of the capitalist class fed driven to the ragged edge, while the large majority of the people, the working class, are being submerged.

In the midst of this hurly, all the colors of the rainbow are being projected upon the social mists from the prevalent confusion of thought.

From the lower layers of the capitalist class the bolder, yet foolhardy, portion blindly demands that "the trust be smashed."

Even if the trust could, it should not be smashed; even if it should, it cannot. The law of social progress pushes towards a system of production that shall crown the efforts of man, without end, with an abundance of the necessaries for material existence, to the end of allowing leisure for mental and spiritual expansion. The trust is a mechanical contrivance wherewith to solve the problem. To smash the contrivance were to re-introduce the days of small-city competition and set back the hands on the dial of time. The more thoughtful proletarians, who endorse the trust might as well have himself against the cascade of Niagara. The cascade of social evolution would whelm him.

The idea back among the smaller property-holding element proposes to "bust" the trust with a variety of schemes. The very force of social evolution that propelled the development of the trust stamps the "busting" schemes, whether political or economic, as childish. They are attempts to hold back a runaway horse by the tail. The laws by which the attempt has been tried stare the path of the runaway. They are splintered to pieces with its kicks and serve only to furnish a livelihood for the corporation and the anti-corporation lawyer.

The "capture of the trust for the people" implies the social revolution. To imply the social revolution with the ballot only, without the means to enforce the ballot's fiat, in case of reaction's attempt to override it, is to fire blank cartridges at a foe. It is worse. It is to threaten his existence without the means to carry out the threat. To talk of revolution without revolvers to carry them out result in one of two things only—either the leaders are brought out, or the revolutionary class, to which the leaders appeal and which they succeed in drawing after themselves, are led like cattle to the shambles. The Commune disaster of Paris stands a monumental warning against the blunder.

An equally iridescent hue of the rainbow is projected from a still lower layer, a layer that lies almost wholly within the submerged class—the theory of capturing the trust for the working class with the fist only. The trust-holding plutocracy may successfully put through a conspiracy of physical force. The smallness of its numbers making a successful conspiracy possible on its part. The hopelessness of the numbers requisite for a revolution against the trust-holding plutocracy excludes conspiracy from the category of the revolution. The idea of capturing the trust with physical force only is a wild chimera.

Only two programs—the program of the plutocrats and the program of the Socialist Labor party—grasp the situation.

The political state, another mask for the class state, is worn out in this, the leading capitalist nation of the world, most prominently. The industrial or Socialist state is travailing for birth. The political state, being a class state, is government separate and apart from the productive energies of the people; it is government mainly for holding the ruled class in subjection. The industrial or socialist state, being the denial of the class state, is government that is part and parcel of the productive energies of the people.

As their functions are different, so are the structures of the two states different.

The structure of the political state contemplates territorial "representation" only; the structure of the industrial state contemplates representation of industries, or useful occupations only.

The economic or industrial evolution has reached that point where the political state no longer can maintain itself under the forms of democracy. While the plutocracy has relatively shrunk, the congress it has raised against itself have become too numerous to be ruled

been forced not merely to multiply enemies against itself; it has been forced to recruit and group the bulk of these enemies, the revolutionary bulk, at that.

The working class of the land, the historically revolutionary element, is grouped by the leading occupations, agricultural as well as industrial, in such manner that the "autonomous craft union," one time the palladium of the workers, has become a harmless scarecrow upon which the capitalist birds roost at ease, while the industrial unions cast ahead of them the constituencies of the government of the future, and, jointly, point to the industrial state.

Nor yet is this all. Not only has the political state raised its own enemies; not only has itself multiplied them; not only has itself recruited and drilled them; not only has itself grouped them into shape and form to succeed it; it is, furthermore, driven by its inherent necessities, prodding on the revolutionary class by digging ever more fiercely into its flanks the harpoon of exploitation.

With the purchasing power of wages sinking to ever lower depths; with certainty of work hanging on ever slenderer threads; with an evermore gigantically swelling army of the unemployed; with the need of profits pressing the plutocracy harder and harder recklessly to squander the workers' limbs and life; what with all this and the parallel process of merging the workers of all industries into one interdependent solid mass, the final breakup is rendered inevitable and at hand.

No wild schemes and no rainbow-chasing will stead in the approaching emergency. The plutocracy knows this—and so does the Socialist Labor party—and logical is the program of each.

The program of the plutocracy is feudalic autocracy, translated into capitalism. Where a social revolution is pending, and, for whatever reason, is not enforced, reaction is the alternative.

The program of the Socialist Labor party is revolution—the industrial or Socialist republic, the social order where the political state is overthrown; where the Congress of the land consists of the representatives of the useful occupations of the land; where, accordingly, a government is an essential factor in production; where the blessings to man that the trust is instinct with are freed from the trammels of the private ownership that now turn the potential blessings into a curse; where, accordingly, abundance can be the patrimony of all who work, and the shackles of wage slavery are no more.

In keeping with the goals of the different programs are the means of their execution.

The means in contemplation by reaction is the bayonet. To this end reaction is seeking, by means of the police spy and other agencies, to lash the proletariat into acts of violence that may give a color to the resort to the bayonet. By its maneuvers it is egging the working class on to deeds of fury. The capitalist press echoes the policy, while the pure and simple political Socialist party press, generally, is snared into the trap.

On the contrary, the means firmly adhered to by the Socialist Labor party is the constitutional method of political action, backed by the industrially and class-consciously organized proletariat, to the exclusion of anarchy, and all that thereby hangs.

At such a critical period in the nation's existence the Socialist Labor party calls upon the working class of America, more deliberately serious than ever before, to rally at the polls under the party's banner. And the party also calls upon all intelligent citizens to place themselves squarely upon the ground of working class interests and join us in this mighty and noble work of human emancipation, so that we may put summary end to the existing barbarous class conflict by placing the land and all the means of production, transportation and distribution into the hands of the people as a collective body, and substituting for the present state of planless production, industrial war and social disorder, the Socialist or industrial commonwealth—commonwealth in which every worker shall have the free exercise and full benefit of his faculties, multiplied by all the modern factors of civilization.

SOCIALIST LABOR PARTY STATE PLATFORM.

(Adopted at St. Louis, Mo., August 25, 1914.)

The Socialist Labor party of the State of Missouri, in accordance with its national platform and in accordance with the international Socialist movement, declares:

In view of the tremendous law of industrial evolution, as hitherto proclaimed by the Socialist Labor party, dominant wealth has to such an extent concentrated into the hands of a few, capitalist rule can no longer maintain itself in its old form of government, and is breaking through its republic-democratic shell and stretching out its hands toward absolutism.

The progress of plutocracy is feudalic autocracy translated into capitalism. Only two programs grasp the situation—the program of the Socialist Labor party and the program of plutocracy.

Geographical representative government, separate and apart from industry, has reached its climax. The plutocracy sees this; so does the Socialist Labor party. While one, the plutocracy, leans toward industrial autocratic government, the other, the Socialist Labor party, backed by the revolutionary class conscious industrially organized proletariat, leans toward an industrial democracy; a representative constitutional government by the industrial vote.

The means to bring about this revolution is the constitutional method of political action, backed by an industrial organization of the working class, to the exclusion of anarchy.

While hitherto the underclass, in whose hands the future state rests, suffered from the development of capitalism, it also suffered from the incompleteness of that development. The capitalist system having now reached the end of its tether, the industrial republic throbs for birth. Therefore, the Socialist Labor party of the State of Missouri warns all wageworkers to support no reform issues which spring from the lower layers of the capitalist class, and calls upon all working people to rally under the banner of the Socialist Labor party to make a clean swath of this entire system under which labor is bought and sold like merchandise.
